SPILL CONTROL PLAN FOR SOLID WASTE HAULERS

- (1) Spill control and safety equipment carried in each vehicle:
 - 1). Reflectors and/or flares
 - 2). Fire extinguisher
 - 3). First aid kit
 - 4). Heavy-duty gloves, hard hat
 - 5). Flashlight
 - 6).
- (2) All loads will be enclosed, covered, or tarped to prevent accidental discharge of the waste during transport to the disposal facility.
- (3) The driver will perform the following pre-trip inspections:
 - 1).
 - 2).
- (4) If there is an accident or other emergency which causes a portion of the load to be spilled, the driver, if uninjured, will contact the following designated company coordinator:
Name: _____ Phone: _____
- (5) The designated coordinator will contact the state and municipal authorities where the accident occurred. If the accident or spill has the potential to cause environmental damage, (either due to the nature of the waste, location of the accident, or additional factors such as leaking oil, gasoline, or hydraulic fluid) the person contacted will notify the state emergency response team, by calling one of the following numbers:
Delaware: 911, (302) 739-9401 or 1-800-662-8802 (*Other numbers may be listed as follows, however, the listed Delaware numbers **must** be included in the spill control plan.*)
Maryland:
New Jersey:
- (6) The designated coordinator will contract for clean-up services with another company. (*This is optional, however, if another company is to be contracted, please append a list of cleanup companies by either region or state.*)
- (7) This plan will be carried in all vehicles, along with the permit.

Blair / Ivyland Construction

Preparedness, Prevention and Contingency Plan

I. Emergency Action

In the event of an on the road spill or other emergency, the driver will adhere to the following procedures:

1. Remain with the unit and warn all pedestrians and motorists to stay away from the spill area, pointing out to them the danger involved and have someone call the police or fire department.
2. Upon arrival of the police or fire department, the driver will inform them of what kind of material has been spilled and request the area to be blocked off to prevent property damage or personal injury.
3. The driver will request the first responder, fire or police personnel to protect the area while the driver reports to the Emergency Response Coordinator listed in Section VI.
4. The Emergency Response Coordinator will gather the information outlined in the emergency reporting section and relay it to the Emergency Response Agencies listed in Section VII.

II. Specific Actions to be taken at the scene of the spill

1. The primary concern is to prevent the escape of any hazardous substances into the ground or storm water or sanitary sewer. The driver should attempt the following procedures dependant upon the physical property of the waste:
 - a. Erect a barrier to prevent escape of spilled liquids. Put a bucket under any leaking pipe, valve or tank to catch leak. Clean up any spotting with absorbent and/or spill pillows. Create a vacuum in the tank trailer to keep material from leaking further.
 - b. Use tarp or plastic to contain solids in wet and windy conditions.
 - c. The source of the spill or leak in a drum should be located and controlled, e g. a drum plugged or taped, turned upside down or over-packed.
2. In the event of a major spill and there is a possibility of fire or generation of toxic fumes, the personnel should be evacuated to a distance of at least one 1/2 mile. If no fire threatens and no containers have ruptured, a distance of 50-100 feet should suffice.
3. Cleanup will be affected depending upon spill area. If the spill is on a paved surface, compatible absorbent material will be used. If the spillage has reached earth, all contaminated dirt will be collected. The extent of the contamination will be determined by laboratory analysis. All damaged drums will be over-packed to prevent further contamination. All contained material will be disposed of at an EPA approved disposal facility.

III. Decontamination

1. All vehicles will be decontaminated at the site, and then transported to an authorized facility for further decontamination.
2. Each item of equipment will be placed in an open head container and thoroughly rinsed with a compatible solvent or cleaning compound. The residue will then be drained into a tight head container, sealed and disposed of in accordance with Federal and State Regulations.
3. All contaminated clothing will be placed with the residue and disposed of accordingly. If clothing is reusable, then it will be decontaminated properly and the residue added to the other waste.

IV. Emergency Reporting

In the event of an emergency or a hazardous waste spill during transportation, the transporter's Emergency Response Coordinator will immediately notify the Environmental Protection Agency for the state where the incident occurs and the National Response Center with the following information:

1. Name of person reporting the incident;
2. Transporter's name, address and EPA identification number;
3. Phone number where the person reporting the incident can be reached:
 - a. At the location of the incident
 - b. Emergency Response Coordinator's phone number.
4. Date, time and location of the incident
5. Mode of transportation and type of transport vehicle (liquid tank truck, dump truck, box truck, etc.);
6. A brief description of the incident, including the type of incident
7. For each waste involved in a spill, the following information is required:
 - a. The name and EPA ID# of the generator of the waste
 - b. DOT shipping name, hazardous class and UN number of the waste
 - c. Estimated quantity of the waste spilled
 - d. The extent of the contamination of the land and/or water and/or air
8. Shipping name, hazard class and the UN or N.A. number of any other material carried (this concerns mixed shipments of drums)
9. Extent of any injuries, if any

The transporter will also immediately notify the affected municipality by calling the state and local police departments.

The transporter will submit a report of the incident in writing to the following agency:

Information System Manager
DHM-63
Research and Special Programs Administration
U.S. Department of Transportation
Washington, DC 20590-0001

And send copies of the report to:

1. Department of Environmental Resources

Subject: Delaware Solid Waste Transporter Permit Application (R. P. Blair)

Categories: Egress Switch: Unprotected

Hello,

Thank you for submitting your application for your Delaware solid waste transporter permit. Upon review, I have found that some information is missing or needs to be updated. Please address the items listed below:

- **Section 10-** Please provide an MCS-90 endorsement form with policy number S 2364631.
- **Section 12-** Please provide driver training. Requirements include:
 - (a). Special licenses (e.g. CDL, including any special endorsements), any special training received, including dates training was received (e.g. asbestos training), and any ongoing company programs. (e.g. weekly safety meetings or annual refresher courses);
 - (b). Include your company procedure for periodic checks of the driver's records for moving violations, and your company policy on progressive counseling/discipline based on points.
 - (c). Describe how drivers are instructed in the following:
 - (i) Knowledge of proper handling procedures for the type of solid waste being transported.
 - (ii) Familiarity with the approved accidental discharge containment plan. (Spill Control Plan)
 - (iii) Familiarity with the conditions of the solid waste transporter's permit.

Please provide the information requested above via e-mail within five (5) days.

Thank you,

DaQuan Davis

Dated at SHEBOYGAN, WISCONSIN on AUGUST 5, 2025

Amending Policy No. ZN9190 Effective Date AUGUST 30, 2025

Name of Insurance Company ACUITY, A MUTUAL INSURANCE COMPANY

Countersigned by

VP - Commercial Insurance

This insurance is primary and the company shall not be liable for amounts in excess of \$750,000 for each accident.

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA, to verify that the policy is in force as of a particular date. The telephone number to call is: 920-458-9131.

Cancellation of this endorsement may be effected by the company or the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under 49 U.S.C. 13901, by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, D.C.).

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

Public Liability means liability for bodily injury, property damage, and environmental restoration.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo.

It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement

thereon, or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions, and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately, to each accident, and any payment under the policy because of any one accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

THE SCHEDULE OF LIMITS SHOWN BELOW DOES NOT PROVIDE COVERAGE. The limits shown in the schedule are for information purposes only.
