

NON-HAZARDOUS LIQUID WASTE TRANSPORTERS PERMIT APPLICATION

Groundwater Discharges Section, Division of Water
DE Department of Natural Resources and Environmental
Control
89 Kings Highway, Dover DE 19901
(302) 739-9948

1. Permit Number (For renewals only):	DE-WH-195
---------------------------------------	-----------

2. Company Information

Company Name: Central Backhoe Services, LLC	Telephone: 302-398-6420
	Fax: 3023986421

Address (street, city, state and zip code): 28247 Round Pole Bridge Rd, Milton, Delaware, 19968

Company Email Address & Contact Name: centralbackhoe@gmail.com, Randall Craft

3. Owner/President Business Information

Name: Randall Craft	Business Telephone: 3025421919
---------------------	--------------------------------

Business Address if different from above (street, city, state and zip code):

4. Vehicle(s) Information (Attach additional sheets if necessary to identify each vehicle used for transport.)

#	Make	Model	Year	Vehicle Type (Tank, Trailer, Etc.)	License Plate Number	State of Registration	Capacity (gal)
1	International	9100 Septic Truck	2000	tanker	C116209	Delaware	3,000

* Please submit a Certificate of Insurance for each vehicle listed demonstrating commercial automobile liability insurance with a combined single limit of at least \$100,000.

*Certificate of insurance uploaded: **Central Backhoe coi.1 DNREC.pdf***

5. Please Check Type(s) of Waste Being Transported and Provide the Information Requested in the Indicated Sections for Each Waste Type Checked

		Waste Type	Quantity Collected
	✓		
i.	✓	Septage	950,000 gal/yr
ii.	✓	Holding Tank Waste	15,000 gal/yr
iii.		Grease Trap Waste and/or Cooking Oil Waste	gal/yr
iv.		Portable Toilet Waste	gal/yr
v.		Municipal or Industrial Biosolids	# wet tons/yr
vi.		Sludge From Package Treatment Plants	# wet tons/yr
vii.		Other Non-Hazardous Liquid Waste	gal/yr

Documents required for all new permit applications *and* renewals:

- Attach an Operation Plan detailing the following:
 - a spill reporting and clean-up plan,
 - plans for cleaning vehicles,
 - recordkeeping procedures and
 - days and hours of operation.
- Attach a list of all disposal facilities to be used. Include a copy of the permit/authorization letter from each disposal facility stating the company is currently authorized to discharge the requested waste stream (i.e. septage, holding tank waste, portable toilet waste, etc.) to the facility. Authorization documentation is required for both new and renewal applications.

7 DelC §6023(d): No person shall haul, convey or transport any liquid waste in any container without a license issued by the Department.

Septage
<p>1. Attach a list of all Class F Licensees currently working for the company.</p> <p>If there are no Class F licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. In order for an individual to obtain a Class F license.</p>
<p>Class F Licenses uploaded: <i>Central Backhoe Services LLC Class F Licensee as of April 3 2026.doc</i></p>

Holding Tanks

Grease Trap Waste and/or Cooking Oil Waste

1. Attach a list of all disposal facilities to be used.

2. Attach a list of all Class F Licensees currently working for the company.

If there are no Class F Licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping. For a Class F License application, please contact the Licensing Coordinator at 302-739-9948.

Grease Trap Waste Disposal Facilities to be used:

Class F Licenses Uploaded:

Portable Toilets

1. Attach a list of all Class F Licensees currently working for the company.

If there are no Class F Licensees currently working for the company, please note according to Section 4.1.6 of the State of Delaware Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, all individuals who will be responsible for removal, transportation or disposal of the solid and liquid contents of septic tanks, cesspools, grease traps, seepage pits, holding tanks, portable toilets or other wastewater treatment or disposal facilities must obtain a Class F license before pumping.

Class F Licenses uploaded:

3. Quantity of portable toilets you own:

Municipal and Industrial Biosolids

1. Identify all Facilities the company will service by attaching a table listing the following:

Facility Name of Sludge Generator # Estimated Volume of Sludge to be Transported # Disposal Facility*

* If sludge is to be land applied, include the current Agricultural Utilization Permit Number for that facility.

