Subject: DNREC's Zero Emissions Mandate

Dear Governor Carney and DNREC Secretary Garvin,

I oppose the DNREC's Zero Emissions Mandate. All you're doing is making a bigger gap between the rich and the poor. Poor families can't afford EV's. They can't afford the repairs for EV's. I have a friend that is an independent vehicle mechanic and you will be putting him out of business because he can't afford the equipment to work on EV's.

While I'm all for EV's for people that can afford them, buying an EV or gas vehicle should be left up to each individual, NOT YOU!

Thank you,
Dawn R. LeCates
