I've been driving since I was 16. When I was 23; I was hired by construction company and have been driving their company trucks and trailers without any accident. They have variety of trailers

Sizes: 12ft – 24ft

Types: utility, flatbed, dump trailers

Skipper Schilling (CDL DRIVER)

Mr. Schilling was hired as CDL driver; based on his previous multiple year experience of driving for US FOODS. He's a new addition to a company, technically a main driver based on his CDL certification.

As we're technically new company that is not fully ready for a full time employee, Mr. Schilling is working for us as independent contractor based on need.

As a company we do make sure that his CDL and any DOT requirements are fully in order. Truck and Van goes through required inspection every year; as well as trailers are properly maintained at the shop! With proper management of the fleet, we assure that every car or trailer won't be breaking any rule or law!

Mr. Schilling was trained in the beginning during his employment about proper handling of the solid waste – from dumpster delivery to pick up, hauling and disposal!

IMPORTANT NOTICE

The Delaware Department of Natural Resources and Environmental Control (DNREC) Compliance and Permitting Section (CAPS) is dedicated to overseeing the waste transportation permit process. We carefully receive, review, and provide comments regarding submitted permit applications, requiring a complete application prior to public notice. It is important for transporters submitting applications to DNREC-CAPS to understand that all permit applications will now be publicly accessible during the required 15-day public notice period and are also subject to release under DNREC's Freedom of Information Act (FOIA) afterward.

To improve transparency, DNREC now publishes legal notices on its website that include the names of transporters applying for permits, along with convenient links to the original permit applications. This approach is designed to promote open communication and build public trust.

Before releasing each permit application, DNREC-CAPS ensures that all personally identifiable information (PII)-such as driver names, birthdates, and Social Security numbers-is properly redacted.

Transporters who wish to keep other certain information in their permit applications confidential-excluding personally identifiable information (PII) which is being redacted-must explicitly request confidentiality when they submit their original application. This request must comply with DNREC's Freedom of Information Act (FOIA) regulations. For detailed policies and procedures regarding confidentiality requests, refer to [8 DE Admin. Code § 900, titled Policies and Procedures Regarding FOIA Requests](#).

Please note that any request to hold specific information as confidential must be made in writing at the time you submit your original waste transporter application to DNREC-CAPS. Your request must include a justification for why the information should be kept confidential, as required by Subsections 6.2.1 through 6.2.4 of the *Policies and Procedures Regarding FOIA Requests*.

Additionally, if you are making a confidentiality claim, you are required to submit two applications: the original waste transporter permit application and a second version of the original application that redacts the information you wish to keep confidential.

We appreciate your cooperation in this matter.
