SOLID WASTE TRANSPORTER PERMIT APPLICATION

Language Preference: English

Instructions: You must complete this application in its entirety and attach all applicable documentation. (Note: For applicants renewing an existing permit, this application requires the submission of updated information and documentation. References to material submitted under previous applications are no longer accepted.)

The application must be signed by the company owner or a corporate officer. A check or money order payable to the "State of Delaware" must accompany this application and be sent to:

Delaware Department of Natural Resources and Environmental Control
Compliance and Permitting Section
89 Kings Highway
Dover, DE 19901

1. Type of Permit

- ☐ New – **SCRAP TIRES ONLY** Submit a check or money order, payable to the "State of Delaware," in the amount of \$75.00.
- ☐ New – **ALL OTHERS** Submit a check or money order, payable to the "State of Delaware" in the amount of \$350.00.
- ☒ Renewal: Permit # DE-SW- 1833 Expiration Date 09/30/2026

Please indicate the term for which you desire your permit to be issued. Submit a check or money order, payable to the "State of Delaware," for the indicated permit fee.

SCRAP TIRES ONLY

- ☐ One Year - \$75.00
- ☐ Two Years - \$125.00
- ☐ Three Years - \$175.00
- ☐ Four Years - \$225.00
- ☐ Five Years - \$275.00

ALL OTHERS

- ☐ One Year - \$350.00
- ☒ Two Years - \$650.00
- ☐ Three Years - \$950.00
- ☐ Four Years - \$1250.00
- ☐ Five Years - \$1550.00

2. Release to Public

Do you wish to be included on the list of transporters that is provided to persons requesting a list of Delaware permitted solid waste transporters? ☒ Yes ☐ No

3. Company Information

Company Name D&A CONTRACTING LLC

Location Address:	Mailing Address:
280 OLD LEDGEWOOD RD	322 US 46 WEST
FLANDERS, NJ 07836	PARSIPPANY, NJ 07054

Contact: VALENTINA NEGRET Title: DIRECTOR OF OPERATIONS

Business Phone: 9738654811 Fax: _____

E-mail: VALENTINA@DACONTRACTING.COM

24 hr Emergency Contact Phone: 2019195191

4. Company Ownership Information

(a). Please indicate the company type:

- ☐ Proprietorship
☐ Partnership
☐ Corporation - If company is a corporation, indicate city, state, and date of incorporation.

City: _____ State: _____ Date: _____
☐ Municipality
☐ Public institution
☒ Limited Liability Corporation (LLC) State: NJ
☐ Other: (must specify) _____

(b). For each Owner, Partner, or Corporate Officer, attach a list with name, title, mailing address, date of birth, and % ownership. Include all stockholders owning greater than 5% outstanding shares.

☒ Attachment _____

(c). If company is owned by or affiliated with a parent company, attach parent company name, address & mailing address, and % ownership.

☐ Attachment _____
☒ No parent company

5. Company locations in Delaware

List name and street address of each company location, including freight terminals, within the State of Delaware.

- ☐ Attachment _____
☒ No Delaware locations

6. Company Affiliates

List name, location and mailing addresses, nature of business relationship of all company Affiliates, which affiliates are engaged in the business of waste transport, treatment, storage, disposal, recovery or reclamation. (Affiliated companies are defined as those companies owned by the same owners, corporate officers, or parent company.)

- ☐ Attachment _____
☒ No affiliates

7. Type of Waste to be Transported

(a). Check all that apply. Refer to Delaware's *Regulations Governing Solid Waste* for definitions of waste categories.

- ☐ Residential waste
☐ Commercial waste (from **non-manufacturing, non-processing** businesses and offices)
☐ Industrial waste (from a manufacturing or industrial process)
☐ Dry waste: ☐ construction/demolition debris
☐ trees/stumps
☐ other (must specify) _____
☐ Ash: ☐ municipal incinerator
☐ coal ash
☐ other (must specify) _____
☐ Infectious waste
☒ Non-hazardous petroleum-hydrocarbon contaminated soils
☐ Asbestos-containing waste
☐ Scrap Tires

(b). Does your company collect and transport residential (household) waste from single family homes, condominiums and apartment complexes in Delaware? ☐ Yes ☒ No

