Subject: Fwd: Zero-Emission vehicle mandate

Below message was sent to Gov. Carney. We the people should be considered making changes where it affects our freedoms. This country has seen so many changes and not all of them are to the good of the people. We are against this mandate.

May God bless.

Subject: **Zero-Emission vehicle mandate**

Gov. John Carney,
In reply to the mandate that you are pushing for the State of Delaware, my husband and myself believe you are undermining our freedom. You are trying to control us with mandates from the State.

Middle income and poor families will not be able to afford the vehicles you are requiring car dealers to sell. How do you expect them to get supplies they need? What about seniors on fixed income? Where are the used batteries going? How do you expect to get new batteries when there is no ore to produce them? How many small businesses you will be shutting down? How are they going to charge all those vehicle? Who is going to pay for the charging stations? THE TAXPAYERS AGAIN. Will the electric grind be able to handle it?

Stop this insanity of controlling us and our freedom of speech. Don't be follower of the socialist state of California.

May God Bless
The Newton's
