To: Carney, John (MailBox Resources) <John.Carney@delaware.gov>; Garvin, Shawn M. (DNREC) <Shawn.Garvin@delaware.gov>; Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Governor Carney, Mr. Garvin and Mr. Krall:

I am writing once again to let you know I oppose the Delaware electric vehicle mandate.

The technology is not ready for use here in our state. This mandate would be a burden to all of us who cannot afford to buy and electric vehicle, especially our low income residents, who you should be a voice for. We do not have enough charging stations. This mandate would restrict our freedom, especially those who newly retired to our state for all the tax benefits we enjoy. Our movement would be restricted, where we thought we would have access to our families in our neighboring states.

Please remember that you represent us. Your job is to keep the state running, to keep us safe, and to work for the good of all Delaware residents. Imposing California electric vehicle mandates on us would make our lives so much worse and take away our freedom, on which this country has been based.

Thank you,  
Pam Procaccini  
Frankford, Delaware