(c). If you answered "YES" to question 7.b., above, does your company provide recycling services to those customers? ☐ Yes ☒ No ☐ N/A

(d). If you offer recycling services, does your company collect and transport the recyclables separately from the waste generated by your customers? ☐ Yes ☒ No

(e). If you offer recycling services, are the recyclables ultimately taken to an incinerator (waste-to-energy) or landfill? ☐ Yes ☒ No

8. Treatment, Storage, and Disposal Facilities

- (a). Do you cross state lines with the waste? ☒ Yes ☐ No
- (b). Identify in an attachment **all** solid waste Treatment, Storage, Disposal Facilities, Reclamation Facilities and Transfer Stations to which the waste will be transported.
- ☐ Delaware Solid Waste Authority locations: (attachment) _____
 - ☒ Clean Earth of New Castle, Inc. (thermal treatment facility for PHC-soils)
 - ☐ Delaware Recyclable Products, Inc. (dry waste, commercial, industrial, and PHC-soils)
 - ☐ Other in-state solid waste facilities, including private facilities: (attachment) _____
 - ☐ Out of state solid waste TSD facilities: (attachment) _____

9. Other Transporter Permits

- (a). Attach a copy of your home state solid waste transporter permit. (N/A if Delaware is your home state.)
- ☒ Attachment NJ DEP SW (
 - ☐ Not applicable-No transporter permit required for these solid waste types in our home state.
- (b). List solid waste transporter permits held in other states.
- ☒ Attachment PA
 - ☐ No transporter permits in other states
- (c). Indicate your Federal DOT number and Motor Carrier number:
- DOT# 2406763 MC# _____
- ☐ N/A If N/A, please provide an explanation, on the following page, as to why you are not required to have a DOT or MC number.
-

10. Proof of Financial Responsibility

The transporter must submit proof of financial responsibility as established in section 7.2.4 of Delaware's *Regulations Governing Solid Waste*. This proof may be established by a Certificate of Insurance, with MCS-90 endorsement where applicable, or by other means approved by the Department. (The Certificate of Insurance must identify the **Department of Natural Resources and Environmental Control, Compliance and Permitting Section** as the certificate holder.)

- (a). Are you for-hire in interstate commerce? ☐ Yes ☒ No (For-Hire means you are in the business of transporting, for compensation or payment, wastes generated by a company other than your own.)
- (b). Do you transport in the State of Delaware Only (Intrastate)? ☐ Yes ☒ No
- (c). Do you transport Interstate? ☒ Yes ☐ No

- (d). Certificate of Insurance must be attached and include minimum automobile liability coverage as follows:

	FOR-HIRE INTERSTATE	ALL OTHERS
Residential Waste	\$750,000.00 + MCS-90 ☐	\$350,000.00 ☐
Commercial Waste	\$750,000.00 + MCS-90 ☐	\$350,000.00 ☐
Industrial Waste	\$750,000.00 + MCS-90 ☐	\$350,000.00 ☐
Dry Waste	\$750,000.00 + MCS-90 ☐	\$350,000.00 ☐
Ash	\$750,000.00 + MCS-90 ☐	\$350,000.00 ☐
Infectious Waste	\$1,000,000.00 + MCS-90 ☐	\$750,000.00 + MCS-90 ☐
Non-Hazardous Petroleum Contaminated Soils	\$750,000.00 + MCS-90 ☐	\$350,000.00 ☒
Asbestos	\$1,000,000.00 + MCS-90 ☐ (For Hire & Private)	\$350,000.00 ☐
Scrap Tires Only	\$350,000.00 ☐	\$350,000.00 ☐

11. Spill Control and Safety

List all spill control and safety equipment which will be carried on each vehicle. (**Note:** Separate lists by type of vehicle and type of waste may be required.) Attach a copy of the Spill Control Plan. The Spill Control Plan **must** contain the following elements: (1) List of safety and spill control equipment carried in the vehicle, (2) Driver preventive measures, (3) Driver immediate corrective actions, (4) Company internal communications, (5) Company external communications including the **Delaware Emergency Reporting Numbers: 1-800-662-8802 and 302-739-9401**, and (6) Cleanup and decontamination measures.

