Subject: electric car mandate

Dear Secretary Garvin,

I am writing to you because I am opposed to the mandate regarding electric vehicles.

I live on a fixed income and will not be able to afford a new vehicle.

I love our environment but I am NOT convinced that electric cars and windmills are better for the environment, after you consider the impact of mining and the serious waste that results from the batteries that cannot be recycled.

Furthermore, I live in Sussex County and if there ever was a need to evacuate the area, an electric vehicle will surely lose power.

I urge you to reconsider the electric vehicle mandate. I would have to reconsider living in this state if this is allowed.

Thanking you in advance.

Laura Sue Smith
