**Subject:** I Oppose Gas/Diesel Vehicle Ban

Dear Gov. Carney,

I Oppose your ban on gas and diesel vehicles. I, like the majority of Delawareans, do not have a garage for the installation of a charger. I also do not have \$60,000+ to spend on my next vehicle.

The technology for clean gas and diesel vehicles has gotten better over the years, and will continue to improve. Also, the amount of fossil fuels used in manufacturing electric vehicles + the battery is estimated to take at least 60,000 miles before the break -even point is reached.

In addition, the amount of lithium and rare earth minerals needed for all the vehicles (especially California) will result in the strip-mining of large swaths of the planet.

Thank You for your kind attention,  
Joseph Janes