✓ Spill Control Plan: Attachment _____

12. Driver Training

IN SUMMARY OR OUTLINE FORM, describe the procedures that your company takes to ensure that all company drivers are safe and competent drivers. Small owner-operators may describe their years of experience and driving record in lieu of a formal program.

- Include requirements for special licenses (e.g. CDL, including any special endorsements), any special training received, including dates training was received (e.g. asbestos training), and any ongoing company programs. (e.g. weekly safety meetings or annual refresher courses);
- Include your company procedure for periodic checks of the driver's records for moving violations, and your company policy on progressive counseling/discipline based on points;
- Describe how drivers are instructed in the following:
 - Knowledge of proper handling procedures for the type of solid waste being transported.
 - Familiarity with the approved accidental discharge containment plan. (Spill Control Plan)
 - Familiarity with the conditions of the solid waste transporter's permit.

✓ Driver Training, attachment _____

13. Vehicle Identification

On the form provided with this application, list **MAKE, MODEL, YEAR, SERIAL NUMBER, LICENSE PLATE NUMBER, STATE OF REGISTRATION, MANUFACTURER'S GVWR and OWNERSHIP** of all vehicles used for the transportation of solid waste. You must list both motorized and container units. (If you maintain a list of company vehicles in a computer database you may submit a print out of the vehicles provided it contains the information requested herein.)

NOTE: You must notify CAPS in writing of any changes to information contained within this application, such as additions or deletions of vehicles, in accordance with conditions of the issued permit.

☒ Vehicle List Attached

14. Vehicle Operator Information

Is a list of all vehicle operators attached? ☒ Yes

What tax form do you submit to the IRS for your vehicle operators?

☐ Form W-2

☒ Form 1099-Misc

☐ Other

15. Environmental Record

List all criminal citations, arrests, convictions, civil or administrative violations, and civil or administrative enforcement actions, and the disposition(s) thereof for the violation or alleged violation of any environmental statute, regulation, permit, license, approval, or order, regardless of the state in which it occurred. Indicate whether it was a local, state, or federal violation or alleged violation. List all such items for the applicant, and if the applicant is other than an individual, for any employee while employed by the applicant, or any partner, officer, or director of the applicant as an individual or for any former business of such partner, officer, or director. For civil or administrative violations or alleged violations, list all such items for the last five (5) years from the date of the application. Information submitted under this section is subject to verification. **Failure to submit complete and accurate information may lead to permit denial or revocation.**

☐ Attachment _____

☒ No violations within the specified time period

16. Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, upon personal knowledge and information, the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information.

Spill Control Plan for Solid Waste Haulers

D&A Contracting, LLC

322 US 46 West, Parsippany, NJ 07054 | Telephone 973-865-4811 | USDOT #2406763

Submitted in support of the Delaware Solid Waste Transporter Permit application, Item 11. Revised September 2026. This plan is carried in every vehicle along with the permit.

1. Spill control and safety equipment carried in each vehicle

Every vehicle used to transport solid waste carries the following equipment, checked as part of the daily pre-trip inspection:

- Reflective warning triangles and/or flares
- Fire extinguisher, charged and within its inspection date
- First aid kit
- Heavy-duty gloves, hard hat, safety vest and eye protection
- Flashlight
- Shovel and broom for recovering spilled material
- Absorbent material and a supply of heavy-duty bags for containment of small releases
- Spare tarp and securing straps
- A copy of this spill control plan and the Delaware solid waste transporter permit

2. Driver preventive measures

All loads are enclosed, covered, or tarped before the vehicle leaves the loading site, and remain covered until the vehicle reaches the receiving facility. No vehicle departs with a load above the sideboards or with material resting on any exterior surface of the truck.

The driver performs a documented pre-trip inspection before each shift, which includes at minimum:

- Confirming the tarp, tailgate and all latches are secure and free of damage, and that the load is within legal weight and evenly distributed
- Checking the body, hydraulic lines, fuel system and undercarriage for leaks, and verifying that the spill control and safety equipment listed in Section 1 is present and serviceable

A post-trip inspection is performed at the end of each shift. Any defect found during either inspection is reported to dispatch and corrected before the vehicle returns to service.

