SOLID WASTE TRANSPORTER PERMIT APPLICATION

Instructions: You must complete this application in its entirety and attach all applicable documentation.
(Note: For applicants renewing an existing permit, this application requires the submission of updated information and documentation. References to material submitted under previous applications are no longer accepted.)

The application must be signed by the company owner or a corporate officer. A check or money order payable to the "State of Delaware" must accompany this application and be sent to:

Delaware Department of Natural Resources and Environmental Control
Compliance and Permitting Section
89 Kings Highway
Dover, DE 19901

1. Type of Permit

- New - SCRAP TIRES ONLY Submit a check or money order, payable to the "State of Delaware," in the amount of \$75.00.
New - ALL OTHERS Submit a check or money order, payable to the "State of Delaware" in the amount of \$350.00.
Renewal: Permit # DE-SW- 1829 Expiration Date 03/31/2025

Please indicate the term for which you desire your permit to be issued. Submit a check or money order, payable to the "State of Delaware," for the indicated permit fee.

SCRAP TIRES ONLY

ALL OTHERS

- One Year - \$75.00
Two Years - \$125.00
Three Years - \$175.00
Four Years - \$225.00
Five Years - \$275.00
One Year - \$350.00
Two Years - \$650.00
Three Years - \$950.00
Four Years - \$1250.00
Five Years - \$1550.00

2. Release to Public

Do you wish to be included on the list of transporters that is provided to persons requesting a list of Delaware permitted solid waste transporters? Yes No

3. Company Information

Company Name WRS Environmental Services, Inc. dba Champion Environmental Services

Location Address:	Mailing Address:
65 Corporate Drive Holtsville NY 11742	65 Corporate Drive Holtsville NY 11742

Contact: Courtney Lampasona Title: Director of Human Resources

Business Phone: 631-924-8111 Fax: N/A

E-mail: clampasona@championssc.com

24 hr Emergency Contact Phone: 631-924-8111

4. Company Ownership Information

(a). Please indicate the company type:

- Proprietorship
- Partnership
- Corporation - If company is a corporation, indicate city, state, and date of incorporation.

City: Albany State: NY Date: 04/09/2007

- Municipality
- Public institution
- Limited Liability Corporation (LLC) State: _____
- Other: (must specify) _____

(b). For each Owner, Partner, or Corporate Officer, attach a list with name, title, mailing address, date of birth, and % ownership. Include all stockholders owning greater than 5% outstanding shares.

Attachment A

(c). If company is owned by or affiliated with a parent company, attach parent company name, address & mailing address, and % ownership.

- Attachment B
- No parent company

5. Company locations in Delaware

List name and street address of each company location, including freight terminals, within the State of Delaware.

- Attachment _____
 No Delaware locations

6. Company Affiliates

List name, location and mailing addresses, nature of business relationship of all company Affiliates, which affiliates are engaged in the business of waste transport, treatment, storage, disposal, recovery or reclamation. (Affiliated companies are defined as those companies owned by the same owners, corporate officers, or parent company.)

- Attachment B
 No affiliates

7. Type of Waste to be Transported

(a). Check all that apply. Refer to Delaware's *Regulations Governing Solid Waste* for definitions of waste categories.

- Residential waste
 Commercial waste (from **non-manufacturing, non-processing** businesses and offices)
 Industrial waste (from a manufacturing or industrial process)
 Dry waste: construction/demolition debris
 trees/stumps
 other (must specify) _____
 Ash: municipal incinerator
 coal ash
 other (must specify) _____
 Infectious waste
 Non-hazardous petroleum-hydrocarbon contaminated soils
 Asbestos-containing waste
 Scrap Tires

(b). Does your company collect and transport residential (household) waste from single family homes, condominiums and apartment complexes in Delaware? Yes No

(c). If you answered "YES" to question 7.b., above, does your company provide recycling services to those customers? Yes No N/A

(d). If you offer recycling services, does your company collect and transport the recyclables separately from the waste generated by your customers? Yes No

(e). If you offer recycling services, are the recyclables ultimately taken to an incinerator (waste-to-energy) or landfill? Yes No

8. Treatment, Storage, and Disposal Facilities

- (a). Do you cross state lines with the waste? Yes No
- (b). Identify in an attachment *all* solid waste Treatment, Storage, Disposal Facilities, Reclamation Facilities and Transfer Stations to which the waste will be transported.
- Delaware Solid Waste Authority locations: (attachment) _____
 - Clean Earth of New Castle, Inc. (thermal treatment facility for PHC-soils)
 - Delaware Recyclable Products, Inc. (dry waste, commercial, industrial, and PHC-soils)
 - Other in-state solid waste facilities, including private facilities: (attachment) _____
 - Out of state solid waste TSD facilities: (attachment) C _____

9. Other Transporter Permits

- (a). Attach a copy of your home state solid waste transporter permit. (N/A if Delaware is your home state.)
- Attachment D _____
- Not applicable-No transporter permit required for these solid waste types in our home state.

- (b). List solid waste transporter permits held in other states.

- Attachment E _____
- No transporter permits in other states

- (c). Indicate your Federal DOT number and Motor Carrier number:

DOT# 2103740 MC# _____

- N/A If N/A, please provide an explanation, on the following page, as to why you are not required to have a DOT or MC number.

