

NON-HAZARDOUS LIQUID WASTE TRANSPORTERS PERMIT APPLICATION

Groundwater Discharges Section, Division of Water
DE Department of Natural Resources and Environmental
Control
89 Kings Highway, Dover DE 19901
(302) 739-9948

1. Permit Number (For renewals only):	DE-WH-213
---------------------------------------	-----------

2. Company Information

Company Name: Clark's Environmental Services, LLC (DBA Chesapeake Environmental Services LLC)	Telephone: 410-742-2718
	Fax: 4107422838

Address (street, city, state and zip code): 29631 Foskey Lane, Delmar, Maryland, 21875

Company Email Address & Contact Name: david@cesvac.com, David Banks

3. Owner/President Business Information

Name: David Banks	Business Telephone: 4107422718
-------------------	--------------------------------

Business Address if different from above (street, city, state and zip code):

4. Vehicle(s) Information (Attach additional sheets if necessary to identify each vehicle used for transport.)

Make	Model	Year	Vehicle Type (Tank, Trailer, Etc.)	License Plate Number	State of Registration	Capacity (gal)
------	-------	------	--	----------------------------	--------------------------	-------------------

* Please submit a Certificate of Insurance for each vehicle listed demonstrating commercial automobile liability insurance with a combined single limit of at least \$100,000.

*Certificate of insurance uploaded: **DNREC Liquid Waste Hauler 2024 COI.pdf , Vehicle List.docx***

5. Please Check Type(s) of Waste Being Transported and Provide the Information Requested in the Indicated Sections for Each Waste Type Checked

		Waste Type	Quantity Collected
	✓		
i.	✓	Septage	15,000 gal/yr
ii.	✓	Holding Tank Waste	5,500 gal/yr
iii.	✓	Grease Trap Waste and/or Cooking Oil Waste	500 gal/yr
iv.	✓	Portable Toilet Waste	1,000 gal/yr
v.		Municipal or Industrial Biosolids	# wet tons/yr
vi.		Sludge From Package Treatment Plants	# wet tons/yr
vii.	✓	Other Non-Hazardous Liquid Waste	20,000,000 gal/yr

Documents required for all new permit applications *and* renewals:

- Attach an Operation Plan detailing the following:
 - a spill reporting and clean-up plan,
 - plans for cleaning vehicles,
 - recordkeeping procedures and
 - days and hours of operation.
- Attach a list of all disposal facilities to be used. Include a copy of the permit/authorization letter from each disposal facility stating the company is currently authorized to discharge the requested waste stream (i.e. septage, holding tank waste, portable toilet waste, etc.) to the facility. Authorization documentation is required for both new and renewal applications.

7 DelC §6023(d): No person shall haul, convey or transport any liquid waste in any container without a license issued by the Department.

Septage
<p>1. Attach a list of all Class F Licensees currently working for the company.</p> <p>If there are no Class F licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. In order for an individual to obtain a Class F license.</p>
<p>Class F Licenses uploaded: <i>CES Class F Driver List.pdf</i>, <i>Beau Williams Class F License Card 2024.pdf</i>, <i>Edward Webb Class F License Card 2024.pdf</i></p>

Holding Tanks
<p>1. Attach a list of all Class F Licensees currently working for the company.</p> <p>If there are no Class F licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. In order for an individual to obtain a Class F license</p>
<p>Class F Licenses uploaded: <i>CES Class F Driver List.pdf</i></p>

Grease Trap Waste and/or Cooking Oil Waste
<p>1. Attach a list of all disposal facilities to be used.</p>

2. Attach a list of all Class F Licensees currently working for the company.
If there are no Class F Licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. For a Class F License application, please contact the Licensing Coordinator at 302-739-9948.

Grease Trap Waste Disposal Facilities to be used: ***Grease Trap Disposal Waste Facility - Town of Hurlock.pdf***

Class F Licenses Uploaded: ***CES Class F Driver List.pdf***

Portable Toilets

1. Attach a list of all Class F Licensees currently working for the company.
If there are no Class F Licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping.

Class F Licenses uploaded: ***CES Class F Driver List.pdf***

3. Quantity of portable toilets you own: **0**

Municipal and Industrial Biosolids

1. Identify all Facilities the company will service by attaching a table listing the following:
Facility Name of Sludge Generator # Estimated Volume of Sludge to be Transported # Disposal Facility*
* If sludge is to be land applied, include the current Agricultural Utilization Permit Number for that facility.

