Good Afternoon,

My name is Casey D [REDACTED]. I live [REDACTED]. I am reaching out as a concerned citizen to express my doubts and worries about the proposed data center in Delaware City.

While this plan promotes bringing jobs to Delaware, the environmental concerns to our air, water, and resources outweigh any benefits. This project will utilize 580 acres of land next to the Delaware River, impacting the entire New Castle County community. These centers require large amounts of water and energy to maintain, utilizing Delaware resources for a Capital Group headquartered in Florida that manages over \$120 billion in assets.

I want to be clear that I know it's easy to be swayed by the thought of additional tax revenue, but Delaware's natural resources are worth protecting. Ultimately, the people benefiting the most from this project are not Delawareans but we will be the one's experiencing the outcomes.

Please protect Delaware and our resources.

Thank you for your time,  
Casey D [REDACTED]