10. Proof of Financial Responsibility

The transporter must submit proof of financial responsibility as established in section 7.2.4 of Delaware's *Regulations Governing Solid Waste*. This proof may be established by a Certificate of Insurance, with MCS-90 endorsement where applicable, or by other means approved by the Department. (The Certificate of Insurance must identify the **Department of Natural Resources and Environmental Control, Compliance and Permitting Section** as the certificate holder.)

- (a). Are you for-hire in interstate commerce? Yes No (For-Hire means you are in the business of transporting, for compensation or payment, wastes generated by a company other than your own.)
- (b). Do you transport in the State of Delaware Only (Intrastate)? Yes No
- (c). Do you transport Interstate? Yes No

- (d). Certificate of Insurance must be attached and include minimum automobile liability coverage as follows:

	FOR-HIRE INTERSTATE	ALL OTHERS
Residential Waste	\$750,000.00 + MCS-90 <input type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Commercial Waste	\$750,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Industrial Waste	\$750,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Dry Waste	\$750,000.00 + MCS-90 <input type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Ash	\$750,000.00 + MCS-90 <input type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Infectious Waste	\$1,000,000.00 + MCS-90 <input type="checkbox"/>	\$750,000.00 + MCS-90 <input type="checkbox"/>
Non-Hazardous Petroleum Contaminated Soils	\$750,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Asbestos	\$1,000,000.00 + MCS-90 <input type="checkbox"/> (For Hire & Private)	\$350,000.00 <input type="checkbox"/>
Scrap Tires Only	\$350,000.00 <input type="checkbox"/>	\$350,000.00 <input type="checkbox"/>

11. Spill Control and Safety

List all spill control and safety equipment which will be carried on each vehicle. (**Note:** Separate lists by type of vehicle and type of waste may be required.) Attach a copy of the Spill Control Plan. The Spill Control Plan **must** contain the following elements: (1) List of safety and spill control equipment carried in the vehicle, (2) Driver preventive measures, (3) Driver immediate corrective actions, (4) Company internal communications, (5) Company external communications including the **Delaware Emergency Reporting Numbers: 1-800-662-8802 and 302-739-9401**, and (6) Cleanup and decontamination measures.

- ✓ Spill Control Plan: Attachment F

12. Driver Training

IN SUMMARY OR OUTLINE FORM, describe the procedures that your company takes to ensure that all company drivers are safe and competent drivers. Small owner-operators may describe their years of experience and driving record in lieu of a formal program.

- (a). Include requirements for special licenses (e.g. CDL, including any special endorsements), any special training received, including dates training was received (e.g. asbestos training), and any ongoing company programs. (e.g. weekly safety meetings or annual refresher courses);
- (b). Include your company procedure for periodic checks of the driver's records for moving violations, and your company policy on progressive counseling/discipline based on points;
- (c). Describe how drivers are instructed in the following:
 - (i) Knowledge of proper handling procedures for the type of solid waste being transported.
 - (ii) Familiarity with the approved accidental discharge containment plan. (Spill Control Plan)
 - (iii) Familiarity with the conditions of the solid waste transporter's permit.

- ✓ Driver Training, attachment G

13. Vehicle Identification

On the form provided with this application, list **MAKE, MODEL, YEAR, SERIAL NUMBER, LICENSE PLATE NUMBER, STATE OF REGISTRATION, MANUFACTURER'S GVWR and OWNERSHIP** of all vehicles used for the transportation of solid waste. You must list both motorized and container units. (If you maintain a list of company vehicles in a computer database you may submit a print out of the vehicles provided it contains the information requested herein.)

NOTE: You must notify CAPS in writing of any changes to information contained within this application, such as additions or deletions of vehicles, in accordance with conditions of the issued permit.

Vehicle List Attached

14. Vehicle Operator Information

Is a list of all vehicle operators attached? Yes

What tax form do you submit to the IRS for your vehicle operators?

- Form W-2
 Form 1099-Misc
 Other

15. Environmental Record

List all criminal citations, arrests, convictions, civil or administrative violations, and civil or administrative enforcement actions, and the disposition(s) thereof for the violation or alleged violation of any environmental statute, regulation, permit, license, approval, or order, regardless of the state in which it occurred. Indicate whether it was a local, state, or federal violation or alleged violation. List all such items for the applicant, and if the applicant is other than an individual, for any employee while employed by the applicant, or any partner, officer, or director of the applicant as an individual or for any former business of such partner, officer, or director. For civil or administrative violations or alleged violations, list all such items for the last five (5) years from the date of the application. Information submitted under this section is subject to verification. **Failure to submit complete and accurate information may lead to permit denial or revocation.**

- Attachment H
 No violations within the specified time period

16. Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, upon personal knowledge and information, the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information.

