Subject: California

Have all of you completely drank the crap that Biden and Soros and California is serving. No one will want to live in Delaware. Why will people visit the state. People will purchase their vehicles in Maryland, New Jersey or Pennsylvania or Virginia.

I and a lot of others might not want to live here in Delaware. The only folks that might still be here are the Democrats that are pushing all of this non-sense.

Why not put this up to the voters instead of you and yours.

Bob J. Tomlinson
