Subject: The data center needs permits and no exemption
Date: Friday, December 19, 2025 2:40:39 PM

Hello,

This is Lan, living at [REDACTED]

It took Delawarers many years to partially restore the natural habitat along the river, and to protect the river and the whole state's environment is a top priority for our people.

The data center, in current fast growing IT area, is very important; but should strictly abide by environmental regulations.

Thank you,
Lan