Municipal and Industrial Biosolids *Disposal Facilities:*

2. Provide transportation routes from all generating facilities to all applicable disposal facilities.

Municipal and Industrial Biosolids *Transportation Routes:*

3. Indicate any treatment the sludge has undergone before transportation (for example anaerobic digestion, aerobic digestion, lime stabilization, composting, or dewatering).

Sludge Treatment Description Upload:

4. Provide results of a laboratory analysis of a representative sample of the sludge which was obtained not more than 6 months before submission of the application unless these results would be submitted as a part of the land application program. The analysis shall include, as a minimum, percent solids, pH, and the dry weight concentration of total nitrogen, ammonium, nitrate, total phosphorous, total potassium, cadmium, copper, mercury, nickel, lead, zinc, arsenic, selenium, and molybdenum.

Sludge From Package Treatment Plants Laboratory Analysis Uploaded:

Sludge From Package Treatment Plants

1. Identify all Facilities the company will service by attaching a table listing the following:
Facility Name of Sludge Generator # Estimated Volume of Sludge to be Transported # Disposal Facility*

* If sludge is to be land applied, include the current Agricultural Utilization Permit Number for that facility.

Sludge From Package Treatment Plants *Disposal Facilities*:

2. Provide transportation routes from all generating facilities to all applicable disposal facilities.

Sludge From Package Treatment Plants *Transportation Routes*:

3. Indicate any treatment the sludge has undergone before transportation (for example anaerobic digestion, aerobic digestion, lime stabilization, composting, or dewatering).

Sludge Treatment Description Upload:

4. Provide results of a laboratory analysis of a representative sample of the sludge which was obtained not more than 6 months before submission of the application unless these results would be submitted as a part of the land application program. The analysis shall include, as a minimum, percent solids, pH, and the dry weight concentration of total nitrogen, ammonium, nitrate, total phosphorous, total potassium, cadmium, copper, mercury, nickel, lead, zinc, arsenic, selenium, and molybdenum.

Sludge From Package Treatment Plants Laboratory Analysis Uploaded:

Other Non-Hazardous Liquid Wastes

1. Describe the source, nature and make-up of the non-hazardous liquid waste to be transported.

The non-hazardous liquid waste that was referenced is referring to industrial wastewater. CES hauls and dumps industrial wastewater from most all of the places that it does business at.

2. Will any of the wastes contain petroleum products (i.e. oil, gas, grease, etc.)?
_____ Yes ___ No : no

* Transportation of liquid wastes containing any petroleum products will require a permit from the Division of Waste & Hazardous Substances (302-739-9400).

Operating Plan
Attach an Operation Plan detailing the following: a spill reporting and clean-up plan, plans for cleaning vehicles, recordkeeping procedures and days and hours of operation.
Operating Plan Upload: <i>CES Operating Plan Pg. 190.pdf , CES Operating Plan Pg. 248.pdf</i>

Disposal Facilities
Attach a list of all disposal facilities to be used. Include a copy of the permit/authorization letter from each disposal facility stating the company is currently authorized to discharge the requested waste stream (i.e. septage, holding tank waste, portable toilet waste, etc.) to the facility.
Disposal Facilities Upload: <i>Disposal Facility and Approval Letter List (1).pdf , Disposal Facility and Approval Letter List (2).pdf</i>

Proof of Bond (If applicable)
Proof of Bond - Part III B, Section 500 of the Guidance and Regulations Governing the Land Treatment of Wastes directs, as a requirement for keeping a permit issued under these Regulations, the permittee to file a bond or other security in the amount of Five Thousand Dollars (\$5,000) with the Department. The bond is to be payable to the Department and the obligation of the bond shall be conditioned upon the fulfillment of all requirements related to the permit. If this application is for permit renewal, please submit a copy of the current Transporters Bond certification.
Proof of Bond Upload: <i>DNREC Corporate Bond.pdf</i>

8. Certification	
I certify that all information submitted as part of this application is true and correct to the best of my knowledge and belief.	
Printed Name of Applicant: James Maddox	Date Submitted via DNREC ePermitting: 2024-07-25 13:57:29

License Card

Licensee, please cut your license card out and keep with you at all times when conducting business under this license.

