

U.S. Army Corps of Engineers (USACE) APPLICATION FOR DEPARTMENT OF THE ARMY PERMIT For use of this form, see 33 CFR 325. The proponent agency is CECW-COR.		Form Approved - OMB No. 0710- 0003 Expires: 2027-10-31	
The public reporting burden for this collection of information, OMB Control Number 0710-0003, is estimated to average 11 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or burden reduction suggestions to the Department of Defense, Washington Headquarters Services, at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil . Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. PLEASE DO NOT RETURN YOUR APPLICATION TO THE ABOVE EMAIL.			
PRIVACY ACT STATEMENT			
Authorities: Rivers and Harbors Act, Section 10, 33 USC 403; Clean Water Act, Section 404, 33 USC 1344; Marine Protection, Research, and Sanctuaries Act, Section 103, 33 USC 1413; Regulatory Programs of the Corps of Engineers; Final Rule 33 CFR 320-332. Principal Purpose: Information provided on this form will be used in evaluating the application for a permit. Routine Uses: This information may be shared with the Department of Justice and other federal, state, and local government agencies, and the public and may be made available as part of a public notice as required by Federal law. Submission of requested information is voluntary, however, if information is not provided the permit application cannot be evaluated nor can a permit be issued. One set of original drawings or good reproducible copies which show the location and character of the proposed activity must be attached to this application (see sample drawings and/or instructions) and be submitted to the District Engineer having jurisdiction over the location of the proposed activity. An application that is not completed in full will be returned. System of Record Notice (SORN). The information received is entered into our permit tracking database and a SORN has been completed (SORN #A1145b) and may be accessed at the following website: http://dpcl.d.defense.gov/Privacy/SORNsIndex/DOD-wide-SORN-Article-View/Article/570115/a1145b-ce.aspx

NAME, LOCATION, AND DESCRIPTION OF PROJECT OR ACTIVITY

12. PROJECT NAME OR TITLE (see instructions)

Sargio Corporation L&R Dock

13. NAME OF WATERBODY, IF KNOWN (if applicable)

Lewes and Rehoboth Canal/Rehoboth Bay

14. PROJECT STREET ADDRESS (if applicable)

Address

15. LOCATION OF PROJECT

Latitude: °N 38.6996102

Longitude: °W -75.0940241

City – Rehoboth Beach

State – DE

Zip –

16. OTHER LOCATION DESCRIPTIONS, IF KNOWN (see instructions)

State Tax Parcel ID 3-34-19.16-23.02

Municipality –

Section –

Township –

Range –

17. DIRECTIONS TO THE SITE

From Dover, south Rt1/Coastal Hwy. to Bay Vista Road, turn right, travel just under 3/4 mile to 1st Street, turn left, travel 2/10 of a mile, the site is at the terminus of 1st Street.

18. Nature of Activity (Description of project, include all features)

The proposed project consists of a 3 foot wide by 127 foot long wetland walkway elevated 3 feet above the existing State-regulated tidal wetlands, a 4 foot wide by 26 foot long pier (16 feet of the pier located from mean high water to mean low water and 10 feet channelward of mean low water), and a 5 foot wide by 40 foot long dock. All structures will be constructed using marine grade treated lumber. The length of the pier has been calculated to place the dock at a water depth adequate for two vessels to be berthed and maneuvered to and from the dock and not encroach into WOTUS any more than necessary. The contractor will use mats while performing construction in tidal wetlands and will minimize traversing within the wetlands by using the smallest footprint possible. All pilings on each structure will be vibrated, no jetting or digging will be performed. The pier and dock will occupy space in WOTUS but is not anticipated to cause disruption to public recreation as this structure falls in line with other structures authorized within the Lewes and Rehoboth Canal. The structures are not anticipated to cause erosion or flooding and is not anticipated to change the normal ebb and flood of the canal. The construction work will disrupt localized wildlife and plant life; however, it is anticipated that some avian species will utilize the structures for resting and aquatic creatures such as crabs and minnows will use the structures to hide from predators.

