- B. Facility inspections are to be conducted (daily, weekly and monthly) documented and filed. - E. Pioneer Pipe Contractors, Inc. employees shall report all spills no matter how small to their supervisor immediately. Our method for immediate notification of any spill can have the appropriate measures taken and proper emergency response teams notified if required. Further, required internal reporting and project record keeping help the re-evaluation of (Company Name's) existing spill procedures.

Pioneer Pipe Contractors, Inc. has made a commitment to maintain a safe and environmentally sound habitat. This requires preparedness and continuous improvement in all phases of spill prevention/ response. Prevention however is not just the job of Pioneer Pipe Contractors, Inc., but of each individual employed by Pioneer Pipe Contractors, Inc. to be responsible in keeping chemicals safe on the job site, during storage and disposed of when required. Employees must follow the rules, understand each chemical's hazards, report unsafe conditions to their supervisor and "ask" if unsure of policy and procedures

Hello,

As per our conversation, I need the following address :

- **Section 7(a) and Section 8-** In application, dry waste was checked, and Clean Earth New Castle was also checked, but it only accepts Non-hazardous petroleum-hydrocarbon contaminated soils. Is "Dirt" the only type of waste that Pioneer Pipe Contractors, Inc. intends to transport? If that is the case, I will remove dry waste from PPC, Inc.'s permit application. However, if Pioneer Pipe Contractors, Inc. wishes to include dry waste, I will need the name of another facility that accepts it.

Please have someone from Pioneer Pipe Contractors, Inc. provide me with this information via email.

Best Regards,