**Signature  Date 12/05/2024
Print Name Carlos M. Hernandez Title CEO

****A legal owner or corporate officer must sign the application****

SPILL CONTROL PLAN FOR SOLID WASTE HAULERS

- (1) Spill control and safety equipment carried in each vehicle:
 - 1). Reflectors and/or flares
 - 2). Fire extinguisher
 - 3). First aid kit
 - 4). Heavy-duty gloves, hard hat
 - 5). Flashlight
 - 6).
- (2) All loads will be enclosed, covered, or tarped to prevent accidental discharge of the waste during transport to the disposal facility.
- (3) The driver will perform the following pre-trip inspections:
 - 1).
 - 2).
- (4) If there is an accident or other emergency which causes a portion of the load to be spilled, the driver, if uninjured, will contact the following designated company coordinator:
Name: _____ Phone: _____
- (5) The designated coordinator will contact the state and municipal authorities where the accident occurred. If the accident or spill has the potential to cause environmental damage, (either due to the nature of the waste, location of the accident, or additional factors such as leaking oil, gasoline, or hydraulic fluid) the person contacted will notify the state emergency response team, by calling one of the following numbers:
Delaware: 911, (302) 739-9401 or 1-800-662-8802 (*Other numbers may be listed as follows, however, the listed Delaware numbers **must** be included in the spill control plan.*)
Maryland:
New Jersey:
- (6) The designated coordinator will contract for clean-up services with another company. (*This is optional, however, if another company is to be contracted, please append a list of cleanup companies by either region or state.*)
- (7) This plan will be carried in all vehicles, along with the permit.

WASTE TRANSPORTER PERMIT

GENERAL CONDITIONS

The permittee must:

1. Carry a copy of this waste transporter permit in each vehicle to transport waste. Failure to produce a copy of the permit upon request is a violation of the permit.
2. Display the full name of the transporter on both sides of each vehicle and display the waste transporter permit number on both sides and rear of each vehicle containing waste. The displayed name and permit number must be in characters at least three inches high and of a color that contrasts sharply with the background.
3. Transport waste only in authorized vehicles. An authorized vehicle is one that is listed on this permit.
4. Submit to the Department a modification application for additions/deletions to the authorized fleet of vehicles. The permittee must wait for a modified permit before operating the vehicles identified in the modification application.
5. Submit to the Department a modification application to add a new waste category or a new destination facility, or to change the current waste or destination facility category. The permittee must wait for a modified permit before transporting new waste types or transporting to new destination facilities.
6. Submit to the Department a modification application for change of address or company name.
7. Comply with requirements for placarding and packaging as set forth in New York State Transportation Law as well as any applicable federal rules and regulations.
8. Contain all wastes in the vehicle so there is no leaking, blowing, or other discharge of waste.
9. Use vehicles to transport only materials not intended for human or animal consumption unless the vehicle is properly cleaned.
10. Comply with requirements for manifesting hazardous waste, regulated medical waste, or low-level radioactive waste as set forth in the New York State Environmental Conservation Law and the implementing regulations. Transporters who provide a pre-printed manifest to a generator/shipper/offeror of regulated waste shall ensure that all information is correct and clearly legible on all copies of the manifest.
11. Deliver waste only to transfer, storage, treatment and disposal facilities authorized to accept such waste. Permittee must demonstrate that facilities are so authorized if requested to do so.
12. Maintain liability insurance as required by New York State Environmental Conservation Law.
13. Maintain records of the amount of each waste type transported to each destination facility on a calendar-year basis. The transporter is obligated to provide a report of this information to the Department at the time of permit renewal, or to any law enforcement officer, if requested to do so.
14. Pay regulatory fees on an annual basis. Non-payment may be cause for revocation or suspension of permit.
15. This permit is not transferrable. A change of ownership will invalidate this permit.
16. This permit does not relieve the permittee from the obligation to obtain any other approvals or permits, or from complying with any other applicable federal, state, or local requirement.
17. **Renewal applications must be submitted no less than 30 days prior to the expiration date of the permit to:**

SPCC PLAN OUTLINE (WRSES REQUIREMENTS)

- **1.A. - Site Information:** Identify general site or vehicle information useful in planning, recognizing potential sources of spills, and identifying personnel responsible for managing and implementing the plan.
- **1.B. - Site or Vehicle Description:** Identify staging, storage, maintenance, and refueling areas and their relationship to drainage pathways, waterways, and other sensitive areas. Specifically address:
 - Equipment maintenance, refueling, cleaning activities and;
 - On site storage areas for hazardous materials.
- **1.C. - Spill Prevention and Containment:** Identify spill prevention and containment methods to be used at each site locations and vehicles.
- **1.D. - Spill Response:** Outline spill response procedures including assessment of the hazard, securing spill response and personal protective equipment, containing and eliminating the spill source, and mitigation, removal and disposal of the material.
- **1.E. - Standby, On-Site Material and Equipment:** The plan shall identify the equipment and materials maintain on site/vehicles to carry out the preventive and responsive measures for the items listed.
- **1.F. – Reporting:** The plan shall list all federal, state and local agencies telephone numbers that the Contractor must notify in the event of a spill.
- **1.G. - Program Management:** Identify site security measures, inspection procedures and personnel training procedures as they relate to spill prevention, containment, response, management and cleanup.
- **1.H. - Pre-existing Contamination:** If pre-existing contamination in the project area is described elsewhere in the plans or specifications, the SPCC plan shall indicate measures the Contractor will take to conduct work without allowing release or further spreading of the materials.
- **2.A. – Attachment:** Site plan showing the locations of spill, containment area and identified location of spill response material and equipment.
- **2.B. – Attachment:** Spill and Incident Report Forms, if any, that will be used.

INTRODUCTION

This Spill Prevention Control and Countermeasure (SPCC) Plan has been prepared by ***WRS Environmental Services, Inc.*** to satisfy federal, state and local standard regulatory requirements. This SPCC plan shall be modified to reflect site specific conditions and outline the project scope of work (including equipment, materials, and activities) and presents a comprehensive plan to prevent, respond to, and report spills or releases to the environment. The SPCC plan shall be updated as project work progresses or site activities change. An updated copy of this SPCC plan will be maintained at the project site.