The proposed project consists of a 3 foot wide by 127 foot long wetland walkway elevated 3 feet above the existing State-regulated tidal wetlands, a 4 foot wide by 26 foot long pier (16 feet of the pier located from mean high water to mean low water and 10 feet channelward of mean low water), and a 5 foot wide by 40 foot long dock. All structures will be constructed using marine grade treated lumber. The length of the pier has been calculated to place the dock at a water depth adequate for two vessels to be berthed and maneuvered to and from the dock and not encroach into WOTUS any more than necessary. The contractor will use mats while performing construction in tidal wetlands and will minimize traversing within the wetlands by using the smallest footprint possible. All pilings on each structure will be vibrated, no jetting, dredging, or excavating will take place. The contractor selected has developed a reputation for doing work well and is environmentally conscious.

19. Project Purpose (Describe the reason or purpose of the project, see instructions)

The purpose of this project is to provide a berthing area for two vessels. The lot associated with this project is currently vacant; however, the applicant intends to construct a single family home on the lot. The wetland walkway, pier, and dock will allow the family to access the berthed vessels which will be used for fishing, crabbing, and other water sport activities.

USE BLOCKS 20-23 IF DREDGED AND/OR FILL MATERIAL IS TO BE DISCHARGED

20. Reason(s) for Discharge

21. Type(s) of Material Being Discharged and the Amount of Each Type:

See Appendix C

22. Surface Area in Acres of Wetlands or Other Waters Filled (see instructions)

See Appendix C

23. Description of Avoidance, Minimization, and Compensation (see instructions)

The applicant wishes to berth two vessels in the Lewes and Rehoboth Canal. In order to access the canal, State-regulated tidal wetlands need to be crossed, and a dock and pier must be constructed to berth and gain access to the vessels. The wetland walkway will be constructed in accordance with the State of Delaware Title 7, Chapter 66 Wetland Regulations. The pier and dock dimensions follow the Chapter 72 Subaqueous Lands Regulations. The pier has been designed to place the dock only channelward enough to reach adequate water depth so the vessels will have adequate water depth as to not rest on the bottom and be able to maneuver at low tide. It is our goal to place the least amount of structure within the wetlands and canal as possible.

24. Is Any Portion of the Work Already Complete? Yes No

If Yes, describe the completed work:

25. Addresses of Adjoining Property Owners, Lessees, Etc., Whose Property Adjoins the Waterbody (if more than can be entered here, please attach a supplemental list).

a. Address – 37777 Bay Harbor Cir

City – Rehoboth Beach

State – DE

Zip – 19971

b. Address – 89 Kings Highway

City – Dover

State – DE

Zip – 19901

c. Address – 229 Rehoboth Ave

City – Rehoboth Beach

State – DE

Zip – 19971

26. List of Other Certificates or Approvals/Denials received from other Federal, State, or Local Agencies for Work Described in This Application.

AGENCY	TYPE APPROVAL	IDENTIFICATION NUMBER	DATE APPLIED	DATE APPROVED	DATE DENIED
--------	---------------	--------------------------	--------------	---------------	-------------

* Would include but is not restricted to zoning, building, and flood plain permits

27. Application is hereby made for permit or permits to authorize the work described in this application. I certify that this information in this application is complete and accurate. I further certify that I possess the authority to undertake the work described herein or am acting as the duly authorized agent of the applicant.

/s/ - provided on authorized agent form		Kelly Figurski	08/10/2025
SIGNATURE OF APPLICANT	DATE	SIGNATURE OF AGENT	DATE

The Application must be signed by the person who desires to undertake the proposed activity (applicant) or it may be signed by a duly authorized agent if the statement in block 11 has been filled out and signed.

18 U.S.C. Section 1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly and willfully falsifies, conceals, or covers up any trick, scheme, or disguises a material fact or makes any false, fictitious or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious or fraudulent statements or entry, shall be fined not more than \$10,000 or imprisoned not more than five years or both.
