Subject: Zero-Emission Vehicle Standards

The purpose of this communication is to state that I **do not** support a regulation **banning** the sale of new gasoline or diesel-fueled automobiles in our State of Delaware.

The research that I have done on this matter shows that the cost to manufacture and operate electric powered vehicles far outweighs the cost of gasoline and diesel-powered vehicles.

I served 50 years in the maintenance and repair of such vehicles and 41 of those years in my own business; B&D Automotive, Inc. in Claymont. I have since retired and sold the business in 2022.
