Subject: NO DATA CENTER
Date: Friday, January 9, 2026 6:51:58 AM

I've been a Delaware resident all of my life. I was born and raised in [REDACTED]. I have much pride and love seeing Delaware grow.

But this Washington project can't continue! This is wrong for Delaware. We already have the worst superfund site near this proposed project. How much more can we poison New Castle County. We are paying out the nose with electrical cost, because Delaware can't get clean energy. Delmarva is putting those fees onto the taxpayers of Delaware.

How can this data center get more electricity?

How will these generators pollute our air?

We already have an oil refinery that gets fined for polluting our air!

Please please say no to this data center.

Very Concerned Home Owner
