Subject: Electric Cars

Hello - I want to express my concerns About These Electric Vehicle Mandates that are trying to be put in place.

Excuse Me, but Have NO Right to Mandate Anything. You, Mr. Garvin, are Not Elected, You Are Appointed.

How can someone, working retail, making \$14.40/hr.. possibly purchase a \$50k ELECTRIC vehicle and still afford monthly bills, food, etc?

Get a grip - in Joe Biden's words-- Come On Man, True Story!

Maybe you guys should work in the "Real World" VS. Your "Storybook World".

Thank you.
