Subject: Oppose Zero Emission Standards Mandate

Sirs:

This mandate will not help the environment. Check out the hidden costs behind electric vehicles. Has your staff done their homework? It appears not. If your staff has looked for non partisan facts, then tell me what the hidden costs are.

If you rationalize this mandate as doing what's good for the citizens despite themselves, you are becoming a dictator who acts by ego and deliberate ignorance and in the process is trying to jam down the throats of Delawareans a mandate that is foolish even in California and has no place in Delaware.

If you truly believe in this then get the legislature to take up the issue. Oh, that's right, then you won't get what you want.

You are guaranteed not to have my support if you proceed.

John Cordes