Municipal and Industrial Biosolids *Disposal Facilities:*

2. Provide transportation routes from all generating facilities to all applicable disposal facilities.

Municipal and Industrial Biosolids *Transportation Routes:*

3. Indicate any treatment the sludge has undergone before transportation (for example anaerobic digestion, aerobic digestion, lime stabilization, composting, or dewatering).

Sludge Treatment Description Upload:

4. Provide results of a laboratory analysis of a representative sample of the sludge which was obtained not more than 6 months before submission of the application unless these results would be submitted as a part of the land application program. The analysis shall include, as a minimum, percent solids, pH, and the dry weight concentration of total nitrogen, ammonium, nitrate, total phosphorous, total potassium, cadmium, copper, mercury, nickel, lead, zinc, arsenic, selenium, and molybdenum.

Sludge From Package Treatment Plants Laboratory Analysis Uploaded:

Sludge From Package Treatment Plants

1. Identify all Facilities the company will service by attaching a table listing the following:
Facility Name of Sludge Generator # Estimated Volume of Sludge to be Transported # Disposal Facility*

* If sludge is to be land applied, include the current Agricultural Utilization Permit Number for that facility.

Sludge From Package Treatment Plants *Disposal Facilities*:

2. Provide transportation routes from all generating facilities to all applicable disposal facilities.

Sludge From Package Treatment Plants *Transportation Routes*:

3. Indicate any treatment the sludge has undergone before transportation (for example anaerobic digestion, aerobic digestion, lime stabilization, composting, or dewatering).

Sludge Treatment Description Upload:

4. Provide results of a laboratory analysis of a representative sample of the sludge which was obtained not more than 6 months before submission of the application unless these results would be submitted as a part of the land application program. The analysis shall include, as a minimum, percent solids, pH, and the dry weight concentration of total nitrogen, ammonium, nitrate, total phosphorous, total potassium, cadmium, copper, mercury, nickel, lead, zinc, arsenic, selenium, and molybdenum.

Sludge From Package Treatment Plants Laboratory Analysis Uploaded:

Other Non-Hazardous Liquid Wastes

1. Describe the source, nature and make-up of the non-hazardous liquid waste to be transported.

2. Will any of the wastes contain petroleum products (i.e. oil, gas, grease, etc.)?

_____ Yes _____ No :

* Transportation of liquid wastes containing any petroleum products will require a permit from the Division of Waste & Hazardous Substances (302-739-9400).

Operating Plan
Attach an Operation Plan detailing the following: a spill reporting and clean-up plan, plans for cleaning vehicles, recordkeeping procedures and days and hours of operation.
Operating Plan Upload: <i>Pumper Cleaning Policy 4.3.2026.doc</i>

Disposal Facilities
Attach a list of all disposal facilities to be used. Include a copy of the permit/authorization letter from each disposal facility stating the company is currently authorized to discharge the requested waste stream (i.e. septage, holding tank waste, portable toilet waste, etc.) to the facility.
Disposal Facilities Upload: <i>Central Backhoe Services LLC List of Disposal Facilities Authorized April 2026.doc</i>

Proof of Bond (If applicable)
Proof of Bond - Part III B, Section 500 of the Guidance and Regulations Governing the Land Treatment of Wastes directs, as a requirement for keeping a permit issued under these Regulations, the permittee to file a bond or other security in the amount of Five Thousand Dollars (\$5,000) with the Department. The bond is to be payable to the Department and the obligation of the bond shall be conditioned upon the fulfillment of all requirements related to the permit. If this application is for permit renewal, please submit a copy of the current Transporters Bond certification.
Proof of Bond Upload: <i>Bond Pumper Truck 2026.pdf</i>

8. Certification	
I certify that all information submitted as part of this application is true and correct to the best of my knowledge and belief.

On-Site Wastewater Liquid Waste Hauler (Class F) License
License Number: 2467F

Valid from January 01, 2026 through December 31, 2026

In the State of Delaware pursuant to the authorities set forth in 7 Del C Ch 60, Section 6023. Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems Delaware Administrative Code 7101, Section 1.0.

A handwritten signature in black ink, appearing to read "Sarah Silves".

Sarah Silves, Licensing Program Coordinator
DNREC Division of Water

This license may be revoked or suspended if the license holder violates any of the lawful rules or regulations of the board, any condition of this license, or the provisions of the act under which the license is issued.

