Subject: Electric Vehicle Mandate and SB 35

To the Honorable Governor Carney and DNREC Shawn Garvin,

Please be informed that I am against both the above stated mandate and SB 35

There is no room in a free democratic society for any departmental mandates of any kind.

There are many logistical and practical reasons not to require citizens to burden the expense of EV's and the additional tax monies to implement the infrastructure necessary to support such vehicles.

Freedom of Choice is what is being eroded in this nation and will compromise free enterprise.

The same can be said of freedom robbing , extortion style union fees to keep one's job or establish free enterprise.

It's not right for a free people. I implore you to do what is right and not support these measures.

Sincerely,

Alberta K Hirt
