

NON-HAZARDOUS LIQUID WASTE TRANSPORTERS PERMIT APPLICATION

Groundwater Discharges Section, Division of Water
DE Department of Natural Resources and Environmental
Control

89 Kings Highway, Dover DE 19901
(302) 739-9948

1. Permit Number (For renewals only):	
---------------------------------------	--

2. Company Information

Company Name: Bin Busters LLC	Telephone: 302-841-5290
	Fax:

Address (street, city, state and zip code): 30009 W Mill Run, Milton , Delaware, 19968

Company Email Address & Contact Name: binbustersllcde@gmail.com, Shane Sockriter

3. Owner/President Business Information

Name: Shane Sockriter	Business Telephone: 3028415290
-----------------------	--------------------------------

Business Address if different from above (street, city, state and zip code):

4. Vehicle(s) Information (Attach additional sheets if necessary to identify each vehicle used for transport.)

	Make	Model	Year	Vehicle Type (Tank, Trailer, Etc.)	License Plate Number	State of Registration	Capacity (gal)
1	Isuzu	NQR	2021	Flat bed truck	C116590	Delaware	250

* Please submit a Certificate of Insurance for each vehicle listed demonstrating commercial automobile liability insurance with a combined single limit of at least \$100,000.

*Certificate of insurance uploaded: **IMG_0733.jpeg***

5. Please Check Type(s) of Waste Being Transported and Provide the Information Requested in the Indicated Sections for Each Waste Type Checked

		Waste Type	Quantity Collected
	✓		
i.		Septage	gal/yr
ii.		Holding Tank Waste	gal/yr
iii.		Grease Trap Waste and/or Cooking Oil Waste	gal/yr
iv.		Portable Toilet Waste	gal/yr
v.		Municipal or Industrial Biosolids	# wet tons/yr
vi.		Sludge From Package Treatment Plants	# wet tons/yr
vii.	✓	Other Non-Hazardous Liquid Waste	3,500 gal/yr

Documents required for all new permit applications *and* renewals:

- Attach an Operation Plan detailing the following:
 - a spill reporting and clean-up plan,
 - plans for cleaning vehicles,
 - recordkeeping procedures and
 - days and hours of operation.
- Attach a list of all disposal facilities to be used. Include a copy of the permit/authorization letter from each disposal facility stating the company is currently authorized to discharge the requested waste stream (i.e. septage, holding tank waste, portable toilet waste, etc.) to the facility. Authorization documentation is required for both new and renewal applications.

7 DelC §6023(d): No person shall haul, convey or transport any liquid waste in any container without a license issued by the Department.

Septage
<p>1. Attach a list of all Class F Licensees currently working for the company.</p> <p>If there are no Class F licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. In order for an individual to obtain a Class F license.</p>
<p>Class F Licenses uploaded:</p>

Holding Tanks
<p>1. Attach a list of all Class F Licensees currently working for the company.</p> <p>If there are no Class F licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. In order for an individual to obtain a Class F license</p>
<p>Class F Licenses uploaded:</p>

Grease Trap Waste and/or Cooking Oil Waste

1. Attach a list of all disposal facilities to be used.

2. Attach a list of all Class F Licensees currently working for the company.
If there are no Class F Licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. For a Class F License application, please contact the Licensing Coordinator at 302-739-9948.

Grease Trap Waste Disposal Facilities to be used:
Class F Licenses Uploaded:

Portable Toilets

1. Attach a list of all Class F Licensees currently working for the company.
If there are no Class F Licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping.

3. Quantity of portable toilets you own:

Municipal and Industrial Biosolids

1. Identify all Facilities the company will service by attaching a table listing the following:
Facility Name of Sludge Generator # Estimated Volume of Sludge to be Transported # Disposal Facility*
* If sludge is to be land applied, include the current Agricultural Utilization Permit Number for that facility.

Municipal and Industrial Biosolids *Disposal Facilities:*

2. Provide transportation routes from all generating facilities to all applicable disposal facilities.

Municipal and Industrial Biosolids *Transportation Routes:*

3. Indicate any treatment the sludge has undergone before transportation (for example anaerobic digestion, aerobic digestion, lime stabilization, composting, or dewatering).

