Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon,

Introduction

The following Spill Response Plan describes organizational lines of responsibility and procedures to be followed when responding to spill incidents within the transportation network of MODD Logistics LLC (MODD).

This Plan outlines the technical and procedural information necessary for effective management of any spills, and in response to any spills, that the driver may encounter. The plan also defines the company's policies, procedures, state and federal regulations, emergency action plans, emergency contact lists, and incident forms. It identifies spill response resources which can be used for MODD during a spill response operation.

Purpose

The purpose of this Plan is **to** help company personnel prepare for and respond quickly and safely to spill incidents in order to minimize and mitigate any discharge of residual waste during transportation. The Plan's purpose is to ensure an effective, and safe response to prevent further damage, injury, or loss to employees, public, and the environment.

Regulatory Compliance

This plan, as well as additional company policies, exist to comply with federal and state regulations and requirements for waste and logistics companies. This plan is intended to meet the requirement of the U.S. Department of Transportation "Accident Prevention and Contingency Planning".

Facility and Company Descriptions

MODD operates a small fleet intended for the transfer of residual waste within New Jersey and Pennsylvania. All loads will be tarped, enclosed, or covered to prevent accidental spill or discharge of the waste during transport to the disposal facility.

Scope of Plan

This plan includes all MODD operational areas within and outside of the State of New Jersey and Pennsylvania. Pre and post trip inspections are to be completed prior to operating a truck or trailer and at the end of the trip to ensure compliance.

The following equipment is to be maintained in each vehicle:

- b. Any spill, no matter the size, must be reported to Vincent Tavernite immediately, and the written incident report must be given to the Risk Manager within 24 hours of the spill, regardless of the completion of the investigation being conducted. It is up to Dispatch to collect the first response and begin the investigation. Vincent Tavernite will take over the investigation and determine the severity of the incident.
- c. Vincent Tavernite will conduct the rest of the cleanup outside of immediate response, including notifying the Department prior to the disposal or processing of the waste, outlined by § 299.218.