SITE INFORMATION

This SPCC plan was developed for instructional and reference purpose to assist employees prevent, responding to and reporting spills as required by DOT, federal, state and local regulatory agencies. WRS Environmental Services, Inc. is a full service environmental company specializing in emergency spill response, control and countermeasures for various clients within the Tri-State area. Primary purpose of this plan is to assist, guide and educate all involved parties with the necessary tools to prevent, respond and handle an environmental spill.

General Site Information

WRS Environmental Services, Inc. (WRSES) manages a fleet of tankers and vacuum trucks to accept third-party waste as well as spill clean up. Vehicles are designated to handle various waste streams depending on the type and size of the spill. Each vehicle is equipped with an emergency spill control kit, inflatable berm and spill response instructions with emergency contact numbers. A number of advanced response mechanisms are available for controlling spills and minimizing their impacts on human health and the environment. The key to effectively combating spills is careful selection and proper use of the equipment and materials best suited to the type of oil/chemical and the conditions at the spill site.

Sensitive Areas/Receptors

Controlling spills from entering sensitive areas such as; floor drains, shorelines, wetlands, and from flammable chemicals.

Potential Spill Sources

Spill sources are generally divided into three (3) categories: radioactive, biological and chemical.

Radioactive Spills:

General guide for radioactive spills

- Restricting movement of all personnel is essential. Movement of people around a radiation spill can spread radiation beyond spill area
- Consider persons in area contaminated until monitoring proves otherwise
- Dispose of cleanup materials as radioactive waste
- Report all spills to supervisor

Simple spills

<10 uCi activity and
<1-liter volume

- Alert people in the area
- Don protective equipment
- Place absorbent pad over liquid spills, damp absorbent pad over solid spills
- Clean with normal lab cleaning agents, working from spill outer edge inward
- Monitor area and personnel
- Repeat cleanup until no contamination is detected
- Notify Hazardous Material Operation Supervisor (HOS).

Major spills

>10 uCi activity or
>1-liter volume

- Evacuate area
- Have potentially contaminated people stay in one area until they have been monitored and shown to be free of contamination
- Prevent entrance into area
- Call HOS before proceeding with cleanup, after hours call Emergency Response Number.

Biological Spills:

General guide for biological spills

- Spills outside a biological safety cabinet (BSC) generate aerosols, creating a greater hazard than spills inside a BSC
- Keep cleanup materials inside BSC (removing hands from inside cabinet disperses aerosols outside cabinet)
- Leave BSC running during cleanup and at least 10 minutes after completion
- Wash hands/face before and after cleanup
- Don fresh pair of disposable gloves before starting cleanup

- A 1 to 10 biocide solution is commonly used as a disinfectant; allow 20 minutes contact time, work cautiously and thoroughly, repeat three (3) times and HEPA vacuum with each cleaning.
- Dispose of cleanup materials as biohazard waste, autoclave before removal from area
- Report all spills to HOS.

Spills inside a BSC

- use clean cloth and disinfectant solution to wash interior surfaces
- for moderate to high risk spills, flood catch basins

Spill outside BSC

The spilled organism's class determines cleanup method and level of containment (class 1=BL1).

BL1 containment required

- Decontaminate with disinfectant
- Clean up with disposable towels and disinfectant

BL2 containment required

- Alert people in spill area
- Evacuate for 30 minutes
- Notify HOS
- Wear gloves, lab coat, goggles, and shoe covers (if necessary) to:
 - Isolate spill area
 - Apply absorbent to prevent spreading
 - Pour disinfectant around spill edges
 - Cover with disinfectant-soaked paper towels
 - Work from edges inward
 - Clean area again with disinfectant

BL3 containment required

- Hold your breath and evacuate immediately
- Close all doors
- Notify supervisor and HOS immediately
- HOS will direct cleanup. Respiratory protection required

Chemical Spills:

General guide for chemical spills

- Determine identity
- Consult MSDS
- Avoid breathing vapors, get as much fresh air into area as you can safely
- Absorbents and neutralizing agents must be compatible with chemical spilled
- Prevent spilled chemicals from going down drains (public water supply)
- Dispose of cleanup materials as chemical hazardous waste, small volumes of dilute acids and bases may be neutralized (pH 6-8) and discharge into sanitary sewer
- Call HOS for hazardous waste pickup, or guidance on cleanup or air monitoring

Simple spills--liquid

- Alert people in area
- Wear protective equipment
- Contain with appropriate absorbent
- Flammable--remove ignition sources (burners, motors, anything that could cause a spark), use plastic or nonmetallic cleanup equipment
- Absorb or neutralize with appropriate agent working from outside edges inward, sorbent do not remove toxic or flammable hazards, neutralization can produce heat causing boiling and splattering
 - Acid--sodium bicarbonate or acid spill kit
 - Base--sodium bisulfate, citric acid, or base spill kit
 - Formaldehyde--absorb or use polymerizer

Simple spills--dry

- If not water reactive, dampen to prevent airborne dust
- Control water reactive dust with sweeping compound

- Carefully brush solids into a dust pan or container
- Keep dust generation down to prevent creating inhalation hazard

