Strongly opposed to DNREC Zero Emissions!!!

<https://www.nbcnews.com/business/business-news/tesla-car-battery-fire-needed-6000-gallons-water-to-extinguish-rcna68153>

Please take 2 minutes to read this article from NBC referencing a random Tesla fire. How do you explain this? How do you propose we dispose of the electric car batteries? How can you honestly proceed with this bill???

I am a former Democrat born in Delaware. I feel like my former political party, the Democrats have gone astray from logical thinking.

I'm concerned for small businesses, low income families and myself.

Consider rethinking this horrible bill.

Sincerely a concerned Delawarean,

Mrs. Lindsay A Short
