Subject: Zero-Emissions Vehicle Mandate

Dear Secretary Garvin

I am very concerned about your zero-emissions vehicle mandate. I feel this will have serious consequences for Delaware citizens. Your mandate will drive up vehicle costs. The mandate will put small businesses out of commission. The burden for the increased costs will have it's greatest impact on lower-income minority individual and households. Transportation is critical to job placement, which is critical to home ownership which is critical to long-term stability.

While your mandate may sound good in theory and in slogan but the many negative consequences out weigh any benefits!

Please do not proceed!

Sincerely,

Suzanne Reph
