This certifies that

Juan Carlos Santiago

has been issued a

On-Site Wastewater Liquid Waste Hauler (Class F) License
License Number: 6238F

Valid from March 04, 2024 through December 31, 2024

In the State of Delaware pursuant to the authorities set forth in 7 Del C Ch 60, Section 6023. Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems Delaware Administrative Code 7101, Section 1.0. Licensee is restricted in the use of this license to associated duties as an employee of Amick Farms

Steven M. Smailer, Director
Division of Water

This license may be revoked or suspended if the license holder violates any of the lawful rules or regulations of the board, any condition of this license, or the provisions of the act under which the license is issued.

License Conditions

1) All activity shall be performed in accordance with The Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, amended January 11, 2014.

2) The activity authorized by the license shall only be performed under the name of the person on the face of the license.

3) The licensee is responsible for correct and complete information submitted to the Department (address, telephone number, employer, etc.).

4) The licensee is responsible for providing proof of ten (10) annual continuing education training hours relating to wastewater. Carryover credit hours from a previous year are not accepted.

5) For all new licensees, please refer to the chart below for continuing education training requirements for the current calendar year only. If your license is issued in:

* January - April (required to complete 10 hours)

* May - July (required to complete 8 hours)* August - October (required to complete 6 hours)

* November - December (required to complete 0 hours)

6) Licenses issued are not transferable and expire on December 31st of each year.

7) All Class F licensees shall operate under a valid State of Delaware Non-Hazardous Liquid Waste Transporters Permit.

8) All Class F licensees shall be knowledgeable of the Non-Hazardous Liquid Transporters Permittee's Plan for the Prevention, Control and Clean-up of Accidental Discharges. A copy of the Plan is to be maintained on file with the Department.

9) All Class F licensees shall operate under a \$5,000 performance bond, or other form of security, is maintained on file with the Department for the duration of licensing.

10) All Class F licensees shall keep a copy of their Class F license identification card available for verification while performing any Class F license related work.

12) All Class F licensees shall enter into a "Grease Trap Maintenance Contract" with the property owner prior to pumping out grease traps. A copy of the contract document must be submitted to the Department within 15 days of signing the contract. Class F licensees may not enter into a "Grease Trap Maintenance Contract" unless the Class F licensee has an approved facility to dispose of grease trap waste identified in the Non-Hazardous Liquid Waste Transporters Permit that he/she is operating under.

13) All Class F licensees shall not co-mingle septage and grease trap waste, unless specifically approved, in writing, by the facility(ies) that will be receiving the grease trap waste.

14) All Class F licensees shall conduct business in a manner that is compliant with the Safety, Tank Access and Tank Cleaning provisions of Section 7101 of the Delaware Administrative Code, as amended or revised.

15) All Class F licensees shall submit quarterly reports documenting the location, the 911 mailing address, and amount of septage removed in total gallons. This requirement becomes effective one (1) year after promulgation of these Regulations.

SPILL REPORT/CLEAN-UP PLAN

- I. Licensed operator will identify spill, and spill type.
- II. Licensed operator will be sure to avoid direct contact with spillage as well as client, children, and/or pets if applicable.
- III. Licensed operator will wear proper protective equipment.
- IV. Licensed operator will isolate the affected area where spill is present to the best of their ability in attempts to keep contamination area contained.
- V. Licensed operator will utilize pump truck to suck up as much spillage as possible.
 - a. If sewage spill is large or if there is a lack of sun for drying, licensed operator will contact an approved sewage clean up company for assistance.
- VI. Licensed operator will sprinkle garden lime on the affected area until it is completely covered with lime dust.
 - a. If sewage is thicker in a certain area, licensed operator will mix the lime into the spillage with a rake.
 - b. If there are contaminated items present within spillage, licensed operator to remove them from the affected area for them to be disinfected once spillage is taken care of and ready for drying process.
 - i. Licensed operator will use hot water, bleach and soap using a hard bristle brush to clean eligible contaminated items.
- VII. Lime covered areas will be left to dry for 24 hours.
 - a. Client to be notified to stay clear of affected area.
- VIII. Once dry, licensed operator will shovel sewage spill/contaminated dried lime into doubled heavy duty trash bags.
- IX. Licensed operator will wash remanence of dried lime away from the ground with a garden hose.
 - a. Use a garden hose to water over the area if the above effected area was thick.
- X. Let area dry via sun exposure through the day as sunlight will aid in killing bacteria.
- XI. If lime dust persists, licensed operator will continue to water the affected area until it is no longer present.