Compressed gas leak--simple

- Presents no inhalation hazard
- Restrict access
- Place in fume hood if possible, tighten fittings
- Locate leak with soapy water (at below freezing temperatures use 50% glycerin solution)
- If cylinder still leaks, contact supplier

Compressed gas leak--major

- Large or uncontrollable leak or fire hazard
- Evacuate, ventilate affected area
- Call 911
- Contact supplier

Mercury

- Large or heated spills can be an inhalation hazard
- Isolate area to prevent tracking
- Wear gloves and shoe covers (if on floor)
- Consolidate and collect droplets using scraper, cardboard, wet paper towel, aspirator bulb, tape or special sponge from Biochemical Store
- Place all waste in sealed container

Major spills

Evacuate, call 911, and wait for responders

Contractor Personnel

The (**WRSES**) designated person responsible for managing, implementing, and maintaining this SPCC plan is Patrick McLoughlin.

Project phone numbers are as follows:

Patrick McLoughlin, Operations Director	631-745-2640
William Cullen	732-915-7553
Joe Robinson	631-300-7599

PROJECT SITE DESCRIPTION

This SPCC Plan applies to all jobsites and vehicles responding to spill clean up assignments.

STANDBY, ON-SITE MATERIAL AND EQUIPMENT

WRS Environmental Services, Inc. (WRSES) manages a fleet of tankers and vacuum trucks to accept third-party waste as well as spill clean up. Vehicles are designated to handle various waste streams depending on the type and size of the spill. Each vehicle is equipped with an emergency spill control kit, portable berm and spill response instructions with emergency contact number. A number of advanced response mechanisms are available for controlling spills and minimizing their impacts on human health and the environment. The key to effectively combating spills is careful selection and proper use of the equipment and materials best suited to the type of oil/chemical and the conditions at the spill site.

Spill Response Equipment Brought On-Site

Recommended Spill Control Material Inventory

Your jobsite work area and vehicle should have sufficient quantities of absorbents or other types of materials to control any spill that can be reasonably anticipated. Sawdust, lined 5-gallon pails and limited spill control materials shall be available in emergency spill response kits, including PPE. Additional materials may be order by contacting the HOS.

Personal Protective Equipment

- 2 pairs chemical splash goggles
- 2 pairs of gloves (recommend Silver Shield or 4H)
- 2 pairs of shoe covers
- 2 plastic or Tyvek aprons and/or Tyvek suits

Absorption Materials

- 4 3M POWERSORB spill pillows (or equivalent)
- 1 3M POWERSORB spill sock
- 2 DOT pails (5 gallon) with polyethylene liners
 - 1 filled with loose absorbent, such as sawdust or clay
 - 1 with minimum amount of loose absorbent in the bottom

Neutralizing Materials

- Acid Neutralizer
- Caustic Neutralizer
 - Commercial neutralizers, such as Neutrasorb (for acids) and Neutracid-2 (for bases) have built in color change to indicate complete neutralization
- Solvent Neutralizer
 - Commercial solvent neutralizers, such as Solusorb, act to reduce vapors and raise the flashpoint of the mixture

Mercury Spills

- Small mercury vacuum to pick up large drops (optional)
- Hg Absorb Sponges - amalgamate mercury residue
- Hg Absorb Powder - amalgamates mercury
- Hg Vapor Absorbent - reduces concentration of vapor in hard to reach areas
- Mercury Indicator - powder identifies presence of mercury

Clean-up Tools

- Polypropylene scoop or dust pan
- Broom or brush with polypropylene bristles
- 2 polypropylene bags
- Sealing tape
- PH test papers
- Waste stickers
- Floor sign - **DANGER Chemical Spill - Keep Away**

Pre-existing Site Conditions

Document all pre-existing site conditions prior to commencing any spill remediation control. Written and photogenic documentation shall be obtained to depicted actual condition.

SPILL PREVENTION AND CONTAINMENT

Mechanical containment or recovery is the primary line of defense against oil spills in the United States. Containment and recovery equipment includes a variety of booms, barriers, and skimmers, as well as natural and synthetic sorbent materials.

Spill Prevention and Containment Methods

Mechanical containment is used to capture and store the spilled material unit it can be disposed of properly. Chemical and biological methods can be used in conjunction with mechanical means for containing and cleaning up oil spills. Dispersants and gelling agents are most useful in helping to keep oil from reaching shorelines and other sensitive areas. Biological agents have the potential to assist recovery in sensitive areas as shorelines, marshes, wetlands, sewers, and floor drains.

SPILL RESPONSE

Response in the first ten to fifteen minutes is critical to minimize the impacts to human health and the environment and to minimize property damage and cleanup costs.

Chemical Spill Procedures

- Spill Response and Clean up Procedures
- Developing a Spill Response Plan
- Recommended Spill Control Materials Inventory

Spill Response and Clean-up Procedures

In the event of a chemical spill, the individual(s) who caused the spill is responsible for prompt and proper clean up. It is also their responsibility to have spill control and personal protective equipment appropriate for the chemicals being handled readily available. See Developing a Spill Response Plan for more information.

The following are general guidelines to be followed for a chemical spill. More detailed procedures may be available in your Departmental Chemical Hygiene Plan or Spill Response Plan.