License Conditions

- 1) All activity shall be performed in accordance with The Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, amended January 11, 2014.
- 2) The activity authorized by the license shall only be performed under the name of the person on the face of the license.
- 3) The licensee is responsible for correct and complete information submitted to the Department (address, telephone number, employer, etc.).
- 4) The licensee is responsible for providing proof of ten (10) annual continuing education training hours relating to wastewater. Carryover credit hours from a previous year are not accepted.
- 5) For all new licensees, please refer to the chart below for continuing education training requirements for the current calendar year only.
 If your license is issued in:
 - * January - April (required to complete 10 hours)
 - * May - July (required to complete 8 hours)* August - October (required to complete 6 hours)
 - * November - December (required to complete 0 hours)
- 6) Licenses issued are not transferable and expire on December 31st of each year.
- 7) All Class F licensees shall operate under a valid State of Delaware Non-Hazardous Liquid Waste Transporters Permit.
- 8) All Class F licensees shall be knowledgeable of the Non-Hazardous Liquid Transporters Permittee's Plan for the Prevention, Control and Clean-up of Accidental Discharges. A copy of the Plan is to be maintained on file with the Department.
- 9) All Class F licensees shall operate under a \$5,000 performance bond, or other form of security, is maintained on file with the Department for the duration of licensing.

10) All Class F licensees shall keep a copy of their Class F license identification card available for verification while performing any Class F license related work.

11) All Class F licensees shall enter into a "Sewage Holding Tank Maintenance Contract" with the property owner prior to pumping out holding tanks. A copy of the contract document must be submitted to the Department within 15 days of signing the contract.

12) All Class F licensees shall enter into a "Grease Trap Maintenance Contract" with the property owner prior to pumping out grease traps. A copy of the contract document must be submitted to the Department within 15 days of signing the contract. Class F licensees may not enter into a "Grease Trap Maintenance Contract" unless the Class F licensee has an approved facility to dispose of grease trap waste identified in the Non-Hazardous Liquid Waste Transporters Permit that he /she is operating under.

13) All Class F licensees shall not co-mingle septage and grease trap waste, unless specifically approved, in writing, by the facility(ies) that will be receiving the grease trap waste.

14) All Class F licensees shall conduct business in a manner that is compliant with the Safety, Tank Access and Tank Cleaning provisions of Section 7101 of the Delaware Administrative Code, as amended or revised.

15) All Class F licensees shall submit quarterly reports documenting the location, the 911 mailing address, and amount of septage removed in total gallons. This requirement becomes effective one (1) year after promulgation of these Regulations.

Chesapeake Environmental Services, LLC.
Standard Operating Procedures

Category: Spill Control Plan Sub Category: Equipment	Prepared by: EHS	Date: 8/17/2014 April 22, 2020
Revision: 1	No. 2014-3	Adopted: 9/01/2014

Spill Control Plan:

CES has an Emergency Response Plan located in all rolling fleet. It is the responsibility of every employee to be familiar with the emergency response plan. The emergency response plan contains forms in the appendix to assist with accident investigations, spill reporting and what actions to take in the event of a spill.

It is the responsibility all employees to replace forms when they are utilized.

Immediate Actions to Take If Spill Involves CES Equipment:

Less than 5 gallons should be reported to a supervisor. A spill or leak greater than 5 gallons should be reported immediately to EHS.

- 1: Immediately eliminate all ignition sources (no smoking, flares, sparks or flames within the immediate area).
- 2: Stop leak if you can without risk.
- 3: Do not touch or walk through spilled material.
- 4: Prevent entry into waterways, sewers, basements or confined areas.
- 5: If it is a large spill, dike or damn far ahead of the liquid for later disposal.
- 6: Absorb or cover with dry earth, sand or stay dry.
- 7: Utilize proper personal protection equipment.
- 8: Contact 911 and an emergency response coordinator.
- 9: If at a customer's facility notify that customer's management.

When loading or unloading trucks the driver shall take all precautions to attempt to accomplish the task in a containment area if possible. The driver shall also place a bucket under any connection that can leak. If any product is leaked onto the ground or any containment area the driver is responsible to make certain it is cleaned up prior to leaving.

Note: Emergency response coordinator will deploy all manpower and resources necessary to respond to the incident. EHS shall make certain that all areas are returned to their original condition with any contamination disposed of properly and proper copies of any manifest distributed to regulating authorities.

Important Reporting Phone Numbers:

Delaware: 1-800-662-8802 and 302-739-9401

MDE: 866 - 633-4686 CHEMTREC: 800-424-9300

Plans for Cleaning Vehicles:

CES personnel are to make sure vehicles are cleaned monthly or as needed.

Recordkeeping Procedures:

Records at CES, LLC are to be maintained for a minimum of 5 years.

Days and Hours of Operation:

The hours of operation for CES, LLC are to be Monday – Friday between the hours of 6:00 AM and 6:00 PM.