License Conditions

- 1) All activity shall be performed in accordance with The Regulations Governing the Design, Installation and Operation of On-Site Wastewater Treatment and Disposal Systems, amended January 11, 2014.
- 2) The activity authorized by the license shall only be performed under the name of the person on the face of the license.
- 3) The licensee is responsible for correct and complete information submitted to the Department (address, telephone number, employer, etc.).
- 4) The licensee is responsible for providing proof of ten (10) annual continuing education training hours relating to wastewater. Carryover credit hours from a previous year are not accepted.
- 5) For all new licensees, please refer to the chart below for continuing education training requirements for the current calendar year only. If your license is issued in:
 - * January - April (required to complete 10 hours)
 - * May - July (required to complete 8 hours)* August - October (required to complete 6 hours)
 - * November - December (required to complete 0 hours)
- 6) Licenses issued are not transferable and expire on December 31st of each year.
- 7) All Class F licensees shall operate under a valid State of Delaware Non-Hazardous Liquid Waste Transporters Permit.
- 8) All Class F licensees shall be knowledgeable of the Non-Hazardous Liquid Transporters Permittee's Plan for the Prevention, Control and Clean-up of Accidental Discharges. A copy of the Plan is to be maintained on file with the Department.
- 9) All Class F licensees shall operate under a \$5,000 performance bond, or other form of security, is maintained on file with the Department for the duration of licensing.
- 10) All Class F licensees shall keep a copy of their Class F license identification card available for verification while performing any Class F license related work.
- 11) All Class F licensees shall enter into a "Sewage Holding Tank Maintenance Contract" with the property owner prior to pumping out holding tanks. A copy of the contract document must be submitted to the Department within 15 days of signing the contract.
- 12) All Class F licensees shall enter into a "Grease Trap Maintenance Contract" with the property owner prior to pumping out grease traps. A copy of the contract document must be submitted to the Department within 15 days of signing the contract. Class F licensees may not enter into a "Grease Trap Maintenance Contract" unless the Class F licensee has an approved facility to dispose of grease trap waste identified in

the Non-Hazardous Liquid Waste Transporters Permit that he/she is operating under.

13) All Class F licensees shall not co-mingle septage and grease trap waste, unless specifically approved, in writing, by the facility(ies) that will be receiving the grease trap waste.

14) All Class F licensees shall conduct business in a manner that is compliant with the Safety, Tank Access and Tank Cleaning provisions of Section 7101 of the Delaware Administrative Code, as amended or revised.

15) All Class F licensees shall submit quarterly reports documenting the location, the 911 mailing address, and amount of septage removed in total gallons. This requirement becomes effective one (1) year after promulgation of these Regulations.

CENTRAL BACKHOE SERVICES LLC

UPDATED 4.3.2026

SEPTIC TRUCK ROUTINE MAINTENANCE CHECKLIST

Here's a breakdown of the key maintenance tasks that should be part of our regular checklist.

TANK CLEANING AND INSPECTION

Safety Measures

- **Wear PPE:** Always use appropriate gloves and protective gear when clean and operating truck.
- **Inspect Electrical:** Frequently check the battery and electrical components for corrosion.
- **Avoid Overheating:** Do not run the vacuum pump at full speed for extended period to avoid excessive wear.

Frequency: Daily Cleaning & Maintenance

- **Empty and rinse the tank** after discharging waste at a designated facility, wash the interior and exterior of the truck tank using high-pressure water to remove residue to prevent buildup of waste residue. Hardened sludge can impair suction and reduce tank capacity. Spray and wipe down truck interior with disinfectant (Lysol or Clorox Bleach) after interior is cleaned. Any sewage spills to ground are covered with Lime.
- **Tank Inspection for corrosion, dents, and weld cracks.** Check the vacuum tank for corrosion or damage.
- **Check gaskets and seals** for leakage or wear. Tight seals are critical for safe and odor-free operation.

- Apply **protective coatings** or liners to steel tanks if signs of internal corrosion appear.
- **Pump Care:** At the end of the day (with last pumping), open the ball valves at the bottom of the pump to drain any accumulated material and disposed waste at a designated facility. Any sewage spills to ground will be covered with Lime.

