Subject: I Support Clean Cars in DE
Date: Friday, March 3, 2023 7:13:08 AM

Dear Kyle Krall,

I support clean transit in DE.

DNREC Staff,

I am IN FAVOR of getting more EVs and Plug-in Hybrids delivered to Delaware! As a country and world, we need to transition to zero-emissions vehicles as soon as possible. we need our state government to adopt the California Advanced Clean Cars II (ACCII) regulations to have the availability of electric cars for sale in-state needed to make the transition and greenhouse gas reductions.

Thank you,

Salila

I want to urge you to not listen to the opposition groups that are pouring thousands of dollars into Delaware to try and stop your progress on this vital front!

The clean cars program you are working on addresses the climate crisis by reducing greenhouse gas emissions. 70% of transportation greenhouse gas emissions come from passenger cars and trucks.

This shift also addresses the serious health impacts from smog and other tailpipe pollution like asthma, cardiovascular disease, impaired lung development in children, and preterm and low-birthweight infants, for all Delawareans but particularly disadvantaged communities. The ACCII also includes improvements in the air quality standards that protect our health.

Delaware drivers deserve to have access to these clean, money-saving, health protecting vehicles that are almost completely unavailable from Delaware dealers until we join this program.

Don't let the opposition's misrepresentations get in the way of this important opportunity.

The many benefits are compelling and I urge you to stay the course and pass this regulation.

Thank you for your consideration.

Sincerely,

Salila Shen
