Subject: Opposition to Electric Car Mandate proposed by DNREC

Dear Sirs,

I am writing you as a voter, concerned citizen of Sussex County, and a Volunteer Fireman.

After recently hearing about the mandate by DENREC I would like you to know that I STRONGLY DISAGREE with this proposal.

Regardless of your stance on climate change or fossil fuel consumption this bill is an extreme abuse of power by unelected officials.

I am strongly in favor of exploring other options of power and automobiles however this is not something that should be imposed on me as a citizen. If and when an alternate form of transportation makes sense for me and my family it should be my right to choose.

Regards

Jason S Russell
