RE: Solid Waste Transportation Permit Renewal

Dear Sir or Madam:

Please accept the following renewal application for permit# **DE-SW-1512** from Hepaco, LLC.

I have included an application, payment, and all necessary attachments. If you would kindly email a copy of our renewed permit upon issuance to permitsus@cleanharbors.com it would be greatly appreciated.

Should you have any questions, please contact me at (339) 214-5822.

Sincerely,

Bri Pickering
Transportation Compliance Specialist

- ☐ One Year - \$75.00
- ☐ Two Years - \$125.00
- ☐ Three Years - \$175.00
- ☐ Four Years - \$225.00
- ☐ Five Years - \$275.00

ALL OTHERS

- ☐ One Year - \$350.00
- ☐ Two Years - \$650.00
- ☐ Three Years - \$950.00
- ☐ Four Years - \$1250.00
- ☒ Five Years - \$1550.00

2. Release to Public

Do you wish to be included on the list of transporters that is provided to persons requesting a list of Delaware permitted solid waste transporters? ☒ Yes ☐ No

3. Company Information

Company Name Hepaco, LLC

Location Address:	Mailing Address:
42 Longwater Drive	PO Box 9149
Norwell, MA 02061	Norwell, MA 02061

Contact: Bri Pickering Title: Trans Compliance Specialist

Business Phone: 339-214-5822 Fax: _____

E-mail: permitsus@cleanharbors.com

24 hr Emergency Contact Phone: 800-645-8265

4. Company Ownership Information

(a). Please indicate the company type:

- ☐ Proprietorship
☐ Partnership
☒ Corporation - If company is a corporation, indicate city, state, and date of incorporation.

City: _____ State: DE Date: 12/3/2011
☐ Municipality
☐ Public institution
☐ Limited Liability Corporation (LLC) State: _____
☐ Other: (must specify) _____

(b). For each Owner, Partner, or Corporate Officer, attach a list with name, title, mailing address, date of birth, and % ownership. Include all stockholders owning greater than 5% outstanding shares.

☒ Attachment 1 & email

(c). If company is owned by or affiliated with a parent company, attach parent company name, address & mailing address, and % ownership.

☒ Attachment 1
☐ No parent company

5. Company locations in Delaware

List name and street address of each company location, including freight terminals, within the State of Delaware.

- ☐ Attachment _____
☒ No Delaware locations

6. Company Affiliates

List name, location and mailing addresses, nature of business relationship of all company Affiliates, which affiliates are engaged in the business of waste transport, treatment, storage, disposal, recovery or reclamation. (Affiliated companies are defined as those companies owned by the same owners, corporate officers, or parent company.)

- ☒ Attachment 2
☐ No affiliates

7. Type of Waste to be Transported

(a). Check all that apply. Refer to Delaware's *Regulations Governing Solid Waste* for definitions of waste categories.

- ☐ Residential waste
☒ Commercial waste (from **non-manufacturing, non-processing** businesses and offices)
☒ Industrial waste (from a manufacturing or industrial process)
☒ Dry waste: ☒ construction/demolition debris
☐ trees/stumps
☐ other (must specify) _____
☐ Ash: ☐ municipal incinerator
☐ coal ash
☐ other (must specify) _____
☐ Infectious waste
☒ Non-hazardous petroleum-hydrocarbon contaminated soils
☒ Asbestos-containing waste
☐ Scrap Tires

(b). Does your company collect and transport residential (household) waste from single family homes, condominiums and apartment complexes in Delaware? ☐ Yes ☒ No

(c). If you answered "YES" to question 7.b., above, does your company provide recycling services to those customers? ☐ Yes ☐ No ☒ N/A

(d). If you offer recycling services, does your company collect and transport the recyclables separately from the waste generated by your customers? ☐ Yes ☒ No

(e). If you offer recycling services, are the recyclables ultimately taken to an incinerator (waste-to-energy) or landfill? ☐ Yes ☒ No

8. Treatment, Storage, and Disposal Facilities

- (a). Do you cross state lines with the waste? ☒ Yes ☐ No
- (b). Identify in an attachment **all** solid waste Treatment, Storage, Disposal Facilities, Reclamation Facilities and Transfer Stations to which the waste will be transported.
- ☐ Delaware Solid Waste Authority locations: (attachment) _____
 - ☐ Clean Earth of New Castle, Inc. (thermal treatment facility for PHC-soils)
 - ☐ Delaware Recyclable Products, Inc. (dry waste, commercial, industrial, and PHC-soils)
 - ☐ Other in-state solid waste facilities, including private facilities: (attachment) _____
 - ☒ Out of state solid waste TSD facilities: (attachment) 4

9. Other Transporter Permits

- (a). Attach a copy of your home state solid waste transporter permit. (N/A if Delaware is your home state.)
- ☐ Attachment _____
- ☒ Not applicable-No transporter permit required for these solid waste types in our home state.

- (b). List solid waste transporter permits held in other states.

- ☒ Attachment 5
- ☐ No transporter permits in other states

- (c). Indicate your Federal DOT number and Motor Carrier number:

DOT# 471541 MC# 341461

- ☐ N/A If N/A, please provide an explanation, on the following page, as to why you are not required to have a DOT or MC number.

10. Proof of Financial Responsibility

The transporter must submit proof of financial responsibility as established in section 7.2.4 of Delaware's *Regulations Governing Solid Waste*. This proof may be established by a Certificate of Insurance, with MCS-90 endorsement where applicable, or by other means approved by the Department. (The Certificate of Insurance must identify the **Department of Natural Resources and Environmental Control, Compliance and Permitting Section** as the certificate holder.)

