To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Kyle Krall,

Delaware MUST adopt the ACC2 program. There are so many clear reasons that this is the most sensible, viable thing to do: 1. For our health and the health of our environment- more than 81% of Delawareans live in counties that do not meet federal EPA clean air standards for ozone; our coastal areas are under threat by rising sea levels and more intense storms 2. We don't want our state to be left behind as the world transitions away from fossil fuels to electricity/renewable energies. ACC2 establishes requirements on automakers for providing new EVs to DE markets - currently they aren't available for purchase. Availability must go hand in hand with the EV infrastructure that is now being built. It does NOT prevent people from continuing to buy, own, drive gasoline cars. 3. Economy- Adopting ACC2 will signal to the markets in Delaware that we are open for business in this huge job creating venture. So please make the right decision and adopt ACC2. Thank you.

DNREC Staff,

I want to urge you to not listen to the opposition groups that are pouring thousands of dollars into Delaware to try and stop your progress on this vital front!

The clean cars program you are working on addresses the climate crisis by reducing greenhouse gas emissions. 70% of transportation greenhouse gas emissions come from passenger cars and trucks.

This shift also addresses the serious health impacts from smog and other tailpipe pollution like asthma, cardiovascular disease, impaired lung development in children, and preterm and low-birthweight infants, for all Delawareans but particularly disadvantaged communities. The ACCII also includes improvements in the air quality standards that protect our health.

Delaware drivers deserve to have access to these clean, money-saving, health protecting vehicles that are almost completely unavailable from Delaware dealers until we join this program.

Don't let the opposition's misrepresentations get in the way of this important opportunity.

The many benefits are compelling and I urge you to stay the course and pass this regulation.

Thank you for your consideration.

Sincerely,

Sue Vatnick