1. Immediately alert area occupants and supervisor, and evacuate the area, if necessary.
2. If there is a fire or medical attention is needed, contact 911.
3. Attend to any people who may be contaminated. Contaminated clothing must be removed immediately and the skin flushed with water for no less than fifteen minutes. Clothing must be laundered before reuse. See First Aid for Chemical Exposures for more information.
4. If a volatile, flammable material is spilled, immediately warn everyone, control sources of ignition and ventilate the area.
5. Don personal protective equipment, as appropriate to the hazards. Refer to the Material Safety Data Sheet or other references for information.
6. Consider the need for respiratory protection. The use of a respirator or self-contained breathing apparatus requires specialized training and medical surveillance. Never enter a contaminated atmosphere without protection or use a respirator without training. If respiratory protection is needed and no trained personnel are available, call HOS at 631-924-8111. If respiratory protection is used, be sure there is another person outside the spill area in communication, in case of an emergency. If no one is available, contact emergency services @ 911.
7. Using the chart below, determine the extent and type of spill. If the spill is large, if there has been a release to the environment or if there is no one

knowledgeable about spill clean-up available, contact HOS at 631-924-8111 or 911.

Category	Size	Response	Treatment Materials
Small	up to 300cc	Chemical treatment or absorption	Neutralization or absorption spill kit
Medium	300 cc - 5 liters	absorption	Absorption spill kit
Large	more than 5 liters	Call HOS	Outside help

8. Protect floor drains or other means for environmental release. Spill socks and absorbents may be placed around drains, as needed.
9. Contain and clean up the spill according to the table above. Loose spill control materials should be distributed over the entire spill area, working from the outside, circling to the inside. This reduces the chance of splash or spread of the spilled chemical. Bulk absorbents and many spill pillows do not work with hydrofluoric acid. POWERSORB (by 3M) products and their equivalent will handle hydrofluoric acid. Specialized hydrofluoric acid kits also are available. Many neutralizers for acids or bases have a color change indicator to show when neutralization is complete.
10. When spilled materials have been absorbed, use brush and scoop to place materials in an appropriate container. Polyethylene bags may be used for small spills. Five-gallon pails or 20-gallon drums with polyethylene liners may be appropriate for larger quantities.
11. Complete a hazardous waste sticker, identifying the material as Spill Debris involving XYZ Chemical, and affix onto the container. Spill control materials will probably need to be disposed of as hazardous waste. Contact HOS at 631-924-8111 for advice on storage and packaging for disposal.
12. Decontaminate the surface where the spill occurred using a mild detergent and water, when appropriate.
13. Report all spills to your HOS or the Principal Investigator.

Developing a Spill Response Plan

An effective spill response procedure should consider all of the items listed below. The complexity and detail of the plan will, of course depend upon the physical characteristics and volume of materials being handled, their potential toxicity, and the potential for releases to the environment.

1. Review Material Safety Data Sheets (MSDSs) or other references for recommended spill cleanup methods and materials, and the need for personal protective equipment (e.g., respirator, gloves, protective clothing, etc.)
2. Acquire sufficient quantities and types of appropriate spill control materials to contain any spills that can be reasonably anticipated. The need for equipment to disperse, collect and contain spill control materials (e.g., brushes, scoops, sealable containers, etc.) should also be reviewed. See Recommended Spill Control Materials Inventory for more details.
3. Acquire recommended personal protective equipment and training in its proper use. For example, if an air purifying respirator or self-contained breathing apparatus are needed, personnel must be enrolled in the Respiratory Protection Program and attend annual training and fit testing.
4. Place spill control materials and protective equipment in a readily accessible location within or immediately adjacent to the work area or vehicle.
5. Develop a spill response plan that includes:
 - Names and telephone numbers of individuals to be contacted in the event of a spill.
 - Evacuation plans for the room or building, as appropriate.
 - Instructions for containing the spilled material, including potential releases to the environment (e.g., protect floor drains).
 - Inventory of spill control materials and personal protective equipment.
 - Means for proper disposal of cleanup materials (in most cases, as hazardous waste) including contaminated tools and clothing.
 - Decontamination of the area following the cleanup.
6. Discuss the spill response plans with all employees in the area. EHS offers training for employees who work directly with chemicals (see Chemical Spills and Waste Procedures) and who are expected to respond outside their work area to assist with spill cleanup (see Chemical Emergency Response (HAZWOPER) First Responder - Operations Level Training).

REPORTING

WRS ENVIRONMENTAL SERVICES, INC.

WRS Environmental Services, Inc., personnel responsible for maintaining the SPCC plan is Patrick McLoughlin. He shall contact DOT project representatives and the federal, state and local regulatory agencies regarding spill response activities. He will work with the DOT project manager to ensure the proper information and data is collected and communicated to the appropriate agencies.

WRSES shall ensure that all personnel involved with preventing, responding and reporting spills are HAZWOPER trained.

**Agency Notification Reference List
Agency & Responsibilities Phone Contacts**

Fire Department	911
Delaware Emergency Reporting	800.662.8802 302.739.9401
Hospital	
• Emergency Medical Room – Nearest to Site Location	
Waste Recycling Solutions	
– Emergency Response Team	631-924-8111
National Response Center	
• Reporting spills to water	(800) 424-8802 or 202.267.2675

Employees must contact the Generator whose name, address, phone number, and ID number can be found at the top of the hazardous waste manifest.