- (a). Are you for-hire in interstate commerce? ☒ Yes ☐ No (For-Hire means you are in the business of transporting, for compensation or payment, wastes generated by a company other than your own.)
- (b). Do you transport in the State of Delaware Only (Intrastate)? ☐ Yes ☒ No
- (c). Do you transport Interstate? ☒ Yes ☐ No

- (d). Certificate of Insurance must be attached and include minimum automobile liability coverage as follows:

	FOR-HIRE INTERSTATE	ALL OTHERS
Residential Waste	\$750,000.00 + MCS-90 <input type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Commercial Waste	\$750,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Industrial Waste	\$750,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Dry Waste	\$750,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Ash	\$750,000.00 + MCS-90 <input type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Infectious Waste	\$1,000,000.00 + MCS-90 <input type="checkbox"/>	\$750,000.00 + MCS-90 <input type="checkbox"/>
Non-Hazardous Petroleum	\$750,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Contaminated Soils	\$1,000,000.00 + MCS-90 <input checked="" type="checkbox"/>	\$350,000.00 <input type="checkbox"/>
Asbestos	(For Hire & Private)	\$350,000.00 <input type="checkbox"/>
Scrap Tires Only	\$350,000.00 <input type="checkbox"/>	\$350,000.00 <input type="checkbox"/>

11. Spill Control and Safety

List all spill control and safety equipment which will be carried on each vehicle. (**Note:** Separate lists by type of vehicle and type of waste may be required.) Attach a copy of the Spill Control Plan. The Spill Control Plan **must** contain the following elements: (1) List of safety and spill control equipment carried in the vehicle, (2) Driver preventive measures, (3) Driver immediate corrective actions, (4) Company internal communications, (5) Company external communications including the **Delaware Emergency Reporting Numbers: 1-800-662-8802 and 302-739-9401**, and (6) Cleanup and decontamination measures.

✓ Spill Control Plan: Attachment 6

12. Driver Training

IN SUMMARY OR OUTLINE FORM, describe the procedures that your company takes to ensure that all company drivers are safe and competent drivers. Small owner-operators may describe their years of experience and driving record in lieu of a formal program.

- (a). Include requirements for special licenses (e.g. CDL, including any special endorsements), any special training received, including dates training was received (e.g. asbestos training), and any ongoing company programs. (e.g. weekly safety meetings or annual refresher courses);
- (b). Include your company procedure for periodic checks of the driver's records for moving violations, and your company policy on progressive counseling/discipline based on points;
- (c). Describe how drivers are instructed in the following:
 - (i) Knowledge of proper handling procedures for the type of solid waste being transported.
 - (ii) Familiarity with the approved accidental discharge containment plan. (Spill Control Plan)
 - (iii) Familiarity with the conditions of the solid waste transporter's permit.

✓ Driver Training, attachment 7

13. Vehicle Identification

On the form provided with this application, list **MAKE, MODEL, YEAR, SERIAL NUMBER, LICENSE PLATE NUMBER, STATE OF REGISTRATION, MANUFACTURER'S GVWR and OWNERSHIP** of all vehicles used for the transportation of solid waste. You must list both motorized and container units. (If you maintain a list of company vehicles in a computer database you may submit a print out of the vehicles provided it contains the information requested herein.)

NOTE: You must notify CAPS in writing of any changes to information contained within this application, such as additions or deletions of vehicles, in accordance with conditions of the issued permit.

☒ Vehicle List Attached

14. Vehicle Operator Information

Is a list of all vehicle operators attached? ☐ Yes

What tax form do you submit to the IRS for your vehicle operators?

- ☒ Form W-2
☐ Form 1099-Misc
☐ Other

15. Environmental Record

List all criminal citations, arrests, convictions, civil or administrative violations, and civil or administrative enforcement actions, and the disposition(s) thereof for the violation or alleged violation of any environmental statute, regulation, permit, license, approval, or order, regardless of the state in which it occurred. Indicate whether it was a local, state, or federal violation or alleged violation. List all such items for the applicant, and if the applicant is other than an individual, for any employee while employed by the applicant, or any partner, officer, or director of the applicant as an individual or for any former business of such partner, officer, or director. For civil or administrative violations or alleged violations, list all such items for the last five (5) years from the date of the application. Information submitted under this section is subject to verification. **Failure to submit complete and accurate information may lead to permit denial or revocation.**

- ☐ Attachment _____
☒ No violations within the specified time period

16. Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, upon personal knowledge and information, the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information.

ADDITIONAL REMARKS

THIS ADDITIONAL REMARKS FORM IS A SCHEDULE TO ACORD FORM,

FORM NUMBER: 25 FORM TITLE: Certificate of Liability Insurance

Certificate Holder is named as Additional Insured for General Liability, Auto Liability and Contractors Pollution Liability as their interests may appear if required by written contract but only with respect to liability arising out of operations of the Named Insured. It is further agreed that the General Liability, Auto Liability and Contractors Pollution Liability policies shall be Primary and Non-contributory with any other insurance in force for or which may be purchased by Additional Insureds. It is understood and agreed that the company waives its right of subrogation which may arise by reason of a payment of claim under the General Liability, Auto Liability, Contractors Pollution Liability and Worker's Compensation policies as required by written contract where allowed by state law.

Please note, the expiration date as stated on this form relates to the process for renewing the Information Collection Request for this form with the Office of Management and Budget. This requirement to collect information as requested on this form does not expire. For questions, please contact the Office of Registration and Safety Information, Registration, Licensing, and Insurance Division.

A Federal Agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 2126-0008. Public reporting for this collection of information is estimated to be approximately 2 minutes per response, including the time for reviewing instructions, gathering the data needed, and completing and reviewing the collection of information. All responses to this collection of information are mandatory. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Federal Motor Carrier Safety Administration, MC-RRA, Washington, D.C. 20590.

