State (DNREC) Review Underway for Proposed 1.2 GW, 6 Million Sq Ft Data Center Near Delaware City

To DNREC and to Whom it Concern:

I am asking for DNREC to schedule a public hearing on the proposed 1.2GW Data Center near Delaware City. I am asking for the public hearing so a larger numbers of DE and NCC residents may express there concerns and ask questions regarding the project impact on DE and NCC resources as well as any environmental impact on local residents and the greater region.

I believe the public hearing is especially import due to the lack of cooperation by the developer with State and NCC land use authorities and legislators seeking to reach an equitable framework for the development of the project.

Given the lack of cooperation demonstrated by the project developer, any forbearance sought from current regulations, should receive serious consideration and due diligence, as the current lack of cooperation demonstrated, would suggest the project developer would not be inclined to present a different regulatory posture in the future.

Thank you for your time and consideration.

Happy Holidays
