Subject: EV CARS

Dear Mr. Garvin !

What are you guys doing ... pushing EVs. You should let the free market system work on it's own.
PLEASE.

You need to understand the basics of a free market. Once you start pushing a personal agenda, like this, you are creating consequences, like disposal of BATTERIES that have a limited life, etc. etc., that you are currently blinded to.

Please understand the FREE market system (that you are not honoring) and do not push this stuff...
let it happen on its own accord.

Dave Libby
