To: Krall, Kyle (DNREC) <Kyle.Krall@delaware.gov>

Dear Kyle Krall,

Please help my wife Deanna. My kids Vivien and Truman. Their kids. And onward.

Clean vehicles are not some crazy plot by commies and zealots. It's just common sense and it's the best choice for us all. I don't understand how anyone who opposes this and publishes and repeats fossil fuel propaganda can look in the mirror.

Opponents of clean vehicles will benefit, and no one is coming to take their cars away from them. Internal combustion engine cars catch fire much more per car than battery electric vehicles. The list of distortions and lies goes on and on but the future based on science and wisdom is here.

Please rise above. Enact the cleanest plan.

DNREC Staff,

I want to urge you to not listen to the opposition groups that are pouring thousands of dollars into Delaware to try and stop your progress on this vital front!

The clean cars program you are working on addresses the climate crisis by reducing greenhouse gas emissions. 70% of transportation greenhouse gas emissions come from passenger cars and trucks.

This shift also addresses the serious health impacts from smog and other tailpipe pollution like asthma, cardiovascular disease, impaired lung development in children, and preterm and low-birthweight infants, for all Delawareans but particularly disadvantaged communities. The ACCII also includes improvements in the air quality standards that protect our health.

Delaware drivers deserve to have access to these clean, money-saving, health protecting vehicles that are almost completely unavailable from Delaware dealers until we join this program.

Don't let the opposition's misrepresentations get in the way of this important opportunity.

The many benefits are compelling and I urge you to stay the course and pass this regulation.

Thank you for your consideration.

Sincerely,

Jeffrey Terrell
