To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Kyle Krall,

Dear Ms. Gray and all DNREC personnel,

As an environmental lawyer who worked at EPA specializing in enforcing the Clean Air Act, I urge you to ignore the naysayers and proceed to realize for Delaware the climate and health benefits of ACCII. Progress toward greenhouse gas reduction will involve change. All environmental benefits require businesses and individuals to make some adjustments but it appears that the reaction to ACCII is overblown. The proposed regulations are being misinterpreted and misunderstood. If DNREC adopts the ACCII regs, people who now opposed the regulations will gradually realize that they are not draconian, but simply make electric vehicles available for sale in-state. Delawareans will breathe cleaner air. Tailpipe emissions will be reduced and Delaware will contribute to mitigating the dangers of climate change. Thank you, DNREC, for all your work on this important issue.

Mary Douglas

DNREC Staff,

I want to urge you to not listen to the opposition groups that are pouring thousands of dollars into Delaware to try and stop your progress on this vital front!

The clean cars program you are working on addresses the climate crisis by reducing greenhouse gas emissions. 70% of transportation greenhouse gas emissions come from passenger cars and trucks.

This shift also addresses the serious health impacts from smog and other tailpipe pollution like asthma, cardiovascular disease, impaired lung development in children, and preterm and low-birthweight infants, for all Delawareans but particularly disadvantaged communities. The ACCII also includes improvements in the air quality standards that protect our health.

Delaware drivers deserve to have access to these clean, money-saving, health protecting vehicles that are almost completely unavailable from Delaware dealers until we join this program.

Don't let the opposition's misrepresentations get in the way of this important opportunity.

The many benefits are compelling and I urge you to stay the course and pass this regulation.

Thank you for your consideration.

Sincerely,

Mary Douglas