United States Department of Transportation
Federal Motor Carrier Safety Administration

Endorsement for Motor Carrier Policies of Insurance for Public Liability
under Sections 29 and 30 of the Motor Carrier Act of 1980

FORM MCS-90

Issued to HEPACO, LLC of North Carolina
(Motor Carrier name) (Motor Carrier state or province)

Dated at 12:00 midnight on this 1st day of November, 2024

Amending Policy Number: Effective Date: 11/01/2024

Name of Insurance Company: Starr Indemnity & Liability Company

Countersigned by: Carmella Capitan

(authorized company representative)

The policy to which this endorsement is attached provides primary or excess insurance, as indicated for the limits shown (check only one):

- ☒ This insurance is primary and the company shall not be liable for amounts in excess of \$ 5,000,000 for each accident.
- ☐ This insurance is excess and the company shall not be liable for amounts in excess of \$ _____ for each accident in excess of the underlying limit of \$ _____ for each accident.

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA, to verify that the policy is in force as of a particular date. The telephone number to call is: (866) 519-2522.

Cancellation of this endorsement may be effected by the company or the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under 49 U.S.C. 13901, by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, DC).

Filings must be transmitted online via the Internet at <https://portal.fmcsa.dot.gov/UrsRegistrationWizard/>.

(continued on next page)

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions or which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

Public Liability means liability for bodily injury, property damage, and environmental restoration.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon,

or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions, and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately to each accident and any payment under the policy because of anyone accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

<h2>1. PURPOSE</h2>

This Transportation Emergency Response Procedure was developed by **Clean Harbors** for its affiliated carriers. This procedure is intended to describe the equipment, management procedures and notification guidelines for responding to any release of Dangerous or Hazardous goods/wastes, petroleum oil or other materials that may pollute during the course of transportation over public roadways.

Note: *This procedure is designed to initiate procedures to mitigate or prevent the release of petroleum oil and other hazardous materials/wastes to the environment while waiting for the arrival of an emergency response crew. The information provided by the driver will dictate the level of response needed to effectively respond to the release. Clean Harbors has the internal personnel & equipment to respond to spills from its transport vehicles in addition to a network of third party approved subcontractors used to complement internal resources.*

2. IDENTIFICATION OF HAZARDOUS WASTE AND HAZARDS

Hazardous Waste Type/Class	Physical Properties	Chemical Properties	Toxicological Properties	Human Health Risks	Environmental Risks
Class 1.4 Explosives with no significant blast hazard	May be solid, granular or powder. Please refer to MSDS or NIOSH guide for product specifics.	Reacts with flammable substances and reducing agents. Keep away from ignition sources. Please refer to MSDS or NIOSH guide for specific incompatibilities.	Please refer to MSDS or NIOSH guide for product specific toxicological properties.	Minor explosion hazard with possibility of short-range projectiles/shrapnel. Fire may produce irritating, corrosive and/or toxic gasses Refer to MSDS or NIOSH guide for product specifics.	Fire may produce irritating, corrosive and/or toxic gasses Refer to MSDS or NIOSH guide for product specifics.
Class 2.1 Flammable Gases (e.g. natural gas, acetylene, butane, ethylene, hydrogen, LPG)	May be compressed and/or liquefied-please refer to MSDS or NIOSH guide for specific vapor density, flashpoint and LEL/UEL data.	Reacts with strong oxidizers. Please refer to MSDS or NIOSH guide for specific incompatibilities.	Please refer to MSDS or NIOSH guide for product specific toxicological properties.	Flammable gases under pressure may cause cold exposure injuries (frostbite). Respiratory protection may be required. Flash fire is a significant risk. Ensure no ignition sources are present. Refer to MSDS or NIOSH guide for product specifics.	Gas/ Vapor cloud may migrate significant distances to reach an ignition source. Dependent on vapor density, product may rise and dissipate or pool in low lying areas or vertical accesses. Refer to MSDS or NIOSH guide for specifics.

In-Transit Emergency Response Plan

Hazardous Waste Type/Class	Physical Properties	Chemical Properties	Toxicological Properties	Human Health Risks	Environmental Risks
Class 2.2 Non-flammable/ Non-toxic Gases (e.g. nitrogen, CO2, helium)	May be compressed, liquefied, or pressurized cryogenic. Please refer to MSDS or NIOSH guide for product specifics.	Heat or water may vigorously vaporize the product.	N/A.	Possible asphyxiant due to the exclusion of oxygen.	N/A
Class 2.3 Toxic Gases (e.g. chlorine, fluorine, hydrogen cyanide, ammonia)	May be compressed, liquefied, or pressurized cryogenic. Please refer to MSDS or NIOSH guide for product specifics.	May react with water, oxidizers, acids, organic compounds, or other substances. Please refer to MSDS or NIOSH guide for specific incompatibilities.	Known or presumed to be toxic or corrosive to humans as to pose a hazard to health. Please refer to MSDS or NIOSH guide for product specifics.	Significant inhalation risk. Respiratory protection may be required. Refer to MSDS or NIOSH guide for product specifics.	Gas/ Vapor cloud may migrate significant distances or pool in low laying areas or vertical accesses dependent on vapor density and pose a significant hazard to flora, fauna and other forms of life.
Class 3 Flammable Liquids (e.g. Petrol, kerosene, solvents, dry-cleaning fluid)	Liquid, mixtures of liquids, liquids containing solids in solution or suspension that give off flammable vapor at temperatures below 37.8C or 100.04F	Please refer to MSDS or NIOSH guide for product specifics. Regard should be given regarding solubility, specific gravity, and incompatibilities.	Poses possible inhalation, ingestion, and absorption risks. Please refer to MSDS or NIOSH guide for product specifics.	Poses possible inhalation, ingestion, and absorption risks. Please refer to MSDS or NIOSH guide for product specifics.	Please refer to MSDS or NIOSH guide for product specifics. Regard should be given regarding solubility, specific gravity. Poses a risk to flora, fauna, and other life.

