Please do not allow these types of operations to begin in Delaware. If you take a trip to Loudon County, Virginia, you will find an unprecedented amount of data centers spanning across some of the most beautiful landscape associated with the Blue Ridge Mountains. Hundreds, if not thousands of acres of natural woodland and wildlife has been uprooted and tossed to the side. You went to school to be environmental scientists, environmental crime investigator and Wildlife Conservationist. The approval of the data center would disavowal every one of those degrees. Do your part on not allowing these superstructures to take over our beautiful landscape. We don't have much as it is. Thank you for your time.
