Subject: Electric Vehicles

Governor Carney and Mr. Garvin,

The people of Delaware have spoken. **We the people do not want an electric car mandate.**

Governor, as an elected official you are to represent We The People, not the world's agenda.

We the People of Delaware have spoken. See the attached poll.

Mr. Gavin, You sir are not an elected official and I would hope this would go to court should you push this this agenda. You were not elected official. The employees yes, **employees** of DNREC continually push for power and control that they should not have.

Stop trying to make Delaware into god awful California.
