Shareef J Bailey

has been issued a

On-Site Wastewater Liquid Waste Hauler (Class F) License
License Number: 6263F

Valid from September 03, 2024 through December 31, 2024

In the State of Delaware pursuant to the authorities set forth in 7 Del C Ch 60, Section 6023. Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems Delaware Administrative Code 7101, Section 1.0.

Sarah Silves, Licensing Program Coordinator
DNREC Division of Water

This license may be revoked or suspended if the license holder violates any of the lawful rules or regulations of the board, any condition of this license, or the provisions of the act under which the license is issued.

1) All activity shall be performed in accordance with The Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, amended January 11, 2014.

2) The activity authorized by the license shall only be performed under the name of the person on the face of the license.

3) The licensee is responsible for correct and complete information submitted to the Department (address, telephone number, employer, etc.).

4) The licensee is responsible for providing proof of ten (10) annual continuing education training hours relating to wastewater. Carryover credit hours from a previous year are not accepted.

5) For all new licensees, please refer to the chart below for continuing education training requirements for the current calendar year only. If your license is issued in:

* January - April (required to complete 10 hours)

* May - July (required to complete 8 hours)* August - October (required to complete 6 hours)

* November - December (required to complete 0 hours)

6) Licenses issued are not transferable and expire on December 31st of each year.

7) All Class F licensees shall operate under a valid State of Delaware Non-Hazardous Liquid Waste Transporters Permit.

8) All Class F licensees shall be knowledgeable of the Non-Hazardous Liquid Transporters Permittee's Plan for the Prevention, Control and Clean-up of Accidental Discharges. A copy of the Plan is to be maintained on file with the Department.

9) All Class F licensees shall operate under a \$5,000 performance bond, or other form of security, is maintained on file with the Department for the duration of licensing.

10) All Class F licensees shall keep a copy of their Class F license identification card available for verification while performing any Class F license related work.

11) All Class F licensees shall enter into a "Sewage Holding Tank Maintenance Contract" with the property owner prior to pumping out holding tanks. A copy of the contract document must be submitted to the Department within 15 days of signing the contract.

12) All Class F licensees shall enter into a "Grease Trap Maintenance Contract" with the property owner prior to pumping out grease traps. A copy of the contract document must be submitted to the Department within 15 days of signing the contract. Class F licensees may not enter into a "Grease Trap Maintenance Contract" unless the Class F licensee has an approved facility to dispose of grease trap waste identified in the Non-Hazardous Liquid Waste Transporters Permit that he/she is operating under.

13) All Class F licensees shall not co-mingle septage and grease trap waste, unless specifically approved, in writing, by the facility(ies) that will be receiving the grease trap waste.

14) All Class F licensees shall conduct business in a manner that is compliant with the Safety, Tank Access and Tank Cleaning provisions of Section 7101 of the Delaware Administrative Code, as amended or revised.

15) All Class F licensees shall submit quarterly reports documenting the location, the 911 mailing address, and amount of septage removed in total gallons. This requirement becomes effective one (1) year after promulgation of these Regulations.

Re: Disposal Approval

Dear Ms. Withers:

Please allow this letter to confirm DELCOA's ability and capacity to accept septage, holding tank, grease trap, municipal/industrial biosolids, package treatment plant sludge, and other non-hazardous liquid waste for treatment at our Western Regional Treatment Plant (WRTP). This acceptance is contingent upon all waste streams remaining in compliance with our rules and regulations for hauled waste. Additionally, this will confirm that as haulers currently permitted to utilize our facilities, **Russell Reid** will be permitted to transport approved waste streams to the WRTP.

If you have any questions regarding this letter, please contact me directly at (610) 876-5523, extension 218.

Sincerely,

Renewal 2024 – Records Keeping

Our enterprise operating system, Tower, is the industry standard for dispatching waste collection vehicles and managing all relevant information to include;

- Service Date
- Driver/ Vehicle #
- Customer Name, address, contact name, phone, email, files, and associated communications.
- Service location and type of service.
- Material type i.e., septage, grease trap waste, etc.
- Disposal date, disposal destination, manifest # and quantity disposed.

Additionally, Tower allows us to run reports by all the above parameters in a pdf format.

All drivers dispatched to scheduled services will have a paperwork order capturing all of the above information along with service notes specific to the job.

At EOBD, all paperwork coming back to the service center is reviewed and the work order disposal tab in Tower is updated with the dump information including disposal date, material type, disposal facility, manifest # and gallon quantity.

All paperwork is scanned and filed in Doc-Link, our viewer where its easily accessible and can be downloaded and forwarded for future reference.

8. Spill Contingency Plan

The Russell Reid/Mr. John companies are committed to be environmentally responsible during the performance of the transportation and disposal of non-hazardous waste. In the event of a spill the following course of action is to be followed:

- Ensure that all personnel in the immediate area are notified of the type and extent of the spill.
- If it is possible to contain the spill without exposing personnel to hazardous conditions then the employee shall contain the spill.
- The Service Center Manager of the nearest branch shall be notified immediately of any spills.
- The Service Center Manager will notify the Logistics Supervisor and Environmental Compliance Manager and dispatch a crew from the nearest branch to clean up spill.
- The Environmental Compliance Manager or his designee will make notifications to the proper state environmental authorities.
- Depending on the type and quantity of the spill it will be cleaned up utilizing absorbents, degreasers, pressure washers and vacuum trucks. The Environmental Compliance Manager will coordinate the cleanup and ensure that all work is done to the satisfaction of the local, state, and federal authorities.

Russell Reid is a liquid waste hauling company based out of Keasbey, NJ with offices located in Sewell, NJ, Jackson, NJ, Glen Gardner, NJ and Lindenhurst NY.