Hazardous Waste Type/Class	Physical Properties	Chemical Properties	Toxicological Properties	Human Health Risks	Environmental Risks
Class 6.2 Infectious Substances (e.g. regulated medical waste, forensic materials, used health care products)	Substances or material infected by pathogens may exist in any form of matter.	Please refer to MSDS or NIOSH guide for specific incompatibilities.	Poses possible inhalation, ingestion, injection, and absorption risks. Please refer to MSDS or NIOSH guide for product specifics.	Possible significant risk via all routes of entry. Respiratory protection may be required. Refer to MSDS or NIOSH guide for product specifics.	Please refer to MSDS or NIOSH guide for product specifics. Regard should be given regarding solubility, specific gravity. Poses a risk to flora, fauna and other forms of life.
Class 8 Corrosives (e.g. sulfuric acid, hydrochloric acid)	Liquid or solid that can dissolve organic tissue or severely corrode certain metals. Please refer to MSDS or NIOSH guide for product specifics	This class includes both acids and bases. Incompatible material may react violently if mixed. Please refer to MSDS or NIOSH guide for specific incompatibilities.	Poses possible inhalation, ingestion, and absorption risks. Please refer to MSDS or NIOSH guide for product specifics	Possible significant risk via all routes of entry. Respiratory protection may be required. Refer to MSDS or NIOSH guide for product specifics	Please refer to MSDS or NIOSH guide for product specifics. Regard should be given regarding solubility, specific gravity. Poses a risk to flora, fauna and other forms of life
Class 8 Batteries	Liquid within a solid can dissolve organic tissue or severely corrode certain metals. Please refer to MSDS or NIOSH guide for product specifics	Please refer to MSDS or NIOSH guide for specific incompatibilities	Poses possible inhalation, ingestion and absorption risks. Please refer to MSDS or NIOSH guide for product specifics	Possible significant risk via all routes of entry. Refer to MSDS or NIOSH guide for product specifics	Please refer to MSDS or NIOSH guide for product specifics. Poses a risk to flora, fauna and other forms of life

3. CONTINGENCY PLAN FOR IN-TRANSIT RELEASES

1. REFERENCE DOCUMENTS (Available to driver and/or response personnel)

- a. Current Emergency Response Guidebook ERG (updated every 4 years)
- b. Shipping Document (Manifest, Bill of Lading)
- c. On-line waste profile information & Safety Data Sheets
 - i. Accessed via 24-hour emergency response operator at **1-800-OILTANK**

2. GENERAL RESPONSE PROCEDURES

In the event of a release or the threat of a release from a vehicle, the following procedures are to be followed to mitigate or prevent the release of petroleum oil or other hazardous materials/wastes to the environment.

1. Secure the Area
 - i. Halt/shut down the operation, for example
 1. Loading or unloading
 2. Transporting
 - ii. Keep unauthorized people away from the release area by using physical barriers (i.e. caution tape, pylons) or with the assistance of local officials on the scene.
 - iii. Stay upwind.
 - iv. Eliminate any ignition sources.
2. Determine the type of material/waste that may be involved by reviewing the shipping paper(s).
 - a. Refer to the current Emergency Response Guidebook for properties of the material including any potential evacuation distances, potential fire or explosion hazards, potential health hazards, and/or potential personnel protective equipment that first responders may need.
 - b. When deploying spill containment control materials (i.e. poly sheeting, suitable absorbent material spill containment pail to catch inconsequential drips) ensure that you don your protective Tyvec suit, chemical resistant gloves, hard hat and protective eyewear as a precaution (refer to SDS for full list of required PPE).
 - c. Please note that your initial role is to simply secure the vehicle, keep unauthorized individuals away from the scene and deploy, if safe to do so, necessary initial spill containment controls to protect sensitive areas (storm drains, culverts, pervious surfaces).
 - d. Remember you are not to attempt to remediate the release or to enter the cargo space of a waste hauling vehicle to identify the source of a suspected release. Take those steps that are necessary to secure the scene and initiate notification procedures and have all available shipping papers and related documents needed for first responders to safely determine a response plan.
3. Attempt to locate the source of the release and the extent of the contamination.
4. Determine the volume and rate of release (e.g. slow leak up to a catastrophic failure).
5. Identify which category the release falls into:

No part of this document may be reproduced in any form or by electronic or mechanical means, including information storage and retrieval systems, without written permission from Clean Harbors.

	Issued By: Transportation Compliance		Document Control No: TC. 000101-V18	
	Revised By: Transportation Compliance		Revision Date: 10/22/2024	Revision No: 19
	Owner: SVP of Transportation Compliance		Document Name: In-Transit Emergency Response Plan	

a. Category 1

- i. Minor Release (e.g. faulty valve)
- ii. 0-5 gallons or 0-23 liters released
- iii. Includes those inconsequential incidental slops & drips of material characteristic to daily servicing of our clients and which can readily and safely be managed by the respective driver with no adverse effect or requirement to make notification to the regulatory agency

b. Category 2

- i. Serious Release (e.g. container failure)
- ii. 5-55 gallons or 23-250 liters released
- iii. All Dangerous Goods Class 2,3,4,5, 6, 8 and 9
- iv. Any release requiring an immediate notification to Agency, see section D "Notification Procedures"

c. Category 3

- i. Major Release (e.g. tank failure)
- ii. > 55 gallons or > 250 liters released

REMEMBER: The first priority of any emergency response is life & health. If you do not have adequate information or personnel protective equipment, do not approach the release. Do not enter the material/waste hauling portion of the vehicle under any circumstances. These areas may be defined as a "confined space" and require specific Health & Safety safeguards before entering the space.

