Governor Carney,  
The December 15th meeting that DNREC held informing Delaware citizens of adopting (mandating) California Clean Car Standards was a joke. The meeting participants that wrote comments in the zoom meeting chat window were overwhelmingly NEGATIVE. Primarily because you are taking away Delaware Citizens right to Representation.

**How is it possible that such sweeping changes that IMPACT EVERY DELAWARE CITIZEN'S DAILY LIVES can be implemented without being voted on by our elected state representatives?** YOU are talking away my right of representation.

It is not OK that unelected state agency/DNREC leaders can make this decision and force it on Delaware residents. **This needs to be debated and voted on by the Delaware legislature.** You need to show leadership and make the Legislature vote on this. Your Political Party has a clear Majority, so what ARE YOU AFRAID OF?

**NOT OK!** Looks like we need to bring in litigation lawyers to start teaching the politicians how to read the Delaware Constitution.