Notification is required for any amount of hazardous waste.

The National Response Center and Director of the Office of Hazardous Materials Regulation's, Materials Transportation Bureau, Department of Transportation, Washington D.C., must be notified of the following events:

1. A person is killed or requires hospitalization due to injuries;
2. Carrier or property damage exceeds \$50,000;
3. Accident and/or spill involves radioactive materials or etiological agents;
4. Notification caused by continued danger to life.

PROGRAM MANAGEMENT

Site security measures, site inspection procedures, and personnel training related to spill prevention, containment, response, management, and clean up are outlined below.

Security

WRSES personnel are given identification badge that are to be worn as part of the uniform requirement. Identification badges shall have an updated photograph of the employee.

Site Inspections

WRSES Environmental Health and Safety (EH&S) Division conducts random site and vehicle inspection to ensure compliance with SPCC plan. Quarterly reviews are conducted to update employees with new changes and regulatory updates.

Personnel training

WRSES site supervisor is responsible for overseeing site HAZWOPER training of all personnel and shall review procedures with crew semi-annually or whenever a new crewmember is added. Supervisor shall submit all documentation of employee training to the Hazardous Material Operations Supervisor (HOS) to be added to their files.

**ATTACHMENT A
SITE PLAN**

WRSES site supervisor shall attach a copy of the site plan to this SPCC plan and review site-specific details with crew on site.

**ATTACHMENT B
SPILL AND INCIDENT REPORT FORMS**

Instructions: Complete for any type of petroleum product or hazardous materials/waste spill or incident.

Provide a copy of this report to HOS management.

1. Person Reporting Spill or Incident:
Name Address
Organization

WRS ENVIRONMENTAL SERVICES, INC.

Title

Telephone

Fax Signature

2. Type of Spill:

Common Name of

Spilled Substance

Quantity Spilled (Estimate)

Concentration (Estimate)

Date of Spill ____/____/____

Time Spill Started ____ AM __ PM Time Spill Ended ____ AM __ PM

3. Location of Spill:

SPILL TO LAND Y/N SPILL TO WATER BODY Y/N

Name of Site: Name of Water Body:

Street Address: Location of Discharge with Reference to Fixed Point:

City/Town: Description of Area from which spilled material may reach:

County:

4. If no spill, describe incident:

5. Actions taken:

To contain spill or impact of incident:

To clean up spill or recover from incident:

To remove cleanup material:

To prevent reoccurrence:

6. Person responsible for managing termination/ closure of incident or spill:

Name: _____ Phone: _____ Fax: _____

Attachment G
Driver Training

- A. Many of our employees have Commercial Driver's Licenses, both A and B classes. Some have tanker, hazmat, and double/triple endorsements.
- B. We conduct background screens on driving records as part of their initial employment as well as obtaining driving abstracts on an annual basis to check for any violations, accidents, revocations or suspensions. All CDL license holders are also put through the FMSCA Clearinghouse database. Any employees who receive driving violations during the course of their employment are disciplined according to our company disciplinary procedures.
- C. Drivers receive training on handling waste both on an annual basis during their hazardous waste refresher training class as well as the DOT Hazardous Materials training. A copy of the Spill Control Plan is required to be in all the vehicles along with any transporter permit that is required to be in the vehicle. Employees should be checking to make sure they have the appropriate permits and necessary equipment during their pre-trip inspections.

Attachment H
Environmental Record

On March 20th, 2020 we received a summons from the NYC Department of Environmental Protection. It stated that we violated the NYC Administrative Code because we caused or were permitting the idling of a motor vehicle while parked, standing, or stopped for more than three minutes. We were found guilty and paid a penalty of \$350.00. The matter has been resolved.

CERTIFICATE OF LIABILITY INSURANCE

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED — OWNERS, LESSEES OR CONTRACTORS — SCHEDULED PERSON OR ORGANIZATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location(s) Of Covered Operations
As Required by Written Contract executed prior to any claim or "suit."	As Required by Written Contract executed prior to any claim or "suit."
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.	

A. Section II — Who Is An Insured is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

C. With respect to the insurance afforded to these additional insureds, the following is added to Section III —Limits Of Insurance:

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or

2. Available under the applicable Limits of Insurance shown in the Declarations;

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

**WAIVER OF TRANSFER OF RIGHTS OF RECOVERY
AGAINST OTHERS TO US (WAIVER OF SUBROGATION)**

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM
BUSINESS AUTO COVERAGE FORM
MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by the endorsement.

This endorsement changes the policy effective on the inception date of the policy unless another date is indicated below.

Named Insured: WRS Environmental Services dba Champion Environmental
Services Endorsement Effective Date: 06/01/2024

SCHEDULE

Name(s) Of Person(s) Or Organization(s):
ANY PERSON OR ORGANIZATION FOR WHOM THE NAMED INSURED IS REQUIRED TO PROVIDE A WAIVER
Information required to complete this Schedule, if not shown above, will be shown in the Declarations

The Transfer Of Rights Of Recovery Against Others To Us condition does not apply to the persons) or organization(s) shown in the Schedule, but only to the extent that subrogation is waived prior to the "accident" or the "loss" under a contract with that person or organization.

WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

This endorsement changes the policy to which it is attached effective on inception date of the policy unless a different date is indicated below.

