These next 6 questions are specific to how your system runs for Irrigation purposes.

8.	How many inches of water is required per week to meet the needs of your crop?
	1
9.	How many days would you typically spray irrigate in a week to meet the needs of item 8?
	${\cal H}$
10.	How many hours per day would the spray irrigation run on a typical day?
	12
11.	How many weeks is irrigation required during a typical growing season?
	12
12.	Do you require any pre/post-season irrigation to adjust soil moisture prior to planting the crop?
	NO
13.	If off-peak season irrigation is required, what is the weekly water need and for how many weeks?
	\mathcal{NO}
14.	Requested rates (Million Gals): 720,000 Day 12,000,000 Month 36,000,000 Year
,	Sub-Total System Total (check Sub if systems interconnect)
15	
15.	For irrigation projects only: Total tillable acreage: Irrigated acreage:
l6. ¹	What is the estimated consumptive use, as a percentage of the total withdrawal?
l7.]	For each well listed in #8 (above), attach Completion Reports and pumping test reports as specified in the Well Permit. If reports not available, attach all information about the wells or intakes.
18.	Describe all treatment the withdrawn water will receive prior to use.
19. 1	Are all facilities listed in #7 (above) individually metered? Identify those not metered and submit a proposed schedule for meter installation.

- 20. A. **Public water supply systems**: A Conservation Program which provides for the monitoring, prevention, and repair of leakage throughout the system, provides customer information relating to water conservation and water-saving devices.
 - B. Industrial, Commercial, and other water supply projects: A Conservation Program which provides for the investigation of all feasible conservation measures and provides for the implementation of those feasible as soon as possible. A description of leak-detection monitoring and all feasible process-modifications for minimizing both water usage and loss.
- 21. Drought Emergency Plan for projects with total system water withdrawal over 1.0 mgd. Attach the following plan description. (not applicable to irrigation projects).
 - A. Identification of all priority uses for water throughout the system or service area, water usage restriction schedules, implementation procedures, and any alternate sources of water.

I,	, hereby affirm this applicati	on.
and any plans, reports, or documents submitted with this a	application to be true and correct to the	ne
best of my knowledge and belief.