3. CONTAIN THE RELEASE

Category 1 – Minor

1. Undertake initial response actions to halt the release of the oil or other material and contain its spread using absorbent material, physical barriers, containment pail, etc. if it is safe to do so.
2. Look for storm drains, manhole covers and other vertical access points and dike off or dam to prevent material from entering these areas.
3. Take those actions to protect public health, safety and the environment that can be taken without compromising your safety or the safety of others.
4. Initiate notification procedures.

Category 2 - Serious

1. Undertake initial response actions to halt the release of the oil or other material and contain its spread using absorbent materials, physical barriers, containment device, etc.
2. Look for storm drains, manhole covers and other vertical access points and dike off or dam to prevent material from entering these areas.

No part of this document may be reproduced in any form or by electronic or mechanical means, including information storage and retrieval systems, without written permission from Clean Harbors.

	Issued By: Transportation Compliance		Document Control No: TC. 000101-V18	
	Revised By: Transportation Compliance		Revision Date: 10/22/2024	Revision No: 19
	Owner: SVP of Transportation Compliance		Document Name: In-Transit Emergency Response Plan	

3. Take those actions to protect public health, safety and the environment that can be taken without compromising your safety or the safety of others.
4. Initiate notification procedures.

Category 3 - Major

1. Look for storm drains, manhole covers and other vertical access points and dike off or dam to prevent material from entering these areas.
2. Take those actions to protect public health, safety and the environment that can be taken without compromising your safety or the safety of others.
3. Initiate notification procedures.

4. NOTIFICATION PROCEDURES

1. The driver is to immediately notify Clean Harbors Driver Manager at his/her home office and provide his/her name, address & phone number. If after hours, initial notification is to be made to the Clean Harbors 24-hour emergency response phone number. The driver is to provide the following information:
 - a. Exact location of release;
 - b. Identity of material being released;
 - c. Type of vehicle involved in release along with type of container (s). If a tank is involved, provide volume contained within the vessel;
 - d. Estimated amount of material released, flow rate & current weather conditions on scene;
 - e. Area material was released to (i.e. asphalt, soil, storm drain, etc.);
 - f. Name and address of shipper;
 - g. Shipping document and or manifest numbers.
 - h. Actions taken prior to notification.

Note: If required by the respective jurisdiction, the driver must make an immediate report to the applicable agency (i.e. In British Columbia report to Provincial Emergency Program, PEP, 1-800-663-3456).

2. Driver Manager is then to notify the Clean Harbors' Transportation Compliance Team who will then make appropriate notifications to local, state, provincial, and federal agencies (including National Emergency Response Center when applicable) listed in Appendix 1-3.
3. Driver Manager will then dispatch necessary equipment and personnel from the closest Clean Harbors service center to the scene.

4. PRIORITY PHONE NUMBERS

A. 24 HOUR EMERGENCY RESPONSE Numbers:

Clean Harbors: 1-800-483-3718

or

Safety- Kleen: 1-800-468-1760

B. Home Terminal Dispatcher:

C. If the driver is unable to contact his home dispatcher or the Clean Harbor's/Safety Kleen's 24-Hour emergency response phone number for any reason, he/she will be required to contact the following:

- Local fire and police - (911)
- Applicable state and provincial authorities (See Appendix 1 & 2 & 3).
- USA - National Emergency Response Center (If release exceeds the U.S. DOT reportable quantity. amount):
1-800-424-8802

The National Response Center & Director of the Office of Hazardous Materials Regulations, Materials Transportation Bureau, Department of Transportation, Washington DC must be notified via telephone as soon as practical but no later than 12 hours after an occurrence in which:

- A person is killed or requires hospitalization due to injuries.
- Carrier or property damages exceeds \$50,000
- Accident/spill involved radioactive materials or infections/etiological agents.
- The general public is evacuated for one hour or more.
- A major transportation artery or facility is closed for one hour or more.
- The operational flight plan or routine of an aircraft is altered.
- A release of a marine pollutant in excess of 119 gallons for a liquid or 882 pounds for a solid, Or
- A situation exists in which a continuing danger to life exists at the scene of the incident.
- National Emergency Response Center

1-800-424-8802

1-800-232-0124 (Center for Disease Control – to be called if infectious items are involved).

1-800-424-9300 CHEMTREC

- Canada – **CANUTEC** 1-613-996-6666
- Generator contact (From Manifest or Bill of Lading)

	Owner: SVP of Transportation Compliance	Document Name: In-Transit Emergency Response Plan		

5. RESPONSIBLE COMPANY OFFICIAL

The company officials listed in Appendix 5 will be responsible for insuring that all required notifications are made, all required reports are generated and submitted, appropriate emergency response resources are dispatched to the incident scene, appropriate health and safety measures are taken throughout the duration of any response activity and all media involvement is handled in accordance with established company protocols.

NOTE: Clean Harbors will utilize internal spill response teams positioned throughout North America based on proximity to an incident scene. In the event local coverage is not feasible, a 3rd party suitably trained and competent subcontractor (CERCA member in Canada) will be engaged to represent Clean Harbors to address and respond to an incident.

	Issued By: Transportation Compliance		Document Control No: TC. 000101-V18	
	Revised By: Transportation Compliance		Revision Date: 10/22/2024	Revision No: 19
	Owner: SVP of Transportation Compliance		Document Name: In-Transit Emergency Response Plan	

6. SCENARIO CLEAN-UP PROCEDURES

The transporter is responsible for the clean-up of a release that occurred during the course of transportation. Therefore, it is the responsibility of the driver to monitor the scene and take any necessary actions to isolate, contain and control the release and prevent its spread. The driver is required to be in attendance (i.e. on-duty not driving) of the motor vehicle until such time that company personnel arrive to conduct the clean-up operation. At this time, the motor carrier will make the determination as to the duty status of the driver.