PUMP AND HOSE CARE

Frequency: Daily, Weekly and post-job inspections

- **Flush the pump system** with clean water at the end of each workday to prevent clogs and odor retention. Any sewage spills to ground will be covered with Lime.
- **Inspect hoses** for cracks, bulges, or soft spots.
- Check **vacuum pump oil levels** and change according to the manufacturer's schedule, typically every 300 hours.
- Examine **hose couplings and clamps** for tightness and integrity. A loose clamp can cause spills and pressure drops.
- **Grease fittings** on the PTO (Power Take-Off) drive to ensure smooth power transfer.

Central Backhoe Services LLC

Operation Plan

Spill Response, Reporting and Clean-up

Updated 4/1/2026 (Important: Need to Update Plan Annually)

Hours of Operation: Monday thru Friday (7 AM till 5 PM) – Saturday and Sunday and evening hours available for emergency service to our customers.

Contact Information: Randall (Randy) Craft and/or Debbie Craft

Contact Phone Number: 1-302-398-6420 (Office) or 1-302-542-1919

(Cell Phone – Randy Craft) or 1-302-542-0789 (Cell Phone – Debbie Craft)

Spill Reporting and Clean-up Plan including Notification and Initial Spill Response:

Central Backhoe Services LLC staff has been trained to respond to Spill Response, Reporting and Clean-up. In the event of a spill, the following actions should be taken (Please note: the order of actions may depend on the existing conditions):

- Notify 24 hour Delaware Department of Natural Resources and Environmental Control (DNREC) Complaint and Spill Notification Line at 1-800-662-8802.
- Notify Central Backhoe Services LLC Administrative Office at 1-302-398-6420
- Central Backhoe Services LLC Administrative office will notify immediate supervisor of Class F Licensee to be dispatched to the site of the spill.
- Class F Licensee to check cause and stop source of spill when possible without undue risk of personal injury.
- Restrict all sources of ignition without undue risk to personal injury.
- Make spill scene OFF LIMITS to unauthorized personnel.
- Report to acting “on-scene” coordinator upon spill response team arrival and provide assistance until response team is fully operational.
- Incident Report (Safety Tracking Tool) must be completed for Spill Incident.

Record Keeping, Reporting Protocol and Response Information:

When notifying the DNREC Complaint and Spill Notification Line and the Administrative Office of Central Backhoe Services LLC, the following information should be provided if known or can be reasonably be determined:

1. Name of individual reporting spill.
2. Date and time spill occurred (estimated time is accepted).
3. Number of injured personnel and nature of injuries.
4. Location of spill.
5. Substance spilled or released.
6. Amount spilled (estimated).
7. Time spill occurred (estimated).
8. Extent to which the spill has traveled.
9. Has spill been contained? Signs posted?
10. Any other pertinent information (i.e. other potential hazards).

Information will be recorded on an Incident Reporting (Safety Tracking) form. The supervisor shall be responsible to review report and implementing corrective action to prevent repeat incidents. In the event of the worker injury, the Risk Management contact must be notified to initiate Workers' Compensation process.

Emergency Response Equipment/Procedures:

- Warning signs are posted where hazardous materials are stored, handled or spill has occurred.
- Refer to Emergency Response Manual and MSDS (Material Safety Data Sheets) file located in the Administrative Office and Shop area of Central Backhoe Services.
- Supervisory personnel will perform routine inspections of equipment to ensure equipment is in good working order (no signs of wear and tear, leakage, etc) and spill kit and emergency kit is located on vehicle prior to each use of the vehicle.
- Spill kit to be located on vehicle within easy access of Driver.
- Spill kit to include Personal Protective Equipment for Driver and Supervisor that includes gloves, shoe covers, pants and shirt cover-up, goggles and

mask. Spill kit also to include disposal drum, absorbent material (lime), shovel and bag to cover shovel after use and bag to dispose of protective equipment.

Containment, Cleanup and Disposal:

- Due to the material composed of in the spill: Containment, Cleanup and Disposal of the material of the spill at location and cleaning of vehicle will be coordinated with DNREC Emergency Response Team (1-800-662-8802).

Posting Requirements:

- Hazard warning Informational Signs and Placards are posted at the site of Spill.
- Site-specific contingency plan and MSDS will be posted in prominent locations at Central Backhoe Services shop area and within the Pumping Vehicle.
- Spill plan is updated on an annual basis or anytime there is a change in operations or materials stored or at any time the plan has failed. Plan will be reviewed at this time for State and Federal Regulations compliance.
- Employees to receive annual training of requirements or anytime there is a change in operations or anytime the plan has failed.
