16. What is the estimated consumptive use, as a percentage of the total withdrawal? 100%

17. Can water be transferred from facilities other than those listed in #8 (above)? No If so, give the name and location, the use for the water, and list average daily, monthly, and yearly flows. (Interconnections with other systems should be marked on the map attached for #6).

18. Discuss the feasibility of interconnecting with other systems. (not applicable to irrigation projects).