A. Actions

Once the emergency response crew arrives at the scene, the following actions will be taken if the release has stopped. If the release is ongoing, measures to transfer remaining product from the damaged or defective vessel to a receiving vessel will be conducted concurrent to the below actions. In the event of a fire resulting in a release, the extinguishing agent run-off will be treated as product contaminated.

1. Material that has been released to impervious surface (i.e. concrete or pavement) will be absorbed using a suitable absorbent such as speedy dry or diatomaceous earth. This material will then be containerized and sent to a fully licensed waste management facility for disposal.
2. Material that has reached any pervious surface such as soil will result in the remediation of the affected area to the extent that all contamination is removed. All material collected as a result of said remediation will be containerized and sent for disposal at a fully licensed waste management facility. In addition, analytical will be conducted by an approved lab (BTEX, PAH etc.) when necessary to determine that all contamination has been removed.
3. Material that has reached a water body such as a stream, river or lake will result in a remediation and mitigation of the affected area to facilitate the removal of all contamination possible through use of absorbents, booms, and physical/vacuum material recovery. All material collected as a result of said remediation will be containerized and sent for disposal at a fully licensed waste management facility. In addition, analytical will be conducted by an approved lab (BTEX, PAH etc.) when necessary to determine that all contamination has been removed.
4. Prior to leaving any site, appropriate backfill will be used to replace any ground cover removed during the clean-up process.
5. Any damaged container involved in an incident will be placed into a suitable salvage drum and shipped to a fully licensed waste management facility for disposal.

B. Equipment Requirements

Every Clean Harbors commercial vehicle (vehicles with GVWR >10,000 #) must have the following equipment readily available and in working condition. Vehicles not found to be in 100% compliance with this part will be placed out of service until such time that the required equipment is secured.

1. (Mandatory) Rated 10 B:C or greater fire extinguisher mounted in the cab of the power unit.
2. (Optional for Non-Haz) Rated 40 B:C or greater fire extinguisher mounted outside of the cab. Each fire extinguisher must be inspected for a valid inspection date and to ensure that it is fully charged.

Note: Extinguishers cannot be mounted inside the cargo-carrying portion of the vehicle. In Canada all highway tanks transporting Class 3 or subsidiary Class 3 MUST have a minimum 40 B:C extinguisher mounted to the tank.

3. Working flashlight or headlamp (other than cell phone).
7. Working 2-way communication (cell phone, satellite phone, CB radio).
8. Set of 3 triangle reflectors (warning signals)
9. Chock block set.
10. First aid kit with 16-ounce eyewash
11. Spare fuses and circuit breakers (as appropriate).
12. Current copy of Clean Harbor's In-Transit Emergency Response Procedures. (This document)

All Clean Harbors commercial vehicles with GVWR >10,001 # must also have available:

1. Current DOT Emergency Response Guidebook (must always be with the manifest and within the reach of the driver while at the controls of the vehicle). (US/CAN)
2. Driver's Pocket Guide to Hazardous Materials. (US)
3. Federal Motor Carrier Safety Regulations. (US)
4. Applicable hazardous waste manifest or shipping document

	Revised By: Transportation Compliance		Revision Date: 10/22/2024	Revision No: 19
	Owner: SVP of Transportation Compliance		Document Name: In-Transit Emergency Response Plan	

5. A spill kit (mounted or otherwise) containing, at minimum:
 - (a) Five (5) gallon bucket w/lid
 - (b) Inert absorbent granular material
 - (c) Absorbent pads, diapers and/or socks
 - (d) Small shovel & broom
 - (e) Six (6) mil poly sheet
 - (f) Garbage bags

6. Personal Protective Equipment containing at minimum:
 - (a) Tyvek or chem suit
 - (b) Nitrile gloves
 - (c) Goggles
 - (d) Other PPE may be specific to the product being transported

7. A One-gallon container of germicide [bleach solution] for those vehicles transporting medical waste.

NOTE: Drivers & Dispatchers: Please be aware that it is your responsibility to ensure that the items on this list are available and in working order before each trip. If any item is missing, do not begin the trip until the required equipment is secured.

<h2 style="text-align: center;">7. FOLLOW-UP PROCEDURES</h2>
--

A. Decontamination

Decontamination of all contaminated vehicles, equipment and clothing will be conducted prior to departure from a spill site. Decontamination of a truck or trailer will be conducted by removing all visible liquid or solid contamination. In addition, a suitable decontamination solution will be used to prepare the vehicle for transport to a suitable facility for further decontamination if necessary. The primary goal of the on-site decontamination is to prevent additional material being released to the environment. Equipment used in the clean-up process will be decontaminated using a suitable decontamination solution.

All rinse-ate used in the process will be containerized and sent for disposal at a fully licensed waste management facility.

All contaminated clothing will be containerized and managed in the same manner as the rinse-ate collected from the decontamination of the vehicle and equipment involved in the clean-up procedure.

B. Written Notification
Canada Notification

If an immediate report was required to be made for an accidental release, a dangerous goods accident, or a dangerous goods incident, a follow-up report must be made as prescribed by TDG Regulations Part VIII and sent to the Director General within 30 days after the occurrence.

USA Notification

Within 30 days of a discharge of a hazardous waste, a written report will be completed on the form prescribed by the U.S. DOT (DOT 5800.1 spill report) and uploaded to the HAZMATICS system on the PHMSA Portal Access Page. This report will be completed by the Transportation Compliance Department

	Issued By: Transportation Compliance		Document Control No: TC. 000101-V18	
	Revised By: Transportation Compliance		Revision Date: 10/22/2024	Revision No: 19
	Owner: SVP of Transportation Compliance		Document Name: In-Transit Emergency Response Plan	

8. DOT/TDG EMERGENCY RESPONSE GUIDEBOOK

A. Purpose of Guidebook

The current Emergency Response Guidebook is to be used to obtain initial response information (i.e. spill containment, personal protective equipment, first aid, evacuation information) while waiting for emergency response crew to arrive on scene. Federal Regulations require that each driver have this reference document available in the event of a release. The book is updated every 4 years.

