RE: Recycled drywall product markets.

Agri Marketing Inc dba USA Gypsum (USAG) has been in business since 1998 and operates gypsum recycling facilities in Pennsylvania.

USAG markets gypsum products under the USA Gypsum trademark. USAG has been granted general permit WMGM038-SC001 by the Pennsylvania Department of Environmental Protection which permits us to accept & process drywall scrap and market our materials to agricultural markets for beneficial Use. We are also licensed by the PA department of Agriculture as a fertilizer manufacturer.

USAG recycles drywall received into products including:

- The core of the drywall becomes pulverized gypsum used as a soil amendment.
- Granular gypsum particles are used for animal bedding and soil amendments.
- Paper stripped from the drywall is shredded and used as dairy cow bedding.

More information about recycled drywall products is available on our website.

USAG agrees to accept drywall scraps from Sun Shore Recycling according to the conditions of the USAG Permit.

Sincerely,

Terry Weaver,
President,
Agri Marketing, Inc.
