Subject: In support of the ACCII

I strongly support the ACCII, for all the sound and logical reasons that it is good for Delaware, for our health, breathing clean air, for our environment and for the economic development of our State.

At my state Reps coffee this morning, I heard some of the GOP pushback from the "fringey" part of the party. While those folks are adamant and eager to have their voices heard, I am certain that our state leaders will follow the science and those on the reasonable side and implement this much needed program.

While I am not an expert, I will be vocal in supporting this program and will attend the public hearing in support of it.

Thank you for the good work that you do for Delaware's environment.

Jill Gaumer
