RE: Piney Neck Wastewater Facility Diversion Transmission System
Sussex County Project S20-31 (Progressive Design-Build)
Wastewater Construction Application Letter (Checklist Item #9)

To Whom It May Concern,

Sussex County is proposing to install 29,497 LF of 12-inch HDPE Force Main starting at Piney Neck Treatment Facility and running along a private easement located parallel to an Overhead Power Transmission Main to the Tupelo Sands, LLC Property Parcel ID 134-15.00-93.01, near Dagsboro.

Sussex County is willing and able to provide wastewater service for construction of this project in compliance with the DNREC Construction of Wastewater Collection and Conveyance Regulations. Additionally, Sussex County intends to own, operate, and maintain the wastewater system upon completion of this project.

Wastewater will be treated at the South Coastal Regional Wastewater Facility in Frankford, Delaware. (NPDES No. DE 0050008).

If you have any questions, please do not hesitate to contact us.

Sincerely,

Michael Harmer, P.E.
County Engineer