3. Driver immediate corrective actions

If an accident or other emergency causes any portion of the load to be discharged, the driver, if uninjured, takes the following steps in order:

1. Stop the vehicle in the safest available location, set the brake, and shut down the engine if there is any sign of fire or fuel leakage.
2. Call 911 immediately if there are injuries, fire, or a release that threatens a waterway, storm drain or the traveling public.
3. Place reflective triangles or flares to warn oncoming traffic and keep bystanders clear of the material.
4. Stop the source of the discharge where it is safe to do so, by closing the tailgate, re-securing the tarp, or applying absorbent to contain a liquid release. Do not attempt to right an overturned vehicle or move a load without assistance.
5. Prevent material from entering any storm drain, catch basin, ditch or surface water using absorbent, soil berms or the shovel carried on the vehicle.
6. Contact the designated company coordinator named in Section 4 and remain at the scene until released by the responding authority.
7. Photograph the scene and record the time, location, material involved and approximate quantity released for the incident report.

4. Company internal communications

The driver contacts the designated company coordinator below. The coordinator is reachable at the 24-hour emergency number given on the permit application and takes charge of the company response from that point.

Role	Contact
Designated spill coordinator (24 hours)	Drew Fernandez – 973-632-0120
Alternate coordinator	Victor Baquero – 862-267-8629
Company office	322 US 46 West, Parsippany, NJ 07054 - 973-865-4811

The coordinator notifies the owners, dispatch, and the company's insurance carrier, logs the incident, and ensures the written incident report is completed within 24 hours. Dispatch reroutes remaining work and arranges a replacement vehicle where needed.

5. Company external communications

The designated coordinator contacts the state and municipal authorities having jurisdiction where the accident occurred. If the accident or spill has the potential to cause environmental damage, whether because of the nature of the waste, the location of the

accident, or additional factors such as leaking oil, gasoline or hydraulic fluid, the coordinator notifies the state emergency response team using the numbers below.

Jurisdiction	Emergency reporting number
Delaware	911, (302) 739-9401 or 1-800-662-8802
Maryland	1-866-633-4686 (Maryland Department of the Environment, 24-hour spill line)
New Jersey	1-877-927-6337 (NJDEP Hotline, 24 hours)

The Delaware numbers are called for any incident occurring in Delaware regardless of severity. Notification is made as soon as the scene is safe and in no case later than the reporting deadline imposed by the responding agency.

6. Cleanup and decontamination measures

Spilled material is recovered and returned to a permitted vehicle for transport to the originally designated receiving facility, or to another permitted facility able to accept it. Material that cannot be recovered by hand is removed by a contracted cleanup company under the direction of the responding agency. Affected soil is excavated to the depth directed by the agency on scene.

Equipment and vehicle surfaces that contacted the released material are washed down at a permitted facility, not on the roadway or at the incident site, and wash water is captured and disposed of as regulated wastewater. The vehicle does not return to service until it has been inspected, the defect that contributed to the release has been corrected, and the coordinator has signed off.

The company maintains a list of cleanup contractors by region and will engage a contractor when the volume or nature of a release exceeds what the crew can safely recover. All cleanup is documented in the incident report, including the disposition of the recovered material and copies of any disposal tickets.

7. Plan availability and training

A copy of this plan is carried in every vehicle along with the solid waste transporter permit. Each driver is instructed on its contents at hire and at the company's periodic safety meetings, and is required to be familiar with the proper handling procedures for the waste being transported, with this accidental discharge containment plan, and with the conditions of the Delaware solid waste transporter permit.

Certification

This spill control plan is submitted as an attachment to the Delaware Solid Waste Transporter Permit application for D&A Contracting, LLC and is accurate as of the date signed.

Driver Training and Qualification Summary

D&A Contracting, LLC

322 US 46 West, Parsippany, NJ 07054 | Telephone 973-865-4811 | USDOT #2406763

Submitted in support of the Delaware Solid Waste Transporter Permit application, Item 12. Revised September 2026.

