Subject: Zero-Emission Vehicle Standards Mandate

Gov. Carney:

The ZEV regulation you are about to propose is bad for Delaware and its citizens, especially senior citizens. I have no desire to buy an electric vehicle to replace a perfectly good gasoline powered car. Delaware does not need to follow in the footsteps of California. People in Delaware didn't elect you to lead the state to a place where the folks won't have a decision on the type of car they wish to buy. If you truly want to outlaw internal combustion vehicles, I suggest you work through the legislature and not by regulation. The citizens of Delaware deserve to have a say in this issue that will significantly affect their wallet and lifestyle.

Vince Kranz
