Hello!

I am writing as a concerned citizen urging you to do everything in your power to continue to protect our coastline and prevent Project Washington from moving forward.

I could list all of the reasons why, but you've already heard them. Let me simply say, The cost is far too great to our natural resources and is not sustainable without great impact to our wildlife, resources and community. It will not create long term jobs and it will crush us with utility bills. Please be the stop gap to this madness.

Please join us in stopping Project Washington for the good of our state.

I humbly thank you for your time and hope you make the right decision for our community.

Best,
Christine P [REDACTED]