Sludge Treatment Description Upload:
4. Provide results of a laboratory analysis of a representative sample of the sludge which was obtained not more than 6 months before submission of the application unless these results would be submitted as a part of the land application program. The analysis shall include, as a minimum, percent solids, pH, and the dry weight concentration of total nitrogen, ammonium, nitrate, total phosphorous, total potassium, cadmium, copper, mercury, nickel, lead, zinc, arsenic, selenium, and molybdenum.
Sludge From Package Treatment Plants Laboratory Analysis Uploaded:

Sludge From Package Treatment Plants
1. Identify all Facilities the company will service by attaching a table listing the following: Facility Name of Sludge Generator # Estimated Volume of Sludge to be Transported # Disposal Facility* * If sludge is to be land applied, include the current Agricultural Utilization Permit Number for that facility.
Sludge From Package Treatment Plants <i>Disposal Facilities:</i>
2. Provide transportation routes from all generating facilities to all applicable disposal facilities.
Sludge From Package Treatment Plants <i>Transportation Routes:</i>
3. Indicate any treatment the sludge has undergone before transportation (for example anaerobic digestion, aerobic digestion, lime stabilization, composting, or dewatering).

The analysis shall include, as a minimum, percent solids, pH, and the dry weight concentration of total nitrogen, ammonium, nitrate, total phosphorous, total potassium, cadmium, copper, mercury, nickel, lead, zinc, arsenic, selenium, and molybdenum.
Sludge From Package Treatment Plants Laboratory Analysis Uploaded:

Other Non-Hazardous Liquid Wastes
1. Describe the source, nature and make-up of the non-hazardous liquid waste to be transported.
Trash bin cleaning waste
2. Will any of the wastes contain petroleum products (i.e. oil, gas, grease, etc.)? _____ Yes ___ No : no * Transportation of liquid wastes containing any petroleum products will require a permit from the Division of Waste & Hazardous Substances (302-739-9400).

Operating Plan
Attach an Operation Plan detailing the following: a spill reporting and clean-up plan, plans for cleaning vehicles, recordkeeping procedures and days and hours of operation.
Operating Plan Upload: <i>Bin busters.pdf</i>

Disposal Facilities
Attach a list of all disposal facilities to be used. Include a copy of the permit/authorization letter from each disposal facility stating the company is currently authorized to discharge the requested waste stream (i.e. septage, holding tank waste, portable toilet waste, etc.) to the facility.
Disposal Facilities Upload: <i>IMG_0729.jpeg</i>

Proof of Bond (If applicable)
Proof of Bond - Part III B, Section 500 of the Guidance and Regulations Governing the Land Treatment of Wastes directs, as a requirement for keeping a permit issued under these Regulations, the permittee to file a bond or other security in the amount of Five Thousand Dollars (\$5,000) with the Department. The bond is to be payable to the Department and the obligation of the bond shall be conditioned upon the fulfillment of all requirements related to the permit. If this application is for permit renewal, please submit a copy of the current Transporters Bond certification.
Proof of Bond Upload:

8. Certification	
I certify that all information submitted as part of this application is true and correct to the best of my knowledge and belief.

Operation Plan: Bin Busters

If there is a spill, to catch any runoff i always use a water curb to direct the water to a position where i can safely reclaim it. The water curb also allows me to block water from running anywhere that it is unsafe to travel to.

If there is ever a spill that cannot be contained and reclaimed we will contact the local authorities immediately to get the help we need to ensure our community stays clean and safe.

Our company also does not clean any trash bins that have oil, greases, cat litter, or animal or human feces. We are very strict with this to ensure our gray water doesnâ€™t become contaminated but they can also destroy our very valuable cleaning heads.

HOURS OF OPERATION:

Monday-Friday 8am-7pm

Saturday:8am-4pm

Sunday: Closed

VEHICLE WASHING:

We only wash our work truck at car washes that have drains that run to the local sanitary sewer treatment plant. We do not wash our work vehicles anywhere that has a drain that runs into our natural waterways

Record Keeping procedures:

Bin Busters will keep a log with the date, location, time and amount of gallons dumped for each time we dispose of our gray water at the wastewater facility. This will be kept in a log book as well as our receipt of payment and any documentation we receive from the wastewater facility. These logs will be kept for a minimum of 3 years. We also use quick books for any payments we have made or received so we can track and or link any time we dispose of our gray water to those logs as well.

Disposal facility:

Sussex county wastewater facility

Inland bay wastewater facility

29445 inland bay road MILLSBORO de. 19966

POC: Peter Johnson

I am applying for this non-hazardous wastewater permit so i can get permission from the county to dump my gray water here. The county (Peter Johnson) told me i needed to get a Delaware waste transporters number to gain access. The state told me that was wrong and i need to get this non-hazard permit instead.