Overview

D&A Contracting operates a fleet of approximately 80 dump trucks across New York, New Jersey, Pennsylvania, Delaware and Connecticut. The procedures below are drawn from the company Fleet Handbook, which applies to every employee who operates, oversees or supports the use of a company vehicle. Every driver signs an acknowledgment that they have read and agree to comply with it, and that signed form is kept in the driver qualification file.

1. Licensing, credentials and special training

Drivers must hold a valid commercial driver's license of the appropriate class, Class A or Class B, with the endorsements the assignment requires, including air brakes. A current copy is kept on file at all times. Drivers are responsible for renewing their license and for notifying the company of any change in its status.

CDL drivers must meet the DOT medical qualification standard and hold a valid Medical Examiner's Certificate. Any condition that affects the ability to drive, and any loss of certification, must be reported immediately. The company tracks expiration dates for licenses and medical cards through its driver qualification system and notifies drivers in advance of renewal.

Drivers must also hold any jurisdiction-specific credential a contract requires, including New Jersey A-901 clearance. The company informs drivers which credentials apply to their assignments.

A license suspension, revocation or invalidation must be reported within 24 hours, and the driver must stop driving immediately. Operating a company vehicle without valid authority results in termination.

In compliance with the Federal Motor Carrier Safety Regulations, the company maintains a driver qualification file for each driver containing licensing, medical and employment documentation. Drivers certify their driving record annually.

2. Driving record checks and progressive discipline

Employment requires maintaining a clean, insurable driving record. The company runs a motor vehicle record check at hire and at least annually thereafter. Serious violations or excessive points may result in suspension, removal from driving duties, or termination.

Drivers must report qualifying off-duty incidents to a supervisor or the safety manager within 24 hours. These include an arrest or conviction for DUI or DWI, refusal of a DUI test, a license suspension or revocation, an arrest for a serious traffic offense such as reckless driving or hit-and-run, and any significant off-duty accident that could affect CDL or insurance status. Failure to report a qualifying incident is itself a serious violation.

Discipline follows a point system. Each violation is assigned one to five points based on severity, tracked over a rolling twelve-month period; points expire twelve months after the incident if no new violation occurs. The escalation is as follows:

Points	Example violation	Disciplinary action
1	Failure to use turn signals; seat belt not worn	Verbal warning, documented in the driver's file
2	Speeding 1 to 10 mph over the limit; unauthorized personal use of a company vehicle	Written warning; policy review may be required
3	Speeding 11 to 20 mph over the limit; handheld phone use while driving	Final written warning, with a one to three day unpaid suspension or mandatory retraining
4	Reckless driving; preventable accident with injury or major damage; off-duty DUI	Suspension up to five days, probation of 60 to 90 days, additional training, formal review
5	Hit-and-run; driving on a suspended license; falsification of records	Immediate termination, or final review where mitigating circumstances exist

A single severe offense can result in immediate termination regardless of point total.

Violations, assigned points and disciplinary actions are recorded in the company's Fleet Violation Tracking Log, which management reviews regularly and which may incorporate DOT records and MVR data. Drivers receive written notice when points are issued, may request their current total at any time, and may appeal a disciplinary action in writing within five business days to the next-level manager.

3. Driver instruction

Drivers receive the instruction below at orientation, on re-issue of the Fleet Handbook following a material update, and at the company's periodic safety meetings. Retraining is also assigned as a disciplinary measure at the three and four point levels.

Proper handling of the waste transported

Drivers are instructed on the characteristics of the material they carry and the requirements that attach to it, on load securement and even distribution with loose material properly tarped, and on never exceeding legal weight limits. Each driver is required to know the gross vehicle weight rating of the truck assigned to them and the typical weight of the materials they carry. Drivers follow dispatch instructions, designated routes and load handling protocols, and deliver only to the receiving facility designated for that load.

Familiarity with the accidental discharge containment plan

A copy of the company spill control plan is carried in every vehicle. Drivers are instructed on the equipment carried for containment, on the sequence of immediate corrective actions following a discharge, on preventing material from reaching a storm drain or waterway, and on contacting the designated company coordinator. Drivers conduct daily pre-trip and post-trip inspections using the company checklist or DVIR form, which includes verifying that spill control and safety equipment is present and serviceable, and report any defect immediately so it is corrected before the vehicle is operated.

