 Compliance of Section 12.0 of the Delaware Regulations Governing the Construction and Use of Wells.

Subsection 5.1.1.1 of the Delaware Regulations Governing the Construction and Use of Wells states in  
 relevant part: "Public wells shall have a minimum separation distance of 150 feet except as addressed in  
 subsections 5.1.1.5, 5.1.1.6 and 5.1.1.7.

The physical size of parcel # 2-30-13.00-0166.02 prohibits the required isolation distance of

 payable to the DNREC, State of Delaware allowing the Alternative Method of Compliance to be  
 advertised in newspapers of local and statewide circulation with a comment period of fifteen (15) days. A  
 public hearing will be held if a meritorious request is received within the fifteen (15) day period.

I, FAHMIS SMADI hereby affirm this application and any plans reports, or documents  
 submitted with this application to be true and correct to the best of my knowledge and belief.