This endorsement, effective 12:01 AM 06/01/2024 forms a part of Policy No. WC 022-29-8207

Issued to WRS Environmental Services dba Champion Environmental Services

By **NEW HAMPSHIRE INSURANCE COMPANY**

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.

This agreement shall not operate directly or indirectly to benefit any one not named in the Schedule.

Schedule

**ANY PERSON OR ORGANIZATION TO WHOM YOU BECOME
OBLIGATED TO WAIVE YOUR RIGHTS OF RECOVERY
AGAINST, UNDER ANY WRITTEN CONTRACT OR AGREEMENT
YOU ENTER INTO PRIOR TO THE OCCURRENCE OF LOSS.**

This form is not applicable in Kansas for private construction contracts as defined in K.S.A. 16-1801 through K.S.A. 16-1807 or public construction contracts as defined in K.S.A. 16-1901 through 16-1908, except where permitted by statute or other applicable law, such as for use in wrap-up insurance programs.

Any person or organization for which the employer has agreed by written contract, executed prior to loss, may execute a waiver of subrogation. However, for purposes of work performed by the employer in Missouri, this waiver of subrogation does not apply to any construction group of classifications as designated by the waiver of right to recover from others (subrogation) rule in our manual.

This form is not applicable in California, Kentucky, New Hampshire, New Jersey, Texas, or Utah.

Endorsement for Motor Carrier Policies of Insurance for Public Liability under Sections 29 and 30 of the Motor Carrier Act of 1980

FORM MCS-90

Issued to WRS Environmental Services Inc dba Champion Environmental Services of New York (Motor Carrier name) (Motor Carrier state or province)

Dated at 10:00 AM on this 29th day of May, 2024

Amending Policy Number: 5721631 Effective Date: 06/01/2024

Name of Insurance Company: National Union Fire Insurance Company of Pittsburgh, PA

Countersigned by: Don Bailey (authorized company representative)

The policy to which this endorsement is attached provides primary or excess insurance, as indicated for the limits shown (check only one):

- This insurance is primary and the company shall not be liable for amounts in excess of \$ 5,000,000.00 for each accident.
This insurance is excess and the company shall not be liable for amounts in excess of \$ for each accident in excess of the underlying limit of \$ for each accident.

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA, to verify that the policy is in force as of a particular date. The telephone number to call is: 913-495-4065

Cancellation of this endorsement may be effected by the company or the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under 49 U.S.C. 13901, by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, DC).

Filings must be transmitted online via the Internet at http://www.fmcsa.dot.gov/urs.

(continued on next page)

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions or which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon,

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

Public Liability means liability for bodily injury, property damage, and environmental restoration.

or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions, and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately to each accident and any payment under the policy because of anyone accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

Attachments: Delaware Solid Waste renewal application 2024 signed .pdf

Good afternoon,

That vehicle listing was old. The one that was submitted with the renewal is attached. We only have 2 trucks to renew and I added the ownership to the attached as well.

If you need anything else please let me know.

Good afternoon,

All I need is the lease agreement for the Freightliner leased by Vac Truck Rentals.

Subject: [EXTERNAL] Delaware Solid Waste Transportation Permit

Hi Ms. Lampasona,

Thank you for submitting your application to renew your Delaware solid waste transporter permit. Upon review, I have found that some information is missing or needs to be updated. Please address the items listed below:

- **Section 9(c)-For-hire** means you're in the business of transporting passengers, regulated property, or household goods owned by others for compensation. Do you transport any of the following? If so, please provide a motor carrier number (mc #). **No.**
- **Section 10- For-hire** means transporting passengers, regulated property, or household goods owned by others for compensation. Do you transport any of the following? If so, please provide an MCS-90 endorsement form. **No but the MCS-90 was included in the renewal. I am attaching it to this email also.**
- **Section 13-** The vehicle list is missing the names of the owners. Please update the list to include the name of the owner for each vehicle. **See attached**

Please provide the information requested above via e-mail within five (5) days.

Thank you,

DaQuan L. Davis

**Endorsement for Motor Carrier Policies of Insurance for Public Liability
under Sections 29 and 30 of the Motor Carrier Act of 1980**

FORM MCS-90

Issued to WRS Environmental Services, Inc. of 17 Old Dock Road Yaphank, NY 11980
(Motor Carrier name) *(Motor Carrier state or province)*

Dated at 101 Hudson Street, 25th Floor, Jersey City, NJ 07302 on this 28 day of February, 2020

Amending Policy Number: BAP1524495-19 Effective Date: 02/14/2020

Name of Insurance Company: Great Divide Insurance Company

Countersigned by: 
(authorized company representative)

- The policy to which this endorsement is attached provides primary or excess insurance, as indicated for the limits shown (check only one):
- This insurance is primary and the company shall not be liable for amounts in excess of \$ 1,000,000 for each accident.
 - This insurance is excess and the company shall not be liable for amounts in excess of \$ _____ for each accident in excess of the underlying limit of \$ _____ for each accident.

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA, to verify that the policy is in force as of a particular date. The telephone number to call is: 201-748-3044.

Cancellation of this endorsement may be effected by the company of the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under [49 U.S.C. 13901](#), by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, DC).

(continued on next page)

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions or which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon, or violation thereof, shall relieve the

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

Public Liability means liability for bodily injury, property damage, and environmental restoration.

company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately to each accident and any payment under the policy because of any one accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.
