Subject: NO to the California clean car regulations

Please say NO to the California clean car mandate. This is Delaware, not California. We want choices not mandates. This would put many small businesses out of business including vehicle repair shops and gas stations. Small businesses cannot afford to purchase electric vehicles or to install charging stations. We are not ready for this mandate at this time. Have you thought about what would happen if the electric grid was down for a period of time? Please, do not impose this mandate on the people of Delaware.

Thank you,
Shelli Shea
