---

Dear Ms. Holmes,

Please see the attached U.S. Navy and U.S. Coast Guard's transmittal letter and Coastal Consistency Determination for proposed activities in the Atlantic Fleet Training and Testing (AFTT) Study Area. This Phase IV CZMA consultation supplements the AFTT Phase III Coastal Consistency Determination to account for changes in the Action Proponents' proposed training and testing. These proposed activities are generally consistent with those analyzed in prior Navy consultations and are representative of the activities the Action Proponents have been conducting in the AFTT Study Area for decades.

Please let me know if you have any questions or need additional information.

Respectfully,

Laura Busch  
US Fleet Forces  
Environmental Readiness Division
