Good morning ,

I live within a mile of the planned data center.

Have lived here for over 25yrs .,my husband and I have both worked and retired after 35 and 28 yrs of honest hard work ,we expected to be able to retire and not have to worry every month to month weather we cab afford to pay our ever rising utilities bills .As well as future ecological impact on this area .

We are very concerned about what the future looks like with this Data center so near to us .

I would of hoped our voted in government would care more about the impact this will cause in the lives of those closest to the Center ,rather then monetary side.whitch i an still not sure what the benefits of having this site built with obvious utility and environmental issues and concerns it will bring.

Sincerely

R A [REDACTED]