CERTIFIED MAIL

Return Receipt Requested

Mr. James Maddox
Clark's Environmental Services, LLC
29631 Foskey Lane
Delmar, Maryland 21875

Dear Mr. Maddox:

Enclosed herewith is the State of Maryland Refuse Disposal Permit No. 2021-WPT-0675, which is being issued in accordance with your renewal application of September 20, 2021. This permit authorizes the continued operation of the Connelly Mill Processing Facility and Transfer Station to be located at 29790 Connelly Mill Road in Delmar, Wicomico County. This permit supersedes and replaces Refuse Disposal Permit No. 2015-WTS-0675.

Please note that this permit is subject to the enclosed terms and conditions. This permit may be appealed by filing a written request for a hearing within thirty (30) days of the service. The request should be addressed to Ms. Kaley Laleker, Director, Land and Materials Administration, at the Department's address. You will subsequently be contacted regarding a hearing date. All permit hearings will be conducted in accordance with the Administrative Procedure Act. If no appeal is received within the specified time period, this constitutes acceptance of the terms and conditions of this permit.

For further information regarding this matter, please contact Mr. Kaveh Hosseinzadeh at (410) 537-3329 or kaveh.hosseinzadeh@maryland.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Ed M. Dexter".

is hereby authorized to discharge hauled septage to the Western Regional Treatment Plant (WRTP) located at 3201 West Front Street, Chester, Pennsylvania in accordance with the conditions set forth in this permit and Standard Conditions for Permits. Compliance with this permit does not relieve the permittee of its obligation to comply with any or all applicable pretreatment regulations, standards, or requirements under Federal, State, or local laws, including any such regulations, standards, requirements, or laws that may become effective during the term of this permit.

Noncompliance with any term or condition of this permit shall constitute a violation of the DELCORA Standards, Rules, and Regulations of the Western Service Area, as amended, and Resolution No. 2011-08, as amended.

This permit shall become effective on **August 1, 2023**, and shall expire at midnight on **August 31, 2025 (2-year term to last day of permit month)**.

If the permittee wishes to continue to discharge after the expiration date of this permit, an application must be filed for a renewal permit in accordance with the requirements of **Section A, No. 10 – Duty to Reapply**, a minimum of 60 days prior to the expiration date.

Bond No. B 1054121

POWER OF ATTORNEY

Non-Hazardous Waste Transporter

SELECTIVE INSURANCE COMPANY OF AMERICA, a New Jersey corporation having its principal office at 40 Wantage Avenue, in Branchville, State of New Jersey ("SICA"), pursuant to Article VII, Section 1 of its By-Laws, which state in pertinent part:

The Chairman of the Board, President, Chief Executive Officer, any Executive Vice President, any Senior Vice President or any Corporate Secretary may, from time to time, appoint attorneys in fact, and agents to act for and on behalf of the Corporation and they may give such appointee such authority, as his/her certificate of authority may prescribe, to sign with the Corporation's name and seal with the Corporation's seal, bonds, recognizances, contracts of indemnity and other writings obligatory in the nature of a bond, recognizance or conditional undertaking, and any of said Officers may, at any time, remove any such appointee and revoke the power and authority given him/her.

does hereby appoint **Deborah A. Beckett**

, its true and lawful attorney(s)-in-fact, full authority to execute on SICA's behalf fidelity and surety bonds or undertakings and other documents of a similar character issued by SICA in the course of its business, and to bind SICA thereby as fully as if such instruments had been duly executed by SICA's regularly elected officers at its principal office, in amounts or penalties not exceeding the sum of: **Five Thousand Dollars (\$5,000.00)**

Signed this 11th day of March, 2024

MY COMMISSION EXPIRES 6/2/26

Notary Public

The power of attorney is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of SICA at a meeting duly called and held on the 6th of February 1987, to wit:

"RESOLVED, the Board of Directors of Selective Insurance Company of America authorizes and approves the use of a facsimile corporate seal, facsimile signatures of corporate officers and notarial acknowledgements thereof on powers of attorney for the execution of bonds, recognizances, contracts of indemnity and other writing obligatory in the nature of a bond, recognizance or conditional undertaking."

CERTIFICATION

I do hereby certify as SICA's Corporate Secretary that the foregoing extract of SICA's By-Laws and Resolutions is true in force and effect and this Power of Attorney issued pursuant to and in accordance with the By-Laws is valid.

Signed this 11th day of March, 2024

Michael H. Lanza, SICA Corporate Secretary
