Good morning Mr. Garvin,

I am writing to voice my concern for DNREC's Zero Emission initiatives. This is not a viable path for Delaware. Our power grid is not able to handle the load that these regulations would impose and our small state cannot handle the economic devastation that would surely ensue. Please consider hearing the voice of the people against these regulations. I would be happy to further elaborate my concerns if you are willing to listen.

Sincerely,

*Megan Warnick*