B. Four (4) Sections of the Guidebook

There are 4 Sections of the Guidebook:

1. Yellow
Reference Chemical
By UN/NA Number
2. Blue
Reference Chemical by Chemical
3. Orange
Response Information
4. Green
Evacuation Distances

APPENDIX 2

LOUISIANA REPORTING REQUIREMENTS

TRANSPORTATION RELEASE AND INCIDENT REPORTING CRITERIA

RS 32:1510. REPORTING OF INCIDENTS, ACCIDENTS, AND CLEANUPS

- A. Each person involved in an incident, accident, or the cleanup of an incident or accident during the transportation, loading, unloading, or related storage in any place of a hazardous material subject to this Chapter shall report immediately by telephone to the department if that incident, accident, or cleanup of an incident or accident involves:
- (1) A fatality due to fire, explosion, or exposure to any hazardous material.
 - (2) The hospitalization of any person due to fire, explosion, or exposure to any hazardous material.
 - (3)(a) A continuing danger to life, health, or property at the place of the incident or accident under any of the following circumstances:
 - (i) The incident or accident results in the release of a hazardous material, as defined in Title 49 of the Code of Federal Regulations.
 - (ii) As a result of the incident or accident, a bulk package of a regulated hazardous material as defined in Title 49 of the Code of Federal Regulations, comes to rest at an angle forty-five degrees or more from the upright position.
 - (iii) It is deemed necessary to transfer a hazardous material, as defined in Title 49 of the Code of Federal Regulations, from one bulk package to another bulk package on a public highway or within 500 feet of an inhabited building.
 - (b) Vehicles suffering mechanical failures completely unrelated to the transportation container or the material contained therein, shall not be required to notify under this Paragraph.
 - (4) An estimated property damage of more than ten thousand dollars.

E. (1) Notwithstanding any other provision of law to the contrary, the provisions of this Section shall not apply to any incidents, accidents, or cleanup of incidents or accidents that occur within a facility that is subject to the release reporting requirements of R.S. 30:2373(B) and is engaged in activities defined or classified under one or more of the following subsectors, industry groups, or industries of the 1997 North American Industry Classification System (NAICS):

- (a) 211 (oil and gas extraction)
- (b) 22111 (electric power generation)
- (c) 3221 (pulp, paper, and paperboard mills)
- (d) 324 (petroleum and coal products manufacturing)
- (e) 325 (chemical manufacturing)
- (f) 326 (plastics and rubber products manufacturing)
- (g) 331 (primary metal manufacturing)
- (h) 4953 (refuse systems)
- (i) 4212 (local trucking without storage)
- (j) 4789 (trucking without storage)

(2) Notwithstanding the provisions of Paragraph 1 of this Subsection, this Section shall apply to any carrier involved in any incident, accident, or cleanup of an incident or accident which occurs outside the perimeter of any facility exempted from this Section pursuant to Paragraph 1 of this Subsection.

Any emergency or release notification made to the Hazardous Materials Hotline must be received no later than one hour after the occurrence, depending on the exigency of the circumstances. This is a guideline which places the burden of immediate notification on the responsible party ensuring that timely notification to Local and State government occurs. The purpose of this immediate notification is to ensure the public's safety.

<h2 style="text-align: center;">APPENDIX 3</h2> <h3 style="text-align: center;">EMERGENCY REPORTING - CANADA</h3>

1. Emergency Report - Initial

In the event of a Release or Anticipated Release of Dangerous Goods that do or may exceed quantities from table below, immediately make an **EMERGENCY REPORT** to any local authority that is responsible for responding to emergencies at the geographic location including **police or fire department**, and also the authorities shown below:

Table

Class	Packing Group or Category	Quantity
1	II	Any quantity
2	Not applicable	Any quantity
3, 4, 5, 6.1 or 8	I or II	Any quantity
3, 4, 5, 6.1 or 8	III	30 L or 30 kg
6.2	A or B	Any quantity
7	Not applicable	A level of ionizing radiation greater than the level established in section 39 of the "Packaging and Transport of Nuclear Substances Regulations, 2015"
9	II or III, or without packing group	30 L or 30 kg

	Issued By: Transportation Compliance	Document Control No: TC. 000101-V18		
	Revised By: Transportation Compliance	Revision Date: 10/22/2024	Revision No: 19	Page 26 of 32
	Owner: SVP of Transportation Compliance	Document Name: In-Transit Emergency Response Plan		

2. **Emergency Report** – immediate additional report if the release or anticipated release resulted in,
- The death of a person;
 - A person sustaining injuries that required immediate medical treatment by a health care provider;
 - An evacuation of people or their shelter in place; or
 - The closure of:
 - A facility used in the loading and unloading of dangerous goods, or
 - A road, a main railway line or a main waterway.
 - A means of containment has been damaged to the extent that its integrity is compromised; or
 - The center sill or stub sill of a tank car is broken or there is a crack in the metal equal to or greater than 15cm (6 in.).

Immediate additional report to:

- CANUTEC, at 1-888-CANUTEC (1-888-226-8832) or 613-996-6666;
- The consignor or the dangerous goods;

3. **Security Reports** – Immediate report to Canutec at 1-888-CANUTEC (1-888-226-8832) or 613-996-6666 in event of Loss or Theft or Unlawful interference of dangerous goods listed in section 8.16 of TDG regulations.