Familiarity with the conditions of the transporter permit

The Delaware solid waste transporter permit is carried in every vehicle alongside the spill control plan. Drivers are instructed on the conditions attaching to the permit, on the requirement to carry the required documents and cooperate fully during any inspection or enforcement interaction, and on the categories of waste the permit authorizes the company to transport.

4. Ongoing safe driving standards

The Fleet Handbook sets the standards reinforced at every safety meeting: obey all traffic laws and drive defensively with seat belts worn at all times; no handheld phone use or texting while driving, hands-free communication only; no aggressive driving or speeding; no unauthorized personal use of a company vehicle; keep the vehicle clean and secure and follow fueling protocols, with no tampering with emission controls or safety systems. Drivers report safety issues, incidents and law enforcement interactions to management promptly, and are expected to seek guidance from a supervisor whenever a situation is unusual or unclear.

Certification

This summary is submitted as an attachment to the Delaware Solid Waste Transporter Permit application for D&A Contracting, LLC and is accurate as of the date signed.

IN THE MATTER OF THE APPLICATION OF D & A	)	SOLID WASTE
CONTRACTING LLC FOR A CERTIFICATE OF	)	ORDER
PUBLIC CONVENIENCE AND NECESSITY FOR	)	DOCKET NO. CF2019-033
THE COLLECTION OF SOLID WASTE	)	SW NUMBER SW3461
	)	

(SERVICE LIST ATTACHED)

On July 18, 2019 D & A Contracting LLC ("D & A or Applicant"), a limited liability company formed under the laws of the State of New Jersey, with a street address of 322 Route 46 West, Suite 120, Parsippany, New Jersey 07054 filed a petition with the Department of Environmental Protection (Department) pursuant to N.J.S.A. 48:13A-6, for a Certificate of Public Convenience and Necessity (Certificate) to engage in the business of solid waste collection.

Pursuant to the provisions of N.J.S.A. 48:13A-6, persons are not permitted to engage in the solid waste collection or solid waste disposal business unless they hold a Certificate, are qualified by experience, training or education, are able to furnish proof of financial responsibility and the proposed collection or disposal system is registered with, and approved by, the Department.

The Applicant proposes to engage in the collection, transportation, and disposal of solid waste, providing Dump Truck/Trailer Services for the removal of Bulky Waste (Type 13), Construction/Demolition Debris (Type 13C), and Asbestos Waste (Type 27A) to commercial and industrial customers in all counties of New Jersey. The solid waste will be disposed of in accordance with each county's Solid Waste Management Plan.

A copy of the Applicant's notice of A-901 Approval, dated June 25, 2019 meeting the requirements of N.J.S.A. 13:1E-126 et seq., has been submitted to the Department. The Applicant has submitted tariff sheets for these services.

After review of the application as filed, the Department **FINDS** that the Applicant has met the necessary requirements as to financial responsibility, experience, and training to be granted a Certificate. Therefore, the Department **HEREBY AUTHORIZES** the issuance of a Certificate identified as **SW3461**, to engage in the solid waste collection business in New Jersey as specified herein above. Operations authorized herein are subject to the rights and duties of public utilities as set forth in Title 48, New Jersey Statutes Annotated and Title 7, New Jersey Administrative Code.

Good morning,

We sent in the renewal last week. Just wanted to confirm that it was received. Please let me know if you have any questions, or if anything else was missed.

Thank you,

- Valentina

Subject: Delaware Solid Waste Transporter Permit Renewal

Good afternoon,

This is a reminder that your Delaware Solid Waste Transporter Permit renewal application is due. Please note your permit expires September 30, 2026. Failure to submit a complete application by the deadline means your company is no longer allowed to engage in transportation of waste in the state of Delaware.

For your convenience, I have attached the permit application to this email. Please print and complete the application. Mail the completed form along with payment (by check or money order) to:

**Delaware Department of Natural Resources and Environmental Control,
Compliance and Permitting Section, 89 Kings Highway, Dover, DE 19901.**

If you have any questions, feel free to contact me using the phone number or email in my signature below.

Regards,

DaQuan L. Davis