APPENDIX 4

BRITISH COLUMBIA – SPILL REPORTING QUANTITIES

Item	Column 1 Substance spilled	Column 2 Specified amount
1	Class 1, Explosives as defined in section 2.9 of the Federal Regulations	Any quantity that could pose a danger to public safety or 50 kg
2	Class 2.1, Flammable Gases, other than natural gas, as defined in section 2.14 (a) of the Federal Regulations	10 kg
3	Class 2.2 Non-Flammable and Non-Toxic Gases as defined in section 2.14 (b) of the Federal Regulations	10 kg
4	Class 2.3, Toxic Gases as defined in section 2.14 (c) of the Federal Regulations	5 kg
5	Class 3, Flammable Liquids as defined in section 2.18 of the Federal Regulations	100 L
6	Class 4, Flammable Solids as defined in section 2.20 of the Federal Regulations	25 kg
7	Class 5.1, Oxidizing Substances as defined in section 2.24 (a) of the Federal Regulations	50 kg or 50 L
8	Class 5.2, Organic Peroxides as defined in section 2.24 (b) of the Federal Regulations	1 kg or 1 L
9	Class 6.1, Toxic Substances as defined in section 2.27 (a) of the Federal Regulations	5 kg or 5 L
10	Class 6.2, Infectious Substances as defined in section 2.27 (b) of the Federal Regulations	1 kg or 1 L, or less if the waste poses a danger to public safety or the environment
11	Class 7, Radioactive Materials as defined in section 2.37 of the Federal Regulations	Any quantity that could pose a danger to public safety and an emission level greater than the emission level established in section 20 of the "Packaging and Transport of Nuclear Substances Regulations"
12	Class 8, Corrosives as defined in section 2.40 of the Federal Regulations	5 kg or 5 L
13	Class 9, Miscellaneous Products, Substances or Organisms as defined in section 2.43 of the Federal Regulations	25 kg or 25 L

	Issued By: Transportation Compliance		Document Control No: TC. 000101-V18	
	Revised By: Transportation Compliance		Revision Date: 10/22/2024	Revision No: 19
	Owner: SVP of Transportation Compliance		Document Name: In-Transit Emergency Response Plan	

Item	Column 1 Substance spilled	Column 2 Specified amount
14	waste containing dioxin as defined in section 1 of the Hazardous Waste Regulation	1 kg or 1 L, or less if the waste poses a danger to public safety or the environment
15	leachable toxic waste as defined in section 1 of the Hazardous Waste Regulation	25 kg or 25 L
16	waste containing polycyclic aromatic hydrocarbons as defined in section 1 of the hazardous Waste Regulation	5 kg or 5 L
17	waste asbestos as defined in section 1 of the Hazardous Waste Regulation	50 kg
18	waste oil as defined in section 1 of the Hazardous Waste Regulation	100 L
19	waste containing a pest control product as defined in section 1 of the Hazardous Waste Regulation	5 kg or 5 L
20	PCB Wastes as defined in section 1 of the Hazardous Waste Regulation	25 kg or 25 L
21	waste containing tetrachloroethylene as defined in section 1 of the Hazardous Waste Regulation	50 kg or 50 L
22	biomedical waste as defined in section 1 of the Hazardous Waste Regulation	1 kg or 1 L, or less if the waste poses a danger to public safety or the environment
23	A hazardous waste as defined in section 1 of the Hazardous Waste Regulation and not covered under items 1 – 22	25 kg or 25 L
24	A substance, not covered by items 1 to 23, that can cause pollution	200 kg or 200 L
25	Natural gas	10 kg, if there is a breakage in a pipeline or fitting operated above 100 psi that results in a sudden and uncontrolled release of natural gas

APPENDIX 5

CLEAN HARBORS
TRANSPORTATION COMPLIANCE DEPARTMENT
INCIDENT/ACCIDENT REPORTING

24 Hour Emergency Response #
1-800-483-3718

Company policy requires that a representative of the Transportation Compliance Department be contacted by phone when a company employee is involved in an accident on either public or private property or when there is a release of any material from a company vehicle in transit. In-transit includes loading, unloading, temporary storage and while being transported. In-transit does not include those times when the transporter is not present, and a vehicle is being loaded and/or unloaded by the facility either accepting a shipment or preparing a shipment for transportation. In this scenario – the reporting is the responsibility of the facility not the transporter.

The expectation is for the responsible party to contact the Transportation Compliance Specialist assigned to the region where the accident/incident occurred. If the primary contact is unavailable, contact the 24 hour Emergency Response operator at the number identified above and you will be placed in contact with an alternate Transportation Compliance Specialist.

RE: Driver Training

To Whom It May Concern:

Please accept this letter as certification from Clean Harbors Environmental Services, Inc. regarding our company Driver Training requirements:

All drivers are trained under the current DOT Motor Carrier Safety Regulations and have knowledge of the proper handling procedures for the types of waste transporter, the hazardous waste manifest system, and the safe vehicle operation as provided in 49 CFR Parts 383, 390-399 and DRGHW Section 263.104. All drivers are familiar with and carry a current copy of our company Spill Control Plan.

Should you have any questions, please contact me at (781) 792-5000.

Sincerely,

Gwendolyn Hill
SVP of Transportation Compliance
permitsus@cleanharbors.com

Subject: DNREC Notice- Incomplete Delaware Solid Waste Transporter Permit (SW1512)

Hello Ms. Pickering,

Thank you for submitting your application for your Delaware solid waste transporter permit. Upon review, I have found that some information is missing or needs to be updated. Please address the items listed below:

- **Section 4(b)-** The ownership/corporate officer information that was submitted is missing the dates of birth and their preferred mailing address. Please update your ownership information and send it back.

- **Section 13-** The vehicle list is missing who owns each vehicle. Please update the vehicles.
- **Section 16-** Please have an officer listed in 4(b) sign and date the application.

Please provide the information requested above via e-mail within five (5) days.

Thank you,

DaQuan L. Davis
